Tool Search: CALPADS Staff Demographics

The Staff Demographics file is used to report demographic information for staff. This record uses Effective Date processing and is required for the Fall 2 Submission. It should be submitted to update Staff information prior to EOY reporting.

CALPADS Staff Demographics ☆ Reporting > CA State Reporting > CALPADS Staff Demographics

CALPADS Staff Demographics

This file format is used to submit or change demographic data on staff with the following designations (Types): Certificated K-12 Teacher (12), Certificated K-12 Administrator (10), Certificated K-12 Pupil Services (11), Non-Certificated Administrator (25), Charter School Non-Certificated Teacher with a SED (26), and Itinerant/Pull-Out or Push-In Teacher (27). Staff must have a SED to report.

This file is required for Fall 2 and it should also be submitted any time staff demographic data should be updated.

For Fall 2 Reporting:
Enter a Reporting Date (usually Info Day) and an Effective Start Date (usually the first day of school). Records will report for all appropriate Staff with an active District Employment and District Assignment on the Reporting Date. The Effective Start Date entered in the editor will report unless the staff person has a later District Employment start date.

At the End of the Year:
Enter a Reporting Date (the last day of school or later) and a Previous Submission Date (usually Info Day). Records will report for all appropriate Staff with District Employment Start/End Dates or Identity Start Dates within the range Previous Submission Date+1 and Reporting Date.

To report Staff data changes during the year:
Enter a Reporting Date and a Previous Submission Date to create a date range. Records will report for all appropriate Staff with District Employment Start/End Dates or Identity Start Dates within the range Previous Submission Date+1 and Reporting Date.

Use of the Effective Date fields:
The Effective Start Date field in the extract will be populated with the date entered in the extract editor unless the Staff has a later District Employment or Identity Start Date.
The Effective End Date is not required to report and generally should not be entered unless the file is intended to insert changes in historical information.

This file uses Effective Date processing. CALPADS uses the SED from the extract to process records. If a record exists in CALPADS for the SED, the system will insert the new record and adjust the start/end dates of the existing records according to the submitted effective date. If a record does not exist in CALPADS with the SED, a new record will be inserted with the submitted effective date. Records can also be submitted for deletion using the Transaction Type: Delete.

CALPADS Staff Demographics

Report Logic

All Staff who have an active District Employment AND an active District Assignment with a Type of 10, 11, 12, 25, 26 or 27 as of the Reporting Date report, unless the Previous Submission Date is also chosen.

When the Previous Submission Date is also entered, only staff who have a District Employment Start or End Date or an Identity Start Date between the Previous Submission Date +1 and the Reporting Date report. A District Assignment record with a Type of 10, 11, 12, 25, 26 or 27 MUST be assigned to the staff person.

The District Assignment record may be ended, but the end date cannot be on or earlier than the Previous Submission Date.

Staff must also have a Staff State ID (SEID). Staff who have a SEID of 9999999999 do not report.

Only one record reports no matter the number of District Assignment records assigned to the staff person.

Identifying demographics data for the following fields reports from the current identity. If the staff person's identity has changed since the previous submission date and the reporting date, and the new identity start date is within those dates, the new identity information reports. If the new identity start date is within those dates but is NOT the current identity record, data from the record marked as current reports.

- Staff First Name, Staff Middle Name, Staff Last Name
- Staff Alias First Name Staff Alias Middle Name, Staff Alias Last Name
- Staff Birth Date
- Staff Gender Code
- All Staff Race Ethnicity Fields

The Effective Start Date is used to populate field 4, Effective Start Date. This date can be before the Reporting Date. The Effective End Date is optional and only used to populate field 5, Effective End Date.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female, X: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

CALPADS Extracts use the Legal Gender field included in the Protected Identity Information to report student and staff identity information.

To record a gender of X: Non-binary, on the Identities tool:

1. Assign the **Gender of X: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** of M: Male, F: Female, or X: Non-

binary.

3. Save the record when finished.

Validate SDEM Data

Use the [Data Validation Report](#) to correct any student data prior to the submitting the CALPADS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for a specific CALPADS extract (listed below). These groups are used to return certain rules assigned to each group.

- [CALPADS SSID Enrollment](#)
- [CALPADS Student Information](#)
- [CALPADS Student Programs](#)
- [CALPADS Student English Language Acquisition](#)

- [CALPADS Work-Based Learning](#)
- [CALPADS Postsecondary Status Summary](#)

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the [Campus Analytics Suite](#); otherwise, they are read-only.

