

Behavior Management Tool

Last Modified on 02/03/2026 11:57 am CST

Tool Search: Behavior Management

The Behavior Management Tool allows users with the appropriate tool rights to manage existing behavior as well as enter new behavior incidents.

There are several [Behavior Preferences](#) related to Events, Referrals, and the overall processing of behavior records. Please review this information prior to recording behavior incidents.

The screenshot shows the Behavior Management Tool interface. At the top, there is a navigation bar with a search bar labeled "Search for a tool or student". Below the navigation bar, the title "Behavior Management" is displayed with a star icon. The page shows a breadcrumb navigation: Behavior > Main Tools > Behavior Management. There are three buttons: "Save", "Delete", and "New". Below these are two dropdown menus: "Status Filter: Submitted/In-Progress" and "Alignment Filter: Discipline/Award".

Incident Management Editor

Behavior Event for fixing "In Progress"	02/21/2019 3:01 PM	Classroom		Staff, Declan	IP	

Incident Detail Information

This section stores information specific to the incident and will be shared on the behavior tab of each participant. Add Event/Participant and Add Resolution buttons will not be enabled until all required fields are filled.

Incident ID: 394457 Status: In-Progress Submitted Date: 06/20/2019 03:38 PM Submitted By: Principal, Lon

*Alignment: Discipline: Dress code violation Date of Incident: 06/19/2019 Time of Incident: 12:00 PM Damages: \$ 0.00

Context: 1: During School Hours Location: 1: Classroom Details:

Events and Participants

This section will store event and participant information. Event Details will be shared across participants. Participant Details will only be displayed on that person's

Behavior Management Tool

See the [Behavior Management Tool Rights](#) article for available tool rights.

A user must have at least **R**(ead), **W**(rite) and **A**(dd) Modify Attendance tool rights in order to assign an attendance code to a behavior resolution.

An incident record is made up of two parts, the **Incident Information**, which provides the general

information about the behavior incident, and the **Events and Participants** area, which describes the individual events within the incident and the participants in each event and any assigned resolutions. Information entered in these areas is visible on the student's [Behavior record](#) as described below:

Area	Where information displays
Incident Information	Visible for all participants.
Event Information	Visible for all participants in that event.
Participant/Resolution Information	Only visible for that participant.

For state-linked districts, data only syncs from district to state under the following conditions:

- An Incident with a state event code mapping (with or without a participant).
- An Incident with a state resolution code mapping.
- For BIE only:
 - An Incident with a BIE event code mapping.
 - An Incident with a BIE resolution code mapping.
- For Maine only:
 - Both the event and resolution have a state code mapping.

When syncing Behavior Resolution data to the state, it does not matter whether the Resolution is linked to an attendance code. Linked Attendance codes should not sync (or attempt to sync) as if they are Behavior Resolution codes.

Manage Submitted Referrals

[Incident Management Editor](#) | [Incident Detail Information](#) | [Events and Participants](#) | [Delete an Incident](#)

When a [Behavior Referral](#) is submitted, it displays in the Management tool in a status of **Submitted**. Users can then modify the incident record as desired, including modifying events or participants and assigning resolutions to participants. See the following [Incident](#), [Event](#), [Participant](#) and [Resolution](#) sections for a description of the fields that display in each area.

When a referral is submitted, a Process Alerts message and email are sent to the individuals selected in the Notify field. The email is only sent when the recipient has an email address and has 'Staff' marked in the [Demographics](#) tool.

When a resolution is entered for a referral and the incident is then marked as complete, AND the [Behavior Preference](#) of **Notify the person who enters the referral when a resolution has been assigned** is set to Yes, then both a Process Alerts message and email are sent to the person who submitted the referral. The email is only be sent when the recipient has an email address and has 'Staff' marked in the [Demographics](#) tool.

- Messages are sent ONLY when the **Notify the person who enters the referral when a resolution has been assigned** is set to Yes.
- Only one message is sent, regardless of the amount of resolutions associated with the event.
- When an incident is marked Complete and no resolutions are entered, a message is not sent.
- When an incident moves from Complete to In-Progress and back to Complete, a message is sent (unless there are no resolutions).

Incident Management Editor

The Incident Management editor lists all behavior incidents for the School and Year selected in the Campus toolbar and filters results based on criteria selected in the Status and Alignment filters. Incidents can be filtered by status and alignment and sorted by any of the column headings. The list is automatically sorted by Date/Time. The fields that display in this editor are based on values selected for the incident.

When the preference to lock completed incidents is set to Yes, a Locked icon displays for completed incidents aligned to Discipline (this does not affect incidents aligned to Award). Staff can be assigned a specific tool right (called [Unlock Incident](#)) that allows the ability to unlock a completed incident, make modifications as needed, and relock the incident.

