Tool Search: Student Interchange

The End of Year Adjustments Report lists students whose Adj fields on the State Reporting Enrollment editor are not null or 00: Not Applicable within the Calendar. A student is included in the report when there is data in any one of the Adj. fields:

- Adj Cohort Year
- Adj Cohort School
- Adj Cohort Justification

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

Report Logic

When multiple calendars are selected, a record reports for every enrollment a student may have

in the calendar year(s) selected. Duplicate records may display for a single student.

When the student is marked as State Exclude, the student still reports as long as the Adj. Cohort fields are populated.

- When the Adj Cohort information within the single calendar is between multiple enrollments is the same, only one record reports.
- When the information between multiple enrollments is different, all differing records report.

Non-Binary Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.

The screenshot shows the 'Identities' tool interface for a student named Luka A. The form is divided into two main sections: 'Identity Information' and 'Protected Identity Information'. In the 'Identity Information' section, the 'Gender' dropdown menu is set to 'N: Nonbinary'. In the 'Protected Identity Information' section, the 'Legal Gender' dropdown menu is set to 'Female'. Both dropdown menus are highlighted with red boxes. The form also includes fields for PersonID, Last Name, First Name, Middle Name, Suffix, Birth Date, and Soc Sec Number.

Gender and Legal Gender Assignment

Report Editor

Field	Description
Report Type	Selection determines the Student Interchange report that generates. Choose EOY Adjustments .
Ad hoc Filter	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of this report.
Report Legal Name	When marked, the student's name and gender report from the Protected Identity Information section on the student's Identities record.
Format	This report can be generated in either CSV or HTML formats.
Calendar Selection	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.
Report Generation	This report can be generated immediately using the Generate Report button. Or, use the Submit to Batch button to select when the report is generated. See the Batch Queue article for more information on this functionality.

Generate the Report

1. Select the **EOY Adjustments** option from the **Report Type** field.
2. If desired, select students from an existing **Ad hoc Filter**.
3. Select the **Format** of the report.
4. Mark the **Report Legal Name** checkbox, if desired.
5. Select the **Calendar(s)** from which to report information.
6. Click the **Generate Extract** button or the **Submit to Batch** button. The report displays in the desired format.
