ISEE Extracts

To report state preferred cumulative submissions; select a Start Date of your district's earliest calendar start date and an End Date of the appropriate Collection Period end date.

Staff Assignment: Enter assignment codes separated by a comma (no space) in the 'Report file as 0 Assignment Override' field as needed. For additional information [click here](#).

To generate Staff Demographics, Staff Assignment, Student Demographics, Student Attendance, and District Calendar extracts at the district level for state submission, select All Calendars.

Student Demographics, Student Attendance, and District Calendar files generated for a single calendar report records for those students whose School of Primary Responsibility is the selected calendar. Students in calendars flagged as JDC Attendance also report.

District Calendar: For Kindergarten Calendars or calendars that contain grade levels with a Kindergarten Session Type of 3, 4, or 5, the Start Date must be designated as being in Week 1 or Week 2 for correct reporting. Other Kindergarten Session Types do not have varying weeks and thus do not need to have the Week designated.

Student Course Enrollment (ISEE Extract Editor)

Student Course Enrollment Extract Logic

One record reports per active roster record in a reportable Course Section within the extract date range. Sections are identified using the Section ID displayed in the top left corner of the Section editor. This unique identifier is used to match class instances across state files, including the Master Course Schedule, Staff Assignment, and Teacher Attendance extracts.

College ID and College Credit will report at the beginning of class when a student's grade has not been earned, or posted to Transcript.

Multiple records report if a student drops and then re-enters the same class. Only the last roster

instance reports Credit Earned, College Credit Earned, or Final Grade.

The following data must be present to be included in this extract:

- A **student** must:
 - Have a Student State ID
 - Have an active enrollment with a grade level selected that is mapped to a State Grade Level of NG, PK, KG, or 01-12.
 - Enrollments marked as No Show or State Exclude, or in Grade Levels marked as State Exclude, do not report.
 - Be actively rostered into a class at least one day during the extract date range.
- A **calendar** must not be flagged as State Exclude.
- A **course** must be flagged as active with a State Course Code entered.
- A **section** must
 - Have at least one reportable student rostered.
 - Have a reportable teacher. See the Reportable Teachers section following for more information.
 - Be actively scheduled on at least one day during the extract date range. Sections may be scheduled into instructional or non-instructional periods, as long as a State Course Code is entered on the Course.
 - Note: sections scheduled into non-instructional periods must have an accurate instructional minutes per week value entered in the MinsWeek Override field on the Course to report a value greater than 0 on the Master Course Schedule.

Reportable Teachers

A section is considered to have a reportable teacher if any of the following criteria are met:

- A Provider Instructor ID is entered on the Section (Provider Instructor ID Override) or the Course (Provider Instructor ID).
 - These teachers do not need an Identity record in Campus and do not have District Employment or District Assignment records.
- One or more teachers are linked to the Section via the Staff History tab.
 - These teachers must meet the following criteria:
 - Have an Identity record with a State Staff ID.
 - Are actively assigned to a section for at least one day during the extract date range.
 - Have an active District Assignment selected on the section's Staff History tab.
 - Has a Role selected on the Staff History tab other than "Not IURC Reported."
 - The staff's linked District Assignment is not marked Exclude.
 - The following setup indicates if the teacher is a District Employee or not:
 - Regular district employees have an active District Employment record.
 - Non-District, Volunteer (non-paid), or YMCA employees:
 - Have a District Assignment with a Contract Type selected.
 - Do not have District Employment records.
 - Note: to create District Assignments for this type of teachers, the **Require Employment record for District Assignment** field on the [System Preferences](#) must be set to **No**.

Grading Logic

This extract reports student final grades that are for Grading Tasks marked as State Reported (recommended setup for elementary schools) or that have been posted to transcripts (recommended setup for high schools). The state considers a "final grade" to be the grade awarded to the student upon course exit.

- If reporting grades posted to transcripts and a single class has been posted multiple times, the most recent record reports.
- Grades only report for Grading Tasks marked as State Reported IF the student does not have a grade posted to the transcript for the class.
- If reporting grades for Grading Tasks marked as State Reported and multiple state reported Grading Tasks are aligned to the section, multiple records report. If multiple Term Masks are selected for the Task, only one record reports based on the schedule placement.

Report Editor Field Descriptions

Field	Description
Report Type	Select Student Course Enrollment . The following ISEE extract types are also available: <ul style="list-style-type: none"> • District Calendar • Student Demographics • Student Attendance • Special Education Students • Gifted and Talented Students • Staff Demographics • Staff Assignment
Start Date	The earliest date from which data is pulled for the report. <i>(Required)</i>
End Date	The latest date from which data is pulled for the report. <i>(Required)</i>
Exclude Cross-Site Data	Cross-site section enrollment data is not included in the report when checked. <ul style="list-style-type: none"> • Cross-site enrollment functionality must be enabled at the district level for the checkbox to display. • Defaults to checked.
Ad Hoc Filter	This field allows users to use an Ad hoc filter that was created in the Ad hoc Filter Designer . Only one Ad hoc filter may be selected.
Format	The format in which the report will generate. Options include CSV (State Format) and HTML.
Select Calendars	The calendar(s) from which data is pulled for the report. Can be set to display only the active year's calendars, or be sorted by school or by year.
Batch Queue	Users have the option of submitting a Student Course Enrollment report request to the batch queue by clicking Submit to Batch instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

When the grade is posted to the Transcript, Credits Offered must be less than or equal to Credits Earned.
CP	Content Complete - Partial Credit	Reports if: <ul style="list-style-type: none"> • CP is selected in Course Exit Reason, OR • Course Exit Reason is null/blank and the student has a passing final grade posted to the Transcript where Credits Offered is greater than Credits Earned. <p>Note: this option cannot report when the passing final grade is NOT posted to the Transcript.</p>
CN	Content Complete - No Credit	Reports if: <ul style="list-style-type: none"> • CN is selected in Course Exit Reason, OR • Course Exit Reason is null/blank and the student's grade is not indicated as passing, OR • The student's final grade is posted to the Transcript and is indicated as passing, but Credits Offered or Credits Earned is 0.
Null	Null	Reports if: <ul style="list-style-type: none"> • Exit Date reports as null/blank • The student completes the class but does NOT have a grade entered that is either in a Grading Task marked as State Reported or posted to the Transcript. • The record is not the student's last roster entry for the section (if multiple records are reported for the student and an Exit Reason is not selected for this record).

Credits Earned Logic

- If the student has multiple roster entries and the record is NOT the student's last roster entry OR If the record is the student's last or only roster entry into the section and a grade is NOT entered on a state Reported Grading Task or posted to the Transcript:
 - Reports as 0.0 if the course Exit Reason is CN, LS, or SC or the course Exit Reason is null and the student's Roster End Date matches their enrollment End Date.
 - Reports as null if a course Exit Reason other than CN, LS, or SC is selected.
 - If the record is for the student's last or only roster entry into the section and a grade is entered, reports based on whether the grade was posted to a Transcript or a State Reported grading task.
 - If the grade was posted to a Transcript, reports from the most recent transcript record (if the grade was posted multiple times)
 - Reports the sum of the Credits Earned from all Credit Groups on the transcript.
 - Reports as 0.0 if Credits Earned are not entered on the Transcript or the sum is 0.
 - If the grade entered was posted on a Grading Task marked as State Reported AND
 - The grade is marked as Passing: reports the cumulative Credits Earned from all Grading Tasks on the Course or Course Master.
 - The grade is not marked as Passing: reports as 0.0.
-