The **Reporter** is the individual indicated in the **Submitted By** field, who submitted the referral or created the incident. Status options are as follows:

Abbreviation	Status	Description
SB	Submitted	Incident has been submitted as a referral but not yet reviewed by the behavior administrator or other authorized user.
IP	In Progress	Incident is being modified, such as when incident details are being verified. This status is also applied to incident records created in the Management tool.
CM	Complete	Incident details have been verified, resolutions assigned, and modifications completed.

Incident Detail Information

The Incident Detail Information editor stores data specific to the incident. That data is viewable on the student's Behavior record for all participants of the incident.

Incident Detail Information

This section stores information specific to the incident and will be shared on the behavior tab of each participant. Add Event/Participant button will not be enabled until all required fields are filled.

Status	Submitted Date:
In Progress	Submitted By:

Incident Detail Information

Once general incident information has been entered, add **Events** to describe the individual occurrences and the **Participants** in each event.

► [Click here to expand...](#)

Field	Description
Incident ID	The unique identification number assigned to the incident once the record is saved. This field cannot be edited.
Status	The status of the incident as <i>Submitted</i> , <i>In Progress</i> and <i>Complete</i> . See the Change an Incident's Status section for more information.
Submitted Date	The date the incident record was reported. This field cannot be edited.
Submitted By	The user who reported the incident.
Alignment	Indicates whether the incident is related to <i>Discipline</i> (negative) or <i>Award</i> (positive).
Title	A brief description of the incident. When there is no title entered for the incident, the Event Type Name(s) populates as the incident name.
Date of Incident	The date the incident took place. Defaults to the date the incident is created.
Time of Incident	The time the incident took place. Defaults to the time the incident is created.
Damages	The total cost of all damages that occurred as a result of the incident.
Context	Indication of the setting or time of day the incident took place.

Field	Description
Context Description	Additional information about the context of the incident.
Location	Where the incident took place.
Location Description	Additional information about the location of the incident.
Details	Any additional information about the incident, including a description of what occurred.

Events and Participants

After adding details of the incident, specific information on the event and participants involved in the event can be associated with the incident.

Behavior Event Information

Enter information about the event as described in the following table. Options may differ by state.

Additional events with distinct or repeated participants can be added to an incident. There is no limit to the number of events that can be added to an incident.

To modify an event, click the hyperlinked Event Type, make the desired modification and click **Save**. To delete an event from the incident, click the hyperlinked Event Type and click **Delete**. Deleting an event also removes the associated participants' roles from the incident.

► [Click here to expand...](#)

Field	Description
Event Type	The identifying code and name of the event, sorted alphabetically by name. Event Types are created in the Event Type Setup tool and can be mapped to State Event Codes. Options are dependent on the Alignment selected for the Incident; only Event Types with the same alignment will be available.
Demerits/Points	Indicates a mark of poor conduct for a discipline event or a mark of positive action for an award event. This field displays the value entered for the Event Type .
State Code	The State Event Code to which the event is mapped. This information is used in report behavior events to the state. This field displays the value entered for the Event Type .
Category	Indicates whether the event is considered to be <i>Minor</i> , <i>Serious</i> or <i>Extreme</i> . This field displays the value entered for the Event Type .
This event required the use of a Behavior Response <i>Not available in all states</i>	When marked, this indicates the event requires a behavior response to be entered. When this is marked, but a response has not yet been entered, a warning message displays on the Events and Participants section of the Incident Detail, "Behavior response missing." See the Add Behavior Responses section for additional information. <div data-bbox="436 1010 1421 1167" style="border: 1px solid #ccc; padding: 10px; background-color: #fff;"> <div style="border: 2px solid red; padding: 2px; display: inline-block;">  - Behavior response missing </div> <p style="margin-top: 5px; color: #ccc;">Behavior Response Missing</p> <p style="margin-top: 5px; color: #ccc;">Warning</p> </div>

Delete an Incident

To delete an incident, click the **Delete** button in the action bar. The incident is removed, along with all event, participant, resolution and response information within this tool and elsewhere.

An incident must be unlocked in order to be deleted.

When the incident is tied to an attendance event, the resolution and attendance information needs to be deleted prior to deleting the incident.

Change the Status of an Incident

[Behavior Preferences Related to a Changed Status](#) | [Lock and Unlock Behavior Incidents](#)

The Status of an Incident indicates whether an incident has been submitted, is in progress or is complete. There may be instances where several staff are involved in managing behavior incidents for the school, including scheduling meetings with parents/guardians and processing information with law enforcement. The status is also used in reports and determines what events display when first accessing the Behavior Management tool.

