Payments Mode Report Logic

The following logic applies to the calculations used when reporting fee totals in the Payments Mode.

- Any voided payments that are returned (canceled) are not included in report totals.
- Any voided payments that are converted into a deposits are included in report totals.
- Adjustments are not considered payments and are not included in report totals.
- Over-payments (deposits) are included in report totals.
- Deposits made when the student is not affiliated with any fee assignments and has a zero balance or a surplus balance are included in report totals.
- Payments made out of surplus balances are included in report totals.

- When optional fees are paid, the payment is assigned to the student's primary calendar of enrollment. If there is more than one primary enrollment, Campus uses the oldest active calendar of enrollment.

When a payment is made for multiple fees and one of those fees is voided after the payment is made:

- Generating the report for All Payments (Excluding Voids) does not include the voided payment. All other non-voided fees from the payment do still display.
- Generating the report for Voided Fee Payments displays only the voided payment. All other non-voided fees made in that same payment do not display.

Fee Definitions

For the purpose of this report, the following definitions apply.

Term	Definition
