

Deleting Household Applications

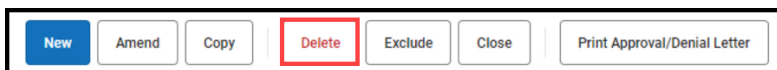

Last Modified on 12/14/2025 8:45 pm CST

Tool Search: Household Applications

Infinite Campus recommends caution in deleting existing free/reduced applications. No historical record is retained when an application is deleted. As an alternative, applications can be excluded. Please refer to the [Excluding Applications](#) article.

If students have purchased meals using the eligibility assigned by the application, it should NOT be deleted.

When an application is deleted, its associated eligibility is revoked. Student eligibilities are changed to those assigned by the most current application or other existing eligibility. If no current application exists, student eligibilities are considered a default status of "Paid."

If the application is currently selected for the [Verification](#) process, the "Delete" action is not allowed.

Delete Application

Warning: You are about to delete a Free/Reduced application. The student's eligibility data will also be deleted or changed. Are you sure you want to delete this application?
