

Flags (Student)

Last Modified on 10/21/2024 8:19 am CDT

[Tool Rights for Flags](#) | [Student Flag Information in Ad hoc Query Wizard](#) | [Student Flag Editor Definitions](#) | [Multiple Flag Assignment](#) | [Assign Flags to Students](#) | [End Flag Assignment](#) | [Delete Flag Assignment and Inactive Flags](#) | [Blended Learning Group Flags](#) | [Documents](#)

Tool Search: Flags

Flags may list special information on file in the office, that a student has certain living requirements, or that they are involved in a special program that uses flags (like graduation programs or has an LEP record) for example. There is no limit to the number of flags that can be assigned to a student.

Flags related to general information (demographics, contact, etc.) are created in the [Flags](#) tool in the Program Administration area. Medical conditions can display a flag next to the student's name; these are assigned as [Health Conditions](#). Graduation programs can display a flag next to the student's name; these are assigned and managed in the [Graduation Programs](#) tool. Blended Learning flags display when a student is assigned to a [Blended Learning Group](#).

The screenshot shows the 'Flags' tool interface for a student named Abegg, Dylan V. The student's profile information is displayed at the top, including their grade (11), ID number (#171900001), date of birth (09/15/04), and counselor (Joy Counselor). Below this, a row of icons represents various flags assigned to the student: Medical Condition(s), Hall Monitor, Custody Restriction, Peer Tutor, Safety Patrol, NHS, and Computer Science Pathway. A 'New' button and a 'Documents' tab are visible. The main area is titled 'Student Flag Editor' and contains a table with the following data:

Flag	Start Date	End Date	Eligibility Start Date	Eligibility End Date	User Warning
NHS	07/27/2020				
Safety Patrol	07/05/2021				
Peer Tutor	09/28/2021				
Hall Monitor	04/04/2022				
Custody Restriction	07/04/2022				Do not release to father.

Student Flags

Not all flags display an image next to the student's name. The display is determined by the settings assigned to the flag when it is created in Program Admin. When an image is displayed, it appears below to the student's name.

This screenshot shows the 'Student Flag Display' interface for the same student. It displays the student's profile information and the row of flag icons. A red box highlights the icons for 'Medical Condition(s)', 'Hall Monitor', 'Custody Restriction', 'Peer Tutor', 'Safety Patrol', 'NHS', and 'Computer Science Pathway'. The 'Custody Restriction' icon is highlighted with a red box, indicating it is the flag being focused on.

Student Flag Display

When a User Warning is entered for the flag, that text displays when hovering over the flag. The text that displays when hovering over a student flag is truncated to 100 characters. The whole message of the User Warning can be viewed by clicking on the student flag.

User Warning

Tool Rights for Flags

Full access to Student Flags requires **RWAD** tool rights to the following:

- Student Information > General > **Flags**
- Student Information > General > Flags > **Contact Flags**
- Student Information > General > Flags > **Medical Flags**
- Student Information > General > Flags > **State Reporting**
- Student Information > General > Flags > **Special Ed**

For privacy reasons, State reported, Contact, Medical and Special Education flags require additional tool rights to be assigned to the user to view, add or modify flag assignments. The Flag subrights of Contact Flags, Medical Flags, State Reporting and Special Ed need to be assigned to users who are responsible for adding these types of flags. In addition, in order to see the Special Education flag in the header a user must have rights to Special Education information.

For reference:

- **R** rights allow users to view flags assigned to the student.
- **W** rights allow users to modify existing flags assigned to the student.
- **A** rights allow users to add new flags to the student.
- **D** rights allow users to permanently delete assigned flags from the student.

Top level Flags rights override subrights. It is assumed that users with Flags tool rights may need the same level of access for one or more subrights. Users cannot be given subrights only, so

consider that you may need to grant more rights than needed to users who are intended to only work with subright flags.

Using the Contact Flags subright as an example, this means:

- A user with R rights to Contact Flags who has RWAD rights at the Flags level inherits RWAD access to Contact Flags, even though only R is selected.
- It is not possible to grant a user Contact Flags rights without corresponding Flags level rights. A user with no Flags rights and RWAD Contact Flags subrights has no access to Contact Flags.
- A user with RWAD rights at the Flags level and R rights to Contact Flags inherits RWAD rights from Flags at the Contact Flags level
- It may be helpful to think of Flags subrights as additional flag types you wish users to see, with the same level of access they have for general flags.

Flags Tool Rights

Student Flag Information in Ad hoc Query Wizard

Student Flag information is available in the Query Wizard for Student data types in the **Learner > Programs/Flags** folder. The Ad hoc Field names are included in the Student Flag Editor table.

Flag Fields in Ad hoc Reporting

Student Flag Editor Definitions

The following defines the available fields on the Student Flags Editor.