To change the status, select the incident and modify the Status field.

- When an incident is first created, a status of **Submitted** is assigned. This indicates no action has yet been taken to process the incident. Staff need to assign participants and determine resolutions, and make note of the details of the incident.
- When an incident has been submitted and behavior staff are entering information and adding participants and details, the status should be changed to **In Progress**.
- When an incident has participants assigned, necessary staff and outside representatives are contacted, and a resolution has been assigned and completed, the incident can be marked as **Complete**.

Incident Detail Information
This section stores information specific to the incident and will be shared on the behavior tab of each participant. Add Event/Participant button will not be enabled until all required fields are filled.

Require participant before behavior incident can be set to complete.

Require participant before behavior referral can be submitted.

Locked Behavior Discipline Incidents

A Behavior Preference is available that **requires a participant to be assigned to the behavior incident before it can be marked as complete**.

- When this preference is set to **Yes**, at least one person (student, staff, etc.) needs to be assigned as a participant of the event before that incident can be marked as complete. When the Status of the incident is changed to Complete and a participant has not been associated with it, a message displays indicating it cannot be marked as Complete until a participant is assigned (see image below).
- When this preference is set to **No** or when it is set to **Yes** and participants have been assigned to the incident, the incident can be marked as complete without error.

Unlock Completed Incidents

Add and Edit Behavior Incidents

To create a new incident without entering and submitting a referral:

1. Click the **New** button in the action bar.
2. Enter details of the Incident in the Incident Detail Information editor.
3. Click the Save button when finished, or continue adding Events and Participants (see below).

Add Participants to a Behavior Incident

Since participants may be involved in multiple events in different capacities (such as a student involved in a fight who was also found in possession of drugs), participants are attached to individual events.

To attach a participant to an event, **Search** for at least the first two characters of the **Participant Name**. Search results can be **Filtered** to include *Students* (active [enrollment](#)), *School Employees* (active [district assignment](#)), and *All People* (Person record in [Census](#)). This filter determines the default value in the **Relationship to School** field.

Participant(s) Details

[Add Participant](#)

Filter:

Student Name or Complete Student Number:

Abby J Student (Gender: F Grade: 09 Age: 14 #: 456789)
Alexandra J Student (Gender: F Grade: 10 Age: 16 #: 345678)
Bailey N Student (Gender: M Grade: 10 Age: 16 #: 567891)
Benjamin L Student (Gender: M Grade: 10 Age: 16 #: 234567)
Claire E Student (Gender: F Grade: 10 Age: 16 #: 678912)

Participant Details

Enter participant details based on the following table. Options may vary by state.

► [Click here to expand...](#)

Field	Description
Display on Portal	Marking this checkbox includes basic incident and event information for only this participant to display on the Portal for the student's parents to view.
Role	The way in which the individual participated in the event, as an <i>Offender</i> , a <i>Participant</i> , a <i>Victim</i> , or a <i>Witness</i> . For Award incidents, the available role is <i>Recipient</i> .
Demerits/Points	Indicates a mark of poor conduct for a discipline event or a mark of positive action for an award event.

Field	Description
Relationship to School	Indicates the participant's relationship to the school (such as a current or former student or staff member) at the time of the event. The default value of this field is determined by the selected Add Participants Filter.
Injury	Indicates when the participant received an injury as a result of the event. Options are <i>1: No Injury, 2: Minor Injury, 3: Major Injury or 4: Serious Bodily Injury</i> .
Injury Description	Additional information about the student's injury.
IEP Manifestation Determination	Indicates when the participant will be included in an IEP Manifestation.
Medical Service Provided	Indicates when medical service was provided to the individual as a result of the event.
Details	Additional information about the individual's participation in the event.
Drug Fields	
These fields display only when the selected event type has the Drug Classification field selected.	
Drug Type	Indicates the type of drug the student had in their possession.
Drug Description	Provides detailed information about the drug violation.
Harassment Fields	
These fields appear only when the selected event type has the Harassment Classification field selected.	
Harassment Type	Indicates the type of harassment the student performed. This list contains the types reported in the Civil Right Data Collection.
Harassment Description	Provides detailed information about the harassment violation.
Perceived Victim Religion	When the Harassment Type is Religion, select the victim's perceived religious affiliation. This is used for CRDC reporting allegations of Harassment or Bullying by Religion Type.
Weapons Fields	
These fields appear only when the selected event type has the Weapon Classification field selected.	
Weapon Type	Indicates the type of weapon the student had in his/her possession.
Weapon Description	Provides detailed information about the weapon violation.

