For more information about Tool Rights and how they function, see the Tool Rights article.

Report Logic

Only Programs listed in the Program Code List that are marked as State Reported are included. Only programs that are currently active and those that were active during the school year are included in the report. This is done in the Flags Setup tool.

The student's Program Start Date must be on/during the Effective Date entered on the Extract editor, and the entered Effective Date must be on or after the Enrollment Start Date.

Students who have multiple enrollments (a primary enrollment plus a special education enrollment) report multiple times with duplicate program information.

Students do not report when:

- They have an Enrollment Status of W (Summer Withdrawal).
- Their enrollment record is marked as State Exclude.

Programs do not report when:

- The program start date is in a previous school year and it has an End Date.
- The program is NOT marked as State Reported.

SQL Query

```
EXECUTE dbo.get_RI_EnrollmentCensusB @calendarList = '77'
```

```
DECLARE @d smalldatetime = getdate() EXECUTE dbo.get_RI_EnrollmentCensusB @calendarList = '106,107,108',@effectiveDate =@d
```

Program Code List

Verify the following Programs and Program Codes are available in the Flags Setup tool. The must be marked as Active and as State Reported in order to report. The selected Flag Image and Flag Color is up to the school and/or district to manage.
