Tool Search: Missing Photo

The Missing Photo - Student Report returns a list of students who do not have a photograph of themselves stored in Campus. This report can be generated after importing student pictures using the [Photo Import](#) tool (when adding multiple photos) or the [Demographics](#) tab (when adding just one image).

Report Logic

Only students are included in the report; staff are not included in this report. Students marked as No Show on their enrollments records are excluded from the report.

This report cannot be run at the state edition level.

Report Editor

Field	Description
Calendar Selection	<p>Selection determines from which calendar(s) the students are reported.</p> <p>At least one calendar must be selected in order to generate the report. When a calendar is selected in the Campus toolbar, that calendar is automatically selected in the calendar.</p> <p>Calendars can be selected by active year, by school name or by year.</p>
Student Selection	<p>Students can be selected by Grade Level or by an Ad hoc Filter.</p> <p>When generating by grade levels, all Students can be selected, if desired. While this is a simple report, remember that in larger schools, choosing the entire student population may cause performance issues.</p> <p>Instead of selecting a grade level, select an ad hoc filter that includes the students who should be included in the report. Only those students included in the filter are considered to be included in the report (e.g., if students in that filter have a picture uploaded, they are not included on the report).</p>
Active Students Only	<p>When marked, only currently enrolled students in the selected year and calendar are included, based on the entered Enrollment Effective Date.</p> <p>When not marked, all students enrolled in the selected year and school calendar are included, which could include students whose enrollment records are ended.</p>
Enrollment Effective Date	<p>This entry only applies when the Active Students Only checkbox is marked.</p> <p>Enrollments active as of the entered date (defaulted to the current date) are included in the report. Enter dates in <i>mmddyy</i> format or use the calendar icon to select a date.</p>

Field	Description
Report Format	The report can be generated in CSV, DOCX or PDF format.

Generate the Report

1. Select the **calendar(s)** to include in the report.
2. Select the students to include in the report by choosing selecting a **Grade level** or an **Ad hoc filter**.
3. Mark the **Active Student Only** checkbox to only return those students currently enrolled, if desired.
4. If the **Active Student Only** checkbox is marked, enter the desired Enrollment Effective Date.
5. Select the desired **Report Format**.
6. Click the **Generate Report** button. The report displays in the selected format.

The report sorts students by school number, grade level, and student last name.