Additional participants can be added by searching for a name and selecting the participants. A participant can only be searched for and added to an event once. Participant details can be condensed by clicking the **Hide Details** button.

To remove a participant, remove the check mark from the checkbox next to the participant's name. The participant is removed when the event is saved.

When adding participants to any events after the first one recorded, participants of other events in the incident are automatically available for selection. Mark the checkbox next to the participant's name to include them in the event.

The **Review Participants** displays a list of all participants, basic demographic information and parent/guardian contact information.

Behavior Management Review Participants

When a participant has an active, locked IEP at the time of the event, an icon displays next to the student's name.

Add a Behavior Resolution

Resolutions are added to an incident and then applied to the appropriate participants. The fields that display for resolutions vary by state and by the **Sub-type** of the resolution.

Note on Suspensions: Suspensions should only be associated with the event for which the

student is being suspended. Overlapping suspensions on the same day are not recommended and may cause issues with attendance calculations. This applies to Suspensions mapped to the Suspension subtype.

Add Resolution

Resolution Editor

This editor contains localized fields. Options vary by state.

► Click here to expand...

Field	Description
Resolution Type <i>Required</i>	The identifying name and code of the resolution, sorted alphabetically by name. Resolution Types are created in the Behavior Admin area and are mapped to State Resolution Codes.
State Code	The State Resolution Code to which the event is mapped. This information is used in report behavior events to the state. This field displays the value entered for the Resolution Type .
Category	Indicates whether the resolution is considered to be <i>Minor</i> , <i>Involved</i> or <i>Intense</i> . This field displays the value entered for the Resolution Type .

Field	Description
Resolution Assign Date Required	<p>The date the resolution was assigned.</p> <p>This field populates with the current date. To change this date, enter a new date in <i>mmddyy</i> format or use the calendar icon to select a date.</p>
Resolution Start Date	<p>The date the student begins serving the resolution.</p> <p>This field populates with the current date. To change this date, enter a new date in <i>mmddyy</i> format or use the calendar icon to select a date.</p>
Resolution Start Time	<p>The time the student begins serving the resolution.</p> <p>This field populates with the current time. To change this time, type a new time in <i>HH:MM</i> or <i>HHMM</i> format.</p>
Resolution End Date	<p>The date on which the student will complete the resolution.</p> <p>Enter a date in <i>mmddyy</i> format or use the calendar icon to select a date.</p> <ul style="list-style-type: none"> When the resolution is set to Calculate End Date/Duration and the Duration in School Days field is populated, the Resolution End Date populates automatically. When the number of instructional days remaining in the school year is fewer than the Duration in School Days number, the Resolution End Date will be the last day of school.
Resolution End Time	<p>The time by which the student completes the resolution.</p> <p>Enter a time in <i>HH:MM</i> or <i>HHMM</i> format or use the calendar icon to select a date.</p>
Detention Duration	<p>The number of units the detention resolution will last.</p>
Duration Units	<p>The units used to measure the detention resolution. Options are hours and minutes.</p>
Status	<p>The status of the resolution as <i>In Progress</i> or <i>Complete</i>.</p>

Field	Description
Duration in School Days	<p>The number of days the resolution lasts.</p> <p>When the resolution is set to Calculate End Date/Duration and the Resolution End Date field is populated, the Duration in School Days is calculated and populates automatically.</p> <ul style="list-style-type: none"> The calculated value cannot be greater than the number of instructional days remaining in the school year. This value is limited to 5 characters - three places before the decimal point and two places after (XXX.XX). When a decimal value is entered, the number of days rounds up to the next whole number to calculate the Resolution End Date and Days Remaining. <p>Note: To automatically calculate, the appropriate resolution must be entered first, followed by the associated date and times in that order. The End Date is not required until a Suspension resolution is saved.</p>
Days Remaining	<p>Indicates the number of days from the resolution that will remain not served on the last day of school. This value is 0 (zero) when the resolution can be completed as of the last instructional day of the School Year. This field cannot be edited and only displays when the resolution is set to Calculate End Date/Duration.</p>
Behavior Admin Staff Name	<p>The behavior staff member responsible for the resolution.</p>
Educational Services After Removal	<p>Indicates whether the student received any educational services after being removed.</p>
Attendance Code	<p>Displays the selected code that is assigned to the student based on the behavior resolution. The chosen code is assigned to the student and displays on the student's Attendance record. See the Link Behavior Records and Attendance Records section for more information.</p>
Details	<p>Additional information about the participant's resolution.</p>
Check for attendance Conflicts	<p>When an attendance code is assigned, click this button to verify there is no conflict with already entered attendance records. When there is a conflict, the records that are conflicting display and the user has the opportunity to overwrite. See the Link Behavior Records and Attendance Records section for more information.</p>

Assign a Resolution

Resolutions can only be added after an event has been added to the incident and at least one participant has been added to an event.

