

# Address Information

Last Modified on 02/05/2026 2:30 pm CST

## Tool Search: Address Information

The Address Info tab lists information about the selected address. The address provides a location for the household, and ties the students to the address. Addresses are listed on several reports, reviewed as part of the Enrollment processes and several other areas of Infinite Campus.

Districts can choose to work with their city's planning committee or utility company to import all district addresses.

The screenshot shows the 'Address Information' page within the Infinite Campus system. The top navigation bar includes the Infinite Campus logo and a 'Tool Search' dropdown. The main content area is titled 'Address Information' with a star icon. Below the title, the breadcrumb navigation shows 'Census > Addresses > Address Information'. There are 'Save' and 'Delete' buttons. A red warning message states: 'Modifying address information affects all households associated with this address. Search for the address before modifying.' The 'Address Information' form contains fields for P.O. Box, Number, Prefix, Street, Tag, Direction, Apt, City, State, Zip, County, Location Code, Latitude, Longitude, Tract, and Block. There are also 'Legal Description' and 'Comments' text areas. A 'District' dropdown menu is open, showing 'Impact Aid Site' and 'Boundary Code' with '4: Unassigned' selected. Other dropdowns include 'ES', 'MS', and 'HS'. At the bottom of the form, a note says '- Modified by: Administrator, System 04/26/2021 13:02'.

Address Information

See the [Address Information Tool Rights](#) article for information about rights needed to use this tool.

The Address Information tool is displayed when searching for Households and selecting the Address item from the Household Search Results or by searching for Addresses and selecting a search result.

Addresses can be added to Campus from the Address Info tab, but it is recommended that the [Add Address](#) wizard is used to add multiple addresses to Campus.

## Address Info Definitions

The following table defines the fields available on the Address Info tab. Some fields on this editor are localized by states or district, and may not appear.

Field	Definition
<b>Post Office Box</b>	Indicates the address is not a physical location but a mailing location.
<b>Number</b>	House Number of the address, or Box number if the address is a P.O. Box address.  In the address <i>4321 109th Ave NE, Blaine, MN 55449</i> , <b>4321</b> is the number. Only enter the number of the address.
<b>Prefix</b>	A one-character compass point preceding a street name that indicates a direction - N, S, E, W.  In the address <i>4321 S 109th Ave NE, Blaine, MN 55449</i> , <b>S</b> is the prefix.
<b>Street</b>	Name of the street. Only the street name is entered into this field. Labels like Avenue, Road, Drive, etc. are considered an Address Tab.  In the address <i>4321 109th Ave NE, Blaine, MN 55449</i> , <b>109th</b> is the street name.
<b>Tag</b>	Label of the entered street - Avenue, Street, Blvd., etc.  In the address <i>4321 109th Ave NE, Blaine, MN 55449</i> , <b>Street</b> is the tag.

Field	Definition
<b>Direction</b>	Direction indicating the placement of the street within the city limits.  In the address <i>4321 109th Ave NE, Blaine, MN 55449</i> , <b>NE</b> is the direction.
<b>Apt</b>	Apartment number if this address is for an apartment building location.  In the address <i>4321 109th Ave NE, Blaine, MN 55449</i> , <b>101</b> is the Apartment number.
<b>City</b>	Postal city for the address.
<b>State</b>	Two-digit state code for the address.
<b>Zip Code</b>	Postal zip code (plus 4 if available).
<b>County</b>	County in which the address is located.
<b>Other Address Fields</b>	
<b>Location Code</b>	Numeric representation number to accurately locate the address.
<b>Latitude</b>	<p>Numeric representation of the address based on north and south placement, generally imported from a district GIS application.</p> <p>Use the magnifying glass to locate the latitude of the address. The house number and street name must be populated in order to populate the address latitude. It is also recommended that one or all of the following also be entered:</p> <ul style="list-style-type: none"> <li>• City</li> <li>• State</li> <li>• Zip code</li> </ul> <p>This field allows for a 10-digit number - 4 digits before the decimal point, 6 digits after the decimal point. The total Geocode value may be up to 14 digits, but only 10 digits saves.</p> <p>If an error message displays, verify the entered values for the address are correct. You may need to change the street name or add a direction. For example, Lexington Ave may need to be entered as County Road 17.</p>

