Report Logic

The report looks for locked IEPs that include a record in the Adaptations for Assessments Editor. Data entered for the following sections on that editor report:

- Norm-Referenced
- AIMS
- District Administered

- Accommodations

The statements associated with the selected checkmark print for Norm-Referenced and District Administered. Information entered in the Testing Accommodations text box print as part of the Accommodations text.

The screenshot shows the 'Assessment Participation' section of an IEP form. It includes a sidebar with a list of sections, where 'Assessment Participation' is highlighted. The main content area has a title bar with 'Save', 'Save & Continue', and 'Print' buttons. Below the title bar, there are two sections: 'Norm-Referenced' and 'Direct Assessment Plan (District Administered)'. Each section has a 'Content Area/Grade Level' field with 'R:', 'M:', and 'W:' sub-fields. Below these is a table with columns for 'Test', 'Norm-Referenced', and 'District Admin.'. The table contains four rows of test options with checkboxes. The first row is checked under 'Norm-Referenced', and the second row is checked under 'District Admin.'. Below the table is a text box for explaining alternative assessments, and another text box for 'Testing Accommodations'.