Field	Description	Ad hoc Fields
Flag	Selection indicates the curricular/academic program assigned to the student.	spProgram.name
Image Display	The message "This image will display next to the student's name" indicates that when the information is saved, the chosen program image displays in next to the student's name, indicating the student is assigned to the program. If the program is not flagged, this message does not display.	spProgram.flagImage

Field	Description	Ad hoc Fields
Start Date	<p>Entered date reflects the date the flag was first assigned to the student. Dates are entered in <i>mmddyy</i> format or by selecting the calendar icon to choose a date.</p> <p>The entered date also determines when the flag displays next to the student's name, if there is an assigned image.</p> <div style="background-color: #fff9c4; padding: 5px; margin-top: 10px;"> <p>Student flags will display in the POS terminal as soon as they are saved, regardless of start date, if POS Display was selected in Flags.</p> </div>	spProgram.startDate
End Date	<p>Indicates the date the student stopped working towards achievement in the program. Dates are entered in <i>mmddyy</i> format or by selecting the calendar icon can be selected to choose a date.</p> <p>The entered date also determines when the flag no longer displays next to the student's name, if there is an assigned image.</p>	spProgram.endDate
Eligibility Start Date	<p>Indicates the date the student became eligible for the program. Dates are entered in <i>mmddyy</i> format or by selecting the calendar icon can be selected to choose a date.</p>	spProgram.eligibilityStartDate
Eligibility End Date	<p>Indicates the date the student was no longer eligible for the program. Dates are entered in <i>mmddyy</i> format or by selecting the calendar icon can be selected to choose a date.</p>	spProgram.eligibilityEndDate

Field	Description	Ad hoc Fields
User Warning	<p>Entered message that displays with the program image when a user hovers over the image. A 255-character limit is enforced on this field. If that limit is exceeded, a warning message displays indicating the valid length requirement and text beyond that limit is deleted.</p> <p>When the flag is saved, the User Warning displays in the Student Flag Editor and when hovering over the flag in the Student Name Header. The text that displays when hovering over a student flag is truncated to 90 characters. The whole message of the User Warning can be viewed by clicking on the student flag.</p> <div data-bbox="400 880 991 1043" style="background-color: #f8d7da; padding: 5px; border: 1px solid #f5c6cb;"> <p style="color: #c0392b; margin: 0;">It is recommended to not use the character as it could alter warnings within the flag.</p> </div>	spProgram.userWarning
Participation Details	<p>Text field that displays information about the student's participation in the program, listing the course requirements, guidelines the student must follow, GPA requirements, etc. This information is up to the school. A 255-character limit is enforced on this field. If that limit is exceeded, a warning message displays indicating the valid length requirement and text beyond that limit is deleted.</p>	spProgram.participationDetails
Description	<p>Text that lists additional information about the academic program. There is no character limit to this field.</p>	spProgram.description

Multiple Flag Assignment

A student may be assigned the same type of flag multiple times. These are entered as separate instances of the flag, meaning (at least two) Hall Monitor flags are assigned to the student for example. Only one behavior flag image displays next to the student's name. The User Warnings entered for the individual flags display in one hover textbox separated by a semi-colon.

4th period; 1st period

Student Flag Editor

Flag	Start Date	End Date	Eligibility Start Date	Eligibility End Date	User Warning
NHS	07/27/2020				
Hall Monitor	04/05/2021				4th period
Safety Patrol	07/05/2021				
Peer Tutor	09/28/2021				
Custody Restriction	07/04/2022				Do not release to father.
Hall Monitor	07/04/2022				1st period

Multiple Flag Display

Assign Flags to Students

1. Select the **New** icon. A **Student Flag Detail** table will appear below the **Student Flag Editor**.
2. Select the **Flag** to assign to the student from the dropdown list. If the item chosen is designated to display an image, a note to the right of that dropdown list will appear, indicating image will display next to the student's name.
3. Enter the **Start Date** for the flag.
4. Enter an **Eligibility Start Date**, if applicable.
5. Enter a **User Warning** for the flag.
6. Enter **Participation Details** for the flag.
7. Enter a **Description** for the flag.
8. Click the **Save** icon when finished. The new flag is listed in the **Student Flag Detail** table, and if indicates in Program Admin, an image displays next to the student's name.

A refresh of the page may be necessary to see the newly assigned flag and its accompanying image next to the student's name.

End Flag Assignment

1. Select the **Flag** that needs to be ended from the **Student Flag Editor**.
2. In the **Student Flag Detail** area, enter an **End Date** for the program.
3. Click the **Save** icon when finished. The entered End Date displays in the Student Flag Editor.

If an image is marked to display next to the student's name, that image continues to display through the entered date. For example, if the flag is ended as of Sept. 30, the flag displays on Sept. 30 but is removed after midnight on Oct. 1.

Delete Flag Assignment and Inactive

Flags

To delete a flag from a student, select the entry to be deleted from the **Student Flag Detail** area and click the **Delete** icon. This permanently removes the flag from the student’s record. This should only be done if the flag was originally assigned in error.

If a flag that has been deactivated in the Program Admin Flags editor, but is still assigned to a student displays in red.

Inactive Flag

Blended Learning Group Flags

Blended Learning Groups allow districts to identify the attendance setting for students who are on-site in a building for learning, for students who are virtually attending classes or a combination of both.

When a student is assigned to a Learning Group, that flag displays in the header along with other assigned flags. This flag cannot be modified from the Student Flags tool.

Blended Learning tools were first released in the [Campus.2028 Release Pack \(July 2020\)](#). See the [Blended Learning Groups](#) article for an overview of the entire Blended Learning Group process.

Documents

To view documents, click the **Documents** button on the action bar. See the [Student Person Documents](#) article for more information.