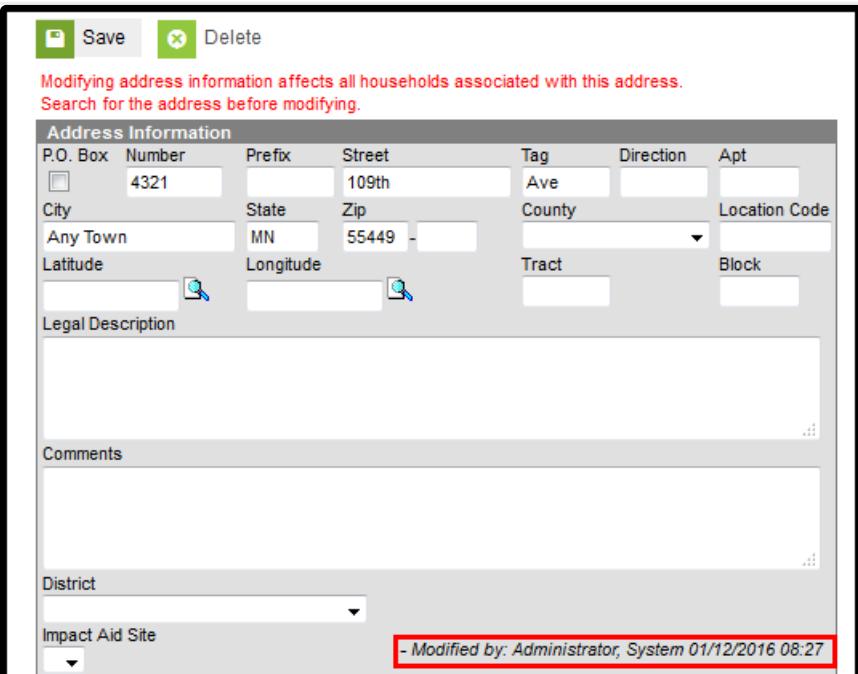

Field	Definition
<b>Longitude</b>	<p>Numeric representation of the address based on east and west placement, generally imported from a district GIS application.</p> <p>Use the magnifying glass to locate the longitude of the address by clicking the icon next to the Longitude field. The house number and street name must be populated in order to populate the address longitude. It is also recommended that one or all of the following also be entered:</p> <ul style="list-style-type: none"> <li>• City</li> <li>• State</li> <li>• Zip code</li> </ul> <p>This field allows for a 10-digit number - 4 digits before the decimal point, 6 digits after the decimal point. The total Geocode value may be up to 14 digits, but only 10 digits saves.</p> <p>If an error message displays, verify the entered values for the address are correct. You may need to change the street name or add a direction. For example, Lexington Ave may need to be entered as County Road 17.</p>
<b>Tract</b>	<p>A small, relatively permanent statistical subdivision of a county, averaging about 4,000 inhabitants, depicted with a unique numeric code within each county. Used by the US Census Bureau to compare data from decade to decade.</p>
<b>Block</b>	<p>The smallest statistical area used in the US Census Bureau's data collection, depicted with a four-digit number. Multiple blocks can exist within a Tract.</p>
<b>Legal Description</b>	<p>Provides a definition of the address used in Impact Aid reporting when a street location is not available. Each county determines what a legal description is (lot and block data).</p> <p>This field only shows when the <a href="#">Impact Aid System Preference</a> is turned on.</p> <p>See the <a href="#">Impact Aid</a> section for more information.</p>
<b>Comments</b>	<p>Provides any additional notes on the address and are for internal reference only.</p>
<b>District</b>	<p>Indicates the school district to which students at the address attend. This is often used in school choice settings.</p>
<b>Impact Aid Site</b>	<p>Lists any Impact Aid Site associated with the address. When this field is populated, the <a href="#">Impact Aid</a> tool displays the address is part of federal land.</p> <p>See the <a href="#">Impact Aid</a> section for more information.</p>

## Edit Address Information

1. Select the appropriate address from the **SearchResults**.
2. Enter data into the appropriate fields.
3. Select the **District** in which the address is located from the dropdown list. This helps with planning and busing.
4. If the address is considered part of federal land, select the **Impact Aid Site** from the dropdown list.
5. Click the **Save** icon when finished.

## Modification Alerts

Because address information is sensitive data, tool rights to modify and view address information should be closely monitored. In addition to tool rights, visual notification is displayed on the Address Info tab when changes are made to the address. This appears at the bottom of the Address Information editor and notes who made the modification and when.

The screenshot shows a software interface for modifying address information. At the top, there are 'Save' and 'Delete' buttons. A red warning message reads: 'Modifying address information affects all households associated with this address. Search for the address before modifying.' Below this is a table for 'Address Information' with fields for P.O. Box, Number, Prefix, Street, Tag, Direction, Apt, City, State, Zip, County, Location Code, Latitude, Longitude, Tract, and Block. There is also a 'Legal Description' text area and a 'Comments' text area. At the bottom, there are dropdown menus for 'District' and 'Impact Aid Site'. A red box highlights a status message: '- Modified by: Administrator, System 01/12/2016 08:27'. Below the form, the text 'Address Modification Notice' is displayed.

## Impact Aid

Impact Aid funding is designed to assist local education agencies that are affected by federal activities in their school districts (like reservation land or military bases). For more information on the Impact Aid program, see the [Office of Impact Aid](#) website.

## Impact Aid Workflow

Follow these steps to track Impact Aid information in Campus.

Done	Task
	Create <a href="#">Impact Aid Sites</a> .
	Turn on the <a href="#">System Preference</a> for tracking Federal Impact Aid.
	Assign Impact Aid Sites to household guardians on the <a href="#">Impact Aid</a> tab.
	Assign Impact Aid Sites to <a href="#">Addresses</a> within the district.
	Generate the <a href="#">Impact Aid Site Report</a> to find students who live on Federal installations.
	Generate the <a href="#">Impact Aid Employment Report</a> to find guardians who are employed by the government.

