Tool Search: Course Standards Report

The Course Standards Report lists standards of learning assigned to the courses in the selected calendar. It can be generated one of four ways:

- Standards assigned to each course
- Courses offering each standards
- Standards that are NOT assigned to courses
- Courses that are NOT assigned standards

The screenshot shows the 'Course Standards Report' interface. At the top, there is a breadcrumb trail: 'Grading & Standards > Reports > Course Standards Report'. Below this is a blue header bar with the text 'Course Standards Report'. A white box contains the text: 'This report will list the Standards associated with each Course.' The main area is divided into three sections: 'Report Type' with four radio button options, 'Other Options' with two checkboxes, and 'Report Format' with a dropdown menu set to 'PDF'. A 'Generate Report' button is located at the bottom left of the form area.

## Report Logic

Course standards are created and managed in the [Standards Bank](#) and attached to a course on the [Courses Standards](#) tool. The report is generated based on the Year and School selected in the Campus Toolbar.

The report options refer to certain selections on the standard, like the Power Standard and Archived checkboxes.
