Continuation Attendance Report

This report calculates Hours and Days Present by School Month for individual Continuation HS students. Total ADA for the selected reporting period reports by Attendance Funding Category. Students must have an Attendance Funding Category of either 15: Continuation, 36: Continuation Concurrent, or 47: Continuation Full Time Independent Study.

- Passing minutes will be counted as present minutes if the student is scheduled and present in the previous period. Passing minutes should not be entered for the first period of the day or the first period after lunch.
- Hours Present= the total time present during a week.
- Hours Limit= the number of Instructional Days in the week times 3.
  - Periods in which the student has an attendance code of Suspension will be deducted from the Hours Limit total.
- Hours Excess= the number of Hours Present over the Hours Limit.
- Hours Excess Allowed= Hours Excess minus hours from courses marked as Work Experience (Course Type P7) or Independent Study (Course Type D1), which are not allowed for back-filling.
- Hours Deficit= the number of Hours Present under the Hours Limit. They can be made up by back-filling.
- Backfill Hours and Week Applied= The number of Hours Excess Allowed used to back-fill Hours Deficit in a specific week.
  - Hours Excess Allowed will back-fill Hours Deficit from the earliest available weeks of the student's enrollment.
- Apportionment Hours= Hours Present plus Hours Backfill
- Apportionment Days= Apportionment Hours divided by 3.
- ADA (individual student)= Total Days Apportionment divided by Days Taught for the school Month.
- ADA (reporting period total)= Sum of Days Apportionment for all students divided by sum of Days Taught for the reporting period.

The TSV format should be used when running the report for large data sets (large schools, multiple Reporting Periods, etc.). This format will allow data to report in a spreadsheet format for use in attendance calculations.

## Report Logic

Students who have an active enrollment record for any part of the selected school month or reporting period and an Attendance Funding Category of 15, 36 or 47 report (chosen on the report editor). Total Average Daily Attendance (ADA) reports for all students in each selection Attendance Funding Category group and as a total for all groups.

Students are not included in the report when:

- Their enrollment is marked as State Exclude or as No Show.
- They are enrolled in a grade level marked as State Exclude.
- They are enrolled in a calendar marked as State Exclude.

Field	Description
<b>Format</b>	The report can be generated in PDF, TSV, or CSV format. Use the TSV format when generating the report for large schools, multiple reporting periods, etc.
<b>Ad hoc Filter</b>	Select an Ad hoc filter to narrow the student list. Only those students included in the filter (and who match other reporting logic and business population requirements) are included in the report.
<b>Exclude Cross-Site Data</b>	When marked, students enrolled in <a href="#">Cross-Site Enrollment</a> courses are not included in the report.
<b>Report Generation</b>	Generate the report immediately using the Generate Report button. Use the Submit to Batch button to choose when the report generates. Submit to Batch can be used when large data sets are chosen (multiple school months, larger calendars, etc.).

## Generate the Report

1. Choose the **Report By** option of **School Months** or **Reporting Periods**.
  - If choosing School Months, mark which **School Months** to include.
  - If choosing Reporting Periods, choose **P1, P2, Annual, 19-20 P2** or **19-20 Annual**.
2. Select which **Attendance Category** to include in the report.
3. Select the desired **Format** of the report.
4. Select an **Ad hoc Filter**, if desired.
5. Mark the **Exclude Cross-Site Data** checkbox to remove students enrolled in Cross-Site courses from the report.
6. Click the **Generate Report** button to display the results of the report immediately. Or, click the **Submit to Batch** button to select when the report generates.