1. From the **Behavior Management** tool, select the appropriate Incident from the list of items in the Incident Management Editor.
2. Verify the correct event details and participants have been added to the incident by viewing the information in the Events and Participants section.
3. In the **Events and Participants** section, click the **Add Resolution** button. The **Resolution Details** editor displays.
4. Select the **Resolution Type** from the dropdown list. This list populates from the [Resolution Types](#) tool.
5. Enter the **Resolution Assign Date**.
6. Enter the **Resolution Start Date**. This date may be different than the Assign Date.
7. Enter the **Resolution Start Time**.
8. Enter the **Resolution End Date** and **Resolution End Time**. When the resolution is set to [Calculate End Date/Duration](#), the Resolution End Date field populates automatically.
9. Enter the **Duration in School Days** value. When the resolution is set to [Calculate End Date/Duration](#), this field populates automatically.
10. Select the **Behavior Admin Staff Name** from the dropdown list.
11. Enter any additional **Details** about the resolution.

Apply Resolution to Participants

After entering resolution details, select to which students to assign the resolution using the **Apply to** checkboxes. Resolutions display under participant names in the Event/Participant tree. Multiple resolutions can be assigned to a participant, but resolutions cannot be concurrent. When a user attempts to assign resolutions that occur at the same time, a warning message displays instructing users to modify Start and End Dates before saving the record.

To modify a resolution, click the hyperlinked Resolution, make the desired modification and click **Save**. To delete a resolution from a participant, click the hyperlinked Resolution and click **Delete**.

A Behavior Preference exists that when set to Yes, a behavior resolution is required in order to complete a Behavior Incident. See the [Behavior Preferences](#) article for more information.

Calculate End Date Duration

When a Resolution Type has the **Calculate End Date/Duration** checkbox marked, users can enter either a Resolution End Date to auto-populate the Duration in Schools Days field, or enter a value in the Duration in School Days field to auto-populate the Resolution End Date field.

The Resolution Start Date field must be populated in order for the Resolution End Date or the Duration field to calculate properly.

Code	Name	Alignment	Start Date	End Date
B	Bus Suspension	Discipline	01/01/2000	
DET	Detention	Discipline	01/01/2000	
S1	Dismissal	Discipline	01/01/2000	
EXC	Exclusion	Discipline	01/01/2000	
EXP	Expulsion	Discipline	01/01/2000	
BE	Expulsion from Bus	Discipline	01/01/2000	
FIN	Fine	Discipline	01/01/2000	
IS	In-school Suspension	Discipline	01/01/2000	
INC	Insigt/Chem Ed Class	Discipline	01/01/2000	

Calculate End Date/Duration Values

The Duration in School Days field updates when a user changes a Start Date or an End Date after it has already been calculated. The End Date field updates when a user changes the Duration in School Days field.

When a Behavior Resolution Type has a Sub-Type of Detention selected, the Calculate End Date/Duration checkbox cannot be marked.

Resolution end dates and Duration in school day values can exceed the last instructional day of the calendar. The resolution end date is calculated to the last instructional day, and the system notes how many remaining days need to be applied to the resolution.

At this time, once the resolution is saved, the remaining values no longer display. It is up to the user to note how many remaining days are needed in the resolution before it is completed.

Auto-Calculate Resolution End Date

When assigning a resolution to auto-populate the Resolution End Date, enter the number of days the resolution applies to student in the **Duration in School Days** field.

For example, a student has been assigned Out-of-School Suspension for a total of three days for

fighting with another student that begins on April 11, 2016. The Out-of-School Suspension resolution has the Calculate End Date/Duration checkbox marked. The staff person administering the resolution can enter the Resolution Start Date of 04/11/2016, then enter a value of 3 in the Duration in School Days field. The Resolution End Date populates with 4/13/2016.

The date populates as soon as the user tabs to the next field or clicks into another field on the editor.

Resolution Details

*Resolution Type: S: Out-of-school Susp

State Code: 2: Out-of-school Suspension Category: Minor

Resolution Assign Date: 04/08/2016 Resolution Start Date: 04/11/2016 Resolution Start Time: 10:46 AM Resolution End Date: 04/13/2016 Resolution End Time:

Behavior Admin Staff Name:

Details:

Auto-calculate Resolution End Date Field

Auto-Calculate Duration in School Days Field

When assigning a resolution to auto-populate the Duration in School Days field, enter the **Resolution End Date**, indicating the last day the student is serving the resolution.

