Tool Search: ACCESS Extract

The ACCESS Extract collects demographic and enrollments information about students who are participating in an EL (English Learners) program.

The screenshot shows the 'ACCESS Extract Editor' interface. At the top, it says 'ACCESS Extract ☆' and 'Reporting > NJ State Reporting > ACCESS Extract'. Below this is a blue header 'NJ ACCESS Extract'. A message states: 'This tool will extract data to complete the Pre-ID Labels for the ACCESS for ELLs assessment. Choose the State Format to get the file in the state-defined text file format, otherwise choose one of the testing/debugging formats.' The interface is divided into two main sections: 'Extract Options' and 'Select Calendars'. Under 'Extract Options', there are fields for 'Choose Grades' (set to 'No Grade Filter'), 'Effective Date' (set to '05/08/2020'), and 'Format' (set to 'State Format(Fixed Width)'). A 'Generate Extract' button is located below these options. The 'Select Calendars' section features a scrollable list of school names, including '19-20 Bergenfield High School 1', '19-20 Bergenfield High School', '19-20 Franklin School', '19-20 Franklin School 1', '19-20 Hoover School', '19-20 Hoover School 1', '19-20 Jefferson School', '19-20 Jefferson School 1', '19-20 Lincoln School', '19-20 Lincoln School 1', '19-20 Out of District', '19-20 Out of District 1', '19-20 Roy W. Brown Middle Sc 1', '19-20 Roy W. Brown Middle Scho', '19-20 Washington School', and '19-20 Washington School 1'. A note at the bottom of the list says 'CTRL-click and SHIFT-click for multiple'. The entire interface is titled 'ACCESS Extract Editor' at the bottom.
