Data Element	Description
Extract Type	Indicates the type of extract selected. Different options may appear depending on the selection. For this report, choose **ELO Student.**
Ad hoc Filter	Selection of previously made filter that contains specific students to include in the label request.
Report Format	Determines how the request is generated - in the State Format (CSV) or HTML. Use the HTML format when reviewing data. Use the State Format when submitting the list to the state.
Select Calendars	At least one calendar must be selected in order for the extract to generate. Students in the chosen calendars are included in the extract. Calendars can be selected by the active year, the school or the year.
Report Generation	The report can be marked to generate immediately using the **Generate Extract** button or can be marked to generate at a later time using the **Submit to Batch** button. See the Batch Queue article for additional guidance.

Generate the ELO Student Extract

1. Select the **ELO Student** option from the **Extract Type** dropdown list.
2. Select an **Ad hoc filter** from the dropdown list to reduce the amount of students included in the extract.
3. Select the **Report Format**.
4. Select the **Calendars** from which to pull students in the report. Click the **Generate Extract** button to display the report immediately, or use the **Submit to Batch** button to choose when the report generates. The report displays in the selected format.