For example, a student has been assigned Out-of-School Suspension for a total of three days for fighting with another student that begins on April 11, 2016 and ends on April 13, 2016. The Out-of-School Suspension resolution has the Calculate End Date/Duration checkbox marked. The staff person administering the resolution can enter the Resolution Start Date of 04/11/2016 and the Resolution End Date populates with 4/13/2016. The Duration in School Days field populates with a value of 3.

The value populates as soon as the user tabs to the next field or clicks into another field on the editor.

Auto-calculation Duration in School Days Field

Calendars with Multiple Schedule Structures

- When a calendar has multiple schedule structures, a school and schedule structure must be selected before a resolution can be added.
- When a calendar has multiple schedule structures, a behavior resolution with a sub-type auto-populates the Duration in School Days field when the Resolution End Date field is populated.
- When a calendar has multiple schedule structures, a behavior resolution with a sub-type auto-populates the Resolution End Date field when the Duration in School Days field is populated.

Link Behavior Records and Attendance Records

When a school has chosen to link behavior records with attendance records, the following steps must be done.

Task	Tool
Mark the appropriate attendance codes that relate to behavior resolutions.	Attendance Codes
Mark the appropriate behavior resolution types to allow for attendance modification.	Resolution Types
Create a behavior incident , assigning events and participants .	Behavior Management Behavior Referral
Enter a behavior resolution for one of the event participants.	Behavior Management Student Behavior
Verify the entered behavior event and resolution, and mark the incident complete .	Behavior Management
Verify the behavior event displays on the student's behavior record.	Student Behavior

Task	Tool
Verify the attendance record displays an entry for the behavior resolution.	Student Attendance
Generate a report looking for any inconsistencies in linked behavior/attendance records.	Behavior Attendance Audit Report

Note that attendance codes can only be selected AFTER a behavior incident has been marked Complete.

For those resolutions where a student is absent from school, that attendance code can be assigned on the resolution. Doing this eliminates additional staff being needed to assign the record. When adding a resolution:

1. Select the **Attendance Code** from the dropdown list. All attendance codes display here, not just the ones marked for Behavior.
2. Mark the students to whom the resolution applies in the **Apply To** section.
3. Click the **Check for attendance conflicts** button to verify the student does not have existing attendance records. When there are existing attendance records:
 - **Overwrite Existing attendance** - when selected, existing attendance records are overwritten with new attendance records based the Attendance Code selected for the behavior resolution for all dates encompassed within the resolution.
 - **Save attendance but do not overwrite** - when selected, attendance records created by the behavior resolution are saved but any existing attendance records which overlap attendance records created by the behavior resolution are not overwritten. This option is not available for Kentucky users. Please see the [Kentucky Behavior](#) article for more information.
 - **Save behavior resolution but not the attendance** - when selected, behavior resolution data saves but existing attendance records are not modified or replaced.
4. Click the **Save** button when finished. The assigned resolution is saved and displays on the student's behavior record and is stored with the behavior management entry, and depending on the options chosen for the attendance entry, the student's attendance record is also updated with attendance information related to the behavior incident.

Behavior and Attendance Records Linking

A Behavior Preference exists that when set to Yes, a behavior resolution is required in order to complete a Behavior Incident. See the [Behavior Preferences](#) article for more information.

Add Behavior Responses

A Behavior Response is added to an event when a staff member needs to administer a restraint on the student, following recommended training and guidelines. This option is available for selection when:

- The incident alignment is a discipline event.
- At least one [Response Type](#) has been created.
- At least one [Behavior Event](#) has been created.
- At least one participant has been added to the event.

In addition, [Response Types](#) must be created in the [Behavior Admin](#) toolset before a behavior response is added.

The following setup is optional:

- At least one staff member at the school building can be designated as a **Behavior Response Approver** on their [District Assignment](#) record.
- At least one staff person at the school building can have an active [Crisis Intervention Credential](#).

The screenshot shows the 'Behavior Response Editor' interface. On the left, the main editor displays event details (12/18/2019, 07:26 AM, \$0) and participant information (Context, Location). A 'Events and Participants' section lists a 'Disruptive Behavior' event and an 'In-school Suspension' resolution. A red box highlights the 'Add Behavior Response' button in the toolbar. On the right, a modal dialog box titled 'Add Response' is open, containing fields for 'Response Details' (Response Type, Response Date, Response Start Time, Response End Time, Behavior Response Approver), 'Pre-Response Actions', 'Response Details', 'Post-Response Actions', 'Student Details' (checkbox for 'Student was injured during the response'), and an 'Apply To' dropdown menu. The 'Apply To' menu is currently set to 'Disruptive Behavior'.

