## Student and Assignment Selection

Mark the checkbox next to a student's name to include that student in the report. All active students are marked by default. Inactive students display in red text.

Mark the checkbox next to a Task and Standard, Category, or Assignment to include student scores

for that item in the report. Use the *Select All* option to mass mark or unmark all items. Marking a Task, Standard, or Category automatically marks all assignments, but individual assignments can be marked or unmarked as desired. All items are selected by default. Assignments that are not **included** in grade calculation or in **categories** that are excluded from calculation are marked as **EXCLUDED**.

Note that Category Weights display in the assignments list if they have been entered for your **Categories**. However, Category Weights only display in the report if "Weight Categories" has been marked in the **Grade Calculation Options**.
