Tool Search: SIRS Extract

The SIRS School Entry Exit Extract reports school enrollment actions, such as entries and exits. Multiple records can report for a single student, as when a student moves to a different building or changes grades during a school year.

To help Districts indicate that a particular student enrollment record has ended because the end of the school year arrived, if an enrollment record is assigned the End Status code **EOY**, **School Exit Date** (column 11) and **School Exit Type Code** (column 12) reports blank.