When a Behavior Incident has been marked with "This incident requires a Behavior Response," but a behavior response has not been entered, the Event and Participant editor displays an orange icon with "Behavior response missing" verbiage indicating that the behavior response information is missing. The orange icon persists after the behavior response has been added. See the [Events and Participants](#) section above for additional information.

Events and Participants
This section will store event and participant information. Event Details will be shared across participants. Participant Details will only be displayed on that person's behavior tab.

Field	Description
Response Details	
Response Type Required	Indicates the type of response that was given. These options are based on the active Response Types entered in the Behavior Admin tool.
Complete	Indicates the behavior response is complete. This is marked when all items related to the response are complete - parents/guardians have been contacted, staff have completed reaction to the event, students have been deescalated, etc.
Response Date Required	Entered date reflects when the response occurred. This date automatically displays the date the incident occurred and cannot be modified.
Response Start Time Required	Entered time (in HH:MM format) indicates when the staff person began administering the response. The start time of the response must be after the start time of the behavior incident.
Response End Time Required	Entered time (in HH:MM format) indicates when the staff person stopped administering the response. The end time of the response must be after the start time of the response.
Duration	This field automatically calculates the amount of time the response lasted, based on the entered start and end time.

Field	Description
Behavior Response Approver	<p>Indicates the person authorizing the use of the response. This field populates with staff members with the Behavior Response Approver checkbox marked on their District Assignment record.</p> <p>When this field is required, at least one staff member must be marked as a Behavior Response Approver. When this field is not required, and no staff members are marked as a Behavior Response Approver, this field does NOT display.</p>
Pre-Response Actions	Text entered here describes the actions performed by the staff and student before the response was administered.
Response Details	Text entered here describes the details of the response.
Post-Response Actions	Text entered here describes the actions performed by the staff and student after the response was administered.
Room	Indicates where the response occurred.
Student Details	
Student was injured from the response	When the student assigned to the even was injured as part of the response, mark this checkbox.
Describe any injuries to the student Required	When the above checkbox is marked, this comment field displays. Details entered here should reflect the injuries the student experienced.
Apply To Required	Indicates the student who received the behavior response. When more than one student is involved in the event, only one student can be selected on the response editor.
Guardian Contacted	<p>Indicates the student's parent/guardian was contacted as a result of the response. When marked, the following four fields displays:</p> <ul style="list-style-type: none"> • Date • Time • Contact • Details

Field	Description
Date	Entered date reflects when the guardian was contacted. This field defaults to the current date. Dates are entered in <i>mmddyy</i> format, but can be modified by clicking the calendar icon.
Time	Entered time reflects when the guardian was contacted. Time is entered in HH:MM format.
Contact	Indicates the name of the guardian who was contacted.
Details	Provides a description of what was discussed when the guardian was contacted.
Participant Details	
Name	Displays the name of the person involved in the response, as determined by the name selected in the Behavior Response Approver field.
Role	<p>Select the type of position the person had in the response.</p> <ul style="list-style-type: none"> • PL: Primary/Lead • SC: Secondary • OB: Observer
Participant was injured during the response	When the staff person was injured, mark this checkbox.
Describe any injuries to the participant <i>Required</i>	When the above checkbox is marked, this comment field displays. Details entered here should reflect the injuries the staff person experienced.

Field	Description
Add Participant	<p>Enter the start or all of another person's name, and search, to add that individual to the response.</p> <ul style="list-style-type: none"> Use the Filter options to search only for the selected type of person - Students (other persons who have an enrollment record), School Employees (persons who have a district assignment record), or All People (persons who have a Campus Census record). Enter the name of the participant (or part of the name) into the search field and click the Search button. Matching results display in a dropdown list of the search results. Choose the appropriate person. Complete the addition of the participant by selecting the Role and indicating whether the person was injured (defined above). Add additional participants as needed. <p>When another student is added as a participant, make sure that student is added to the event as a witness or other participant. This way, that student has a behavior event on their behavior record and the school can track any injuries or other results of the event accordingly.</p> <p>In some situations, the Participant may be another student who is not involved in the incident, but is observing the response/seclusion in order to meet a district requirement.</p>

Sync Behavior Responses

The Behavior Response Editor is not available in State Edition, but response data added by the district does sync to State Edition and state edition users can add new records, edit or delete existing records as needed (based on assigned tool rights).

