

Vaccine Exemption Setup

Last Modified on 04/08/2026 12:21 pm CDT

Tool Search: Vaccine Exemption Setup

The Vaccine Exemption Setup tool allows entry of acceptable reasons to waive a student's immunization requirement. The most common forms of vaccine exemptions include medical and religious waivers, though other exemptions may be created.

Vaccines

- Flumist
- H1N1
- Rabies
- Diphtheria-tetanus-pertussis, combined [DTaP, DTP]
- Tetanus-diphtheria [Td]
- Polio [IPV, OPV]
- Measles-Mumps Rubella [MMR]
- Measles-Mumps-Rubella-Varicella [MMRV]
- Hepatitis B [Hep B]
- COVID (Other 2 Dose)
- Hepatitis B - 2 Dose [Hep B - 2 Dose]
- Hepatitis B - 3 Dose [Hep B - 3 Dose]
- Haemophilus influenza, type B [Hib]
- Hib 3 dose series
- Pneumococcal (PPV)
- Varicella
- Measles
- Rubella
- Mumps
- Hepatitis A [Hep A]
- Tetanus, Diphtheria and Acellular Pertussis [Tdap]
- Polio [IPV]
- Polio [OPV]
- Tuberculosis
- Diphtheria and Tetanus [DT]
- Hepatitis B - 3 Dose [Hep B - 3 Dose]
- Tuberculosis [BCG]
- Influenza
- Meningococcal
- Meningococcal (MenACWY)
- Human Papillomavirus [HPV]
- Rotavirus

Vaccine Exemptions Setup

See the [Health Administration Tool Rights](#) article for information about rights needed to use this tool.

State Reporting Notes

A district may define its own exemptions, but those exemptions may affect state reporting. Some states have a **State Exemption** code field that must be mapped to each Exemption created to ensure proper reporting.

Exemptions displays in health reports and on a student's [Immunizations](#) tool. Exemptions may be added to any existing vaccine. When the vaccine is not required, it does not need an exemption assigned to it.

Add New Exemptions

1. Select the **New** button from the action bar. The Vaccine Exemption Detail editor displays.
2. Enter a **Code** for the exemption.
3. Enter a **Name** for the exemption.
4. Enter a **Seq(ue)nce** to specify the order in which this exemption displays in the list of exemptions. This is the order on the Vaccine Exemption editor and in the Waiver dropdown field of the student's Immunization tool.
5. Optional: Enter a **Start and End Date** for the exemption.
6. Optional: Mark the **Require Expires Date** checkbox to make the exemption expiration date required on the student's Immunizations tool.
7. Flag the checkboxes of the vaccines for which the exemption may apply.
8. Click the **Save** button when finished.

When an end date has been entered for a vaccine exemption, that option displays in **red** text when the exemption end date is past when [Entering a Vaccine Waiver](#) for a student. When a student already has a waiver assigned to them and an exemption end date is added and past, the name of the waiver and the date of the waiver display in **red** on the student's [Immunizations](#) tool.
