Special Ed Count Day Report

Special Ed Count Day reporting instructions: Special Ed Count Day report extracts data for students with an active IEP as of the effective date. Special Ed data is entered into the NV IEP or SPED Data Entry Plan in Student Information>Special Ed>Documents. Data will only report for primary enrollments for students with disabilities. Concurrent enrollments will be ignored. Enter a Count Date. The Count Date is a snapshot of students with disabilities and active IEP's on that day. The state format is CSV and will open with MS Excel. Select a Calendar to generate the report. Summary report type will aggregate all students based on the calendars selected by disability category by age. Summary Report format will be a PDF.

Report Logic

- Students are categorized by disability type and age group. The student's age is calculated as of the date specified in the Count Date field on the extract editor.
- Only reports students who have an active enrollment and an active, locked IEP on the Count Date selected in the extract editor.
- Only a student's most recent active primary enrollment record is reported. Concurrent enrollments are excluded.
- Students must have an active and locked NV Data Entry IEP as well as an active enrollment on the Count Date to report a record. If a student has multiple IEPs on the Count Date, data will be reported from the IEP with the most recent start date. If multiple IEPs exist with the same start and end dates, then the plan with the most recent lock date reports.
- Students must have data entered in the IEP Meeting Date, Start Date, and End Date fields on

the NV SPED Data Entry Plan.

- Students must also have data entered in the Primary Disability, Special Education Status, and Special Education Setting fields on the reported enrollment record.
- Students with an IEP that goes through the Count Date selected on the extract editor are counted (including those with an End Date that is the same as the Count Date). If a student has multiple applicable plans, the plan with the most recent start date is counted. If multiple applicable plans have the same start and end date, then the plan with the most recent modified date is counted.

Generating the Report

1. Enter the **Count Date** in *the mm/dd/yyyy* format or click the calendar button and select a date.
A snapshot of student disability and active IEP information is taken for this day.
2. Select the District or School Summary **Report Type**.
 - The District Summary reports district-wide results.
 - The School Summary reports results per school, one school per page.
3. Select an **Ad Hoc** filter to further narrow results. (*optional*)
4. Select which calendar(s) to include within the report.
5. Select the **Format**. For submission to the state, use the State Format (PDF).
6. Select one of the following options:
 - **Generate Report**. The report appears in a separate window in the designated format.
 - **Submit to Batch**. This process enables larger reports to be generated in the background without disrupting the use of Campus. For more information on submitting a report to the batch queue, refer to the [Batch Queue](#) article.