- Kentucky - records are synced as long as the Behavior Response has a state code and is linked to an event that also has a state code.
- Montana - all behavior response records are synced.
- Maine - records are synced as long as the Behavior Response has a state code and is linked to an event and a resolution that also have a state code.
- BIE - records are synced as long as a BIE Behavior Response code is entered and is linked to an event that also has a BIE event code.
- South Dakota - records are synced as long as the Behavior Response has a state code and is linked to an event that also has a state code.

See the [State Behavior Information](#) for more details.

Manage Files Attached to Behavior Events and Participants

Images, documents, videos, etc. can be associated with a particular student involved in a behavior event, or associated with a particular behavior event. The district MUST be using [Campus Digital](#)

[Repository](#) in order to use this feature.

Manage Files for Behavior Events and Participants of a Behavior Event

Digital Repository settings must be enabled to display the Manage Files button:

- Mark the **Behavior** checkbox on the [Digital Repository Preferences](#) tool.
- Mark which Behavior tools (Behavior Management, Behavior Referral, Student Information General) allow files to be uploaded on the [Digital Repository Preferences](#) tool.

See the [File Types](#) article for information on which types of files can be uploaded.

Also, uploaded files cannot exceed the total max file size selected in Campus Digital Repository. There is no limit to the number of files that can be uploaded.

Attach Files to an Event/Participant

1. Select the desired Incident from the **Incident Management Editor**.
2. In the **Events and Participants** section, click the **Manage Files** button. A **Manage Files** modal displays.
3. Click the **Choose Files** button in the upper left-hand corner. Files can also be dragged from a user's desktop to the **Drag Files to be Uploaded** space.
4. Locate the file to upload following the standard file upload procedures of your computer. Once located and selected to upload, the file displays in the **Document List**. When more than one file need to be added, locate all at one time.
5. Enter a **Description** of the file, if desired.
6. Determine if the file should be associated with the event and the student, or just the event. This needs to be selected for each file that is uploaded.
 - Select the **event** by marking the radio button next to the event name. **This must be selected in order to attach the file:** files must be associated with an event, but may be associated with students or other participants.

- Select the **student(s)** by marking the checkbox. This does not need to be selected.

7. Mark the **Terms and Conditions** checkbox. This is a required selection for any file that is uploaded.

8. Click the **Save** button when finished. The file is uploaded and a paperclip icon display next to the event and/or the participant names. Only one paperclip displays regardless of the number of files that are uploaded.

The screenshot shows the 'Incident Management Editor' interface. At the top, there are buttons for Save, Delete, and New. Below that are filters for Status (Submitted/In Progress) and Alignment (Discipline/Award). The main area is titled 'Incident Management Editor' and contains a table with columns: Title, Date/Time, Location, Context, Submitted By, and Status. The table lists various incidents, mostly 'Assault, Physical', with dates ranging from 06/27/2016 to 06/28/2016. The 'Status' column shows 'IP' (In Progress) for most entries. Below the table is a section titled 'Incident Detail Information' with fields for Incident ID, Status, Submitted Date, Submitted By, Alignment, Discipline, Date of Incident, Time of Incident, Damages, Context, and Location. A 'Details' section is also present. At the bottom, there is a 'Events and Participants' section with a red box around it. This section contains a list of events and participants, with a link to 'Review Participants'. Below this are buttons for Add Event/Participant, Add Resolution, Add Behavior Response, and Manage Files.

File Attached to Event and Student

View Uploaded Files

From the Events and Participants editor, click the **Event** name. The files that are associated with that event display in an **Event Files** section in the **Event Details** section. Click the link for the file to view it.

[Assault, Physical \(Event ID: 359635\)](#)

Asher Student - Offender

Add Event/Participant Add Resolution Add Behavior Response Manage Files

[View Uploaded Files](#)

When files were associated with a participant, those files are also viewable here in the Participant Details section in a Participant Files section. When more than one student is associated with the event, and the file was associated with multiple participants, each participant displays a separate Participant Files section.

When the participants are students, files can also be viewed with proper tool rights from the [Student Behavior](#) tool (when Digital Repository preferences for that are turned on).

Manage Attached Files

Use the Manage Files button to make any necessary changes with the uploaded files:

- Click the X next to the file name to remove the file completely. The file is removed once the Save button is clicked (the status column changes from Attached to Remove on Save).
- Click the X next to the file to set the file to be deleted. The file status changes to *Remove on Save* and is deleted upon saving.
- Re-select the X button of a file to negate the *Remove on Save* delete command, and have the

file remain.

- Remove the checkbox selection for alignment with a participant.
- Upload more files for the selected event.
- Modify the description of the file as needed.

Save any changes that were made before exiting the Manage Files modal.