## Impact Aid Address Fields

As stated above, each county determines what the legal description is for a housing unit when a physical address of that unit is not available or does not exist. An example of a legal description would be the following:

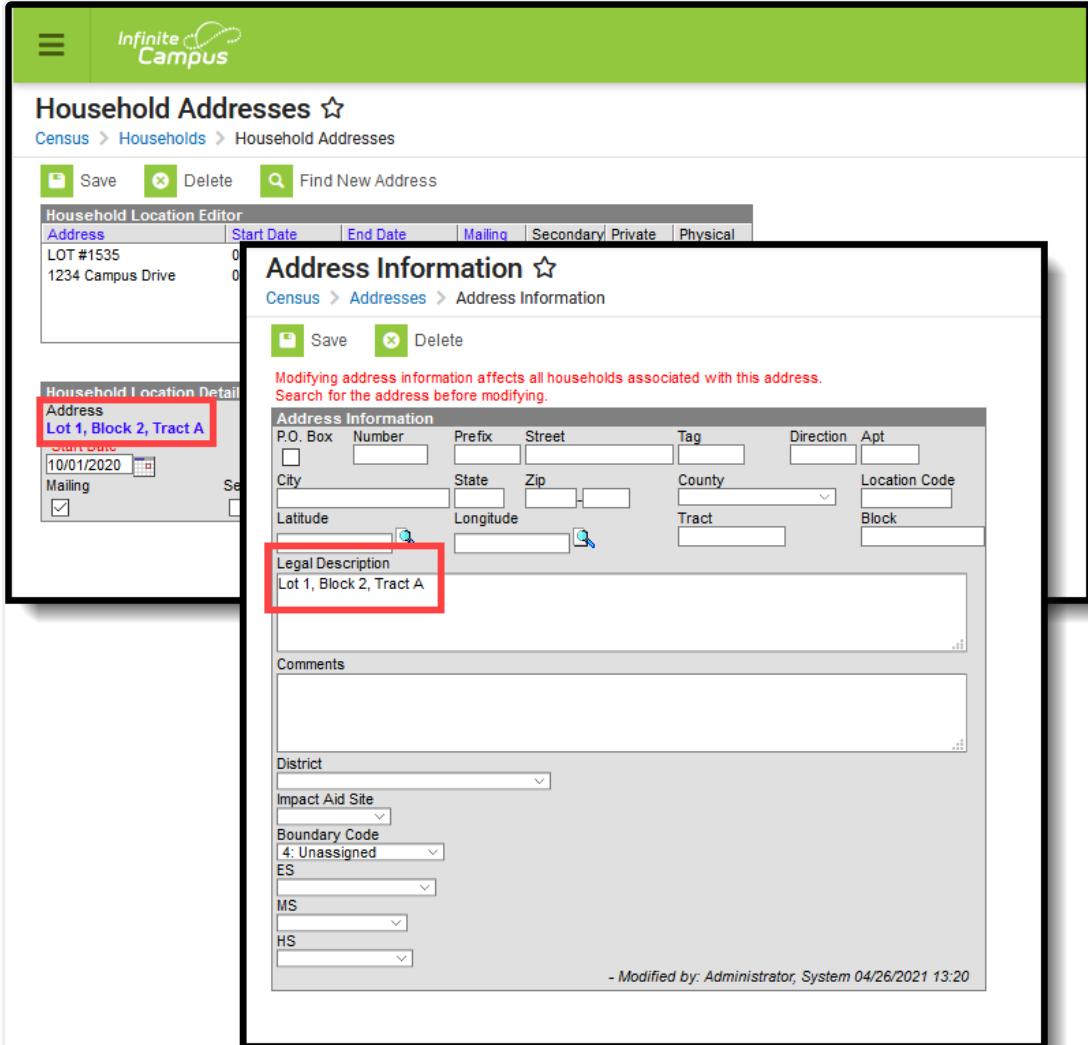

- Lot 1, Block 2, Tract A
- NE 1/4, Section 12, T1N, T2W

It is assumed that a housing unit that uses the legal description does not necessarily have a P.O. Box as a mailing address.

An address can be added using the Add Address tool that does not contain standard address fields (number, street, tab, etc.). When an address is saved without this information, it cannot be searched in Campus. When a legal description is used in place of an address (when a household does not have an address), the legal description is searchable, and returns in the search results in the following areas:

- [Add Address](#)
- [Address Search](#)
- [Household Address](#)
- [Person Household](#)

The Legal Description is also included in the Person Summary Report.

The screenshot shows the 'Household Addresses' page in the Infinite Campus system. The 'Address Information' tab is active. A red box highlights the 'Legal Description' field, which contains the text 'Lot 1, Block 2, Tract A'. Other fields visible include 'Address' (1234 Campus Drive), 'Start Date' (10/01/2020), 'Mailing' (checked), and various location and legal description fields.

Address - Legal Description

## Impact Aid Address Information

When a person's household address is part of an Impact Aid Site (the **Impact Aid Site** and **Indian Land Type** fields are populated on the [Address Info](#) tab), a message displays at the top of the Impact Aid tab.