Users can select the **Missing or Incorrect Data** Validation Group, which returns any missing or incorrect data that is reported in the CALPADS Extract, like a missing enrollment exit reason or an

incorrect date, for example.

Note that examples refer to CALPADS SENR.

Instructions

The Data Validation Report returns results from the Data Validation Group selected. The Summary section includes the number of occurrences for each Data Validation Rule; if a Baseline Rule is used in its Total population will be returned along with the Rate of the primary Rule compared against the Baseline Rule. State Owned Data Validation Groups can be run against the State Dataset via DIS.

Refer to the tables below, which includes the rule, rule logic and location, for correcting the data.

Missing or Incorrect Data

The Missing or Incorrect Data Report uses the following rules and logic (open the Click here to Expand section below to see each rule).

This report returns only those staff members whose District Assignment End Date is not populated or whose End Date is before or the same as the calendar end date and after or the same as the calendar start date.

Rule Number	Issue	Logic	Location
GERR0001	Missing required field.	Indicates the staff person's Education Level is missing.	Demographics > Person Information > Education Level Employment.educationLevel
SDEM0114	Staff Employment End Date Less Than Staff Employment Start Date	Indicates the staff person's employment end date is BEFORE the employment start date. Employment end dates must be AFTER employment start dates.	District Employment > Start Date Employment.startDate District Employment > End Date Employment.endDate

Rule Number	Issue	Logic	Location
SDEM0107	Invalid Staff Age	Indicates the entered staff birth date is incorrect. Staff must be between the ages of 18 and 95.	Demographics > Person Information > Birth Date Identity.birthDate
SDEM0111	Staff Employment Start Date Less than Birth Date plus 18	Indicates the employment start date is before the staff person's 18th birthday. Staff Employment Start Date must be greater than Staff Birth Date plus 18 years.	Demographics > Person Information > Birth Date Identity.birthDate District Employment > Start Date Employment.startDate
SDEM0112	Staff Employment Start Date Greater than current date plus six months	Indicates the Staff Employment Start Date is more than six months from the current date. Employment start dates must be the current date, before the current date, or within six months in the future of the current date.	District Employment > Start Date Employment.startDate

Best Practices

The following information provides guidance for entering data for staff records.

District Employment

Tool Search: District Employment

- Verify the **Teaching Start Year** is populated for every record the teacher has in District Employment. If teaching start year is not populated, the **Total Teaching Years** value on the extract is not calculated.
- The **Teaching Years Modifier** is populated only if there was a time frame the teacher was not teaching. If this is not known, leave this field blank. This should be done on the most recent record only.
- The **District Teaching years Modifier** is applied for the year or employment record in which the teacher was missing time. This calculates from previous records; only enter this value on the record that the teacher/staff member was not active in the district.

District Assignment

Tool Search: District Assignment

To calculate the **Service Years LEA** field on the SDEM extract, the **Type** field on the **District Assignment** record is used. Only assignments assigned a value of the following are used in the calculation:

- 10: Cert K12 Administrator
- 11: Cert K12 Pupil Service
- 12: Cert K12 Teacher
- 25: Non-certified Administrator
- 26: Charter School Non-Certificated Teacher
- 27: Itinerant or Pull-Out/Push-In Teacher

Report Editor

The following fields are available for selected on the Staff Demographics File.

Field	Description
Reporting Date	Indicates the date of the report. This field displays the current date and includes staff with active District Employment and District Assignments on this date unless a previous submission date is entered.
Previous Submission Date	Date the file was previously submitted. If entered, only staff who have a data change since this date report.
Effective Start Date	A date entered in this field populates the Effective Start Date field. This field is normally left blank for ongoing submissions, which allows the appropriate start date to populate the extract field.
Effective End Date	A date entered in this field populates the Effective End Date field. This field is normally left blank unless the file submission is intended to insert historical data in existing CALPADS records.

Field	Description
Assignment Calculation	<p>Determines the logic used in calculation the Service Years LEA value. When marked, the Service Years LEA is calculated using the District Assignment information:</p> <ul style="list-style-type: none"> • Only staff members are reported in the Service Year LEA field when they are assigned a Service Type of 10, 11, 12, 25, 26 or 27 on their District Assignment record, using the start and end dates of that record. • Values are rounded to a whole number. • A year is counted as July 1 to June 30. • If the District Teaching Years Modifier is populated on the District Employment record, that value is subtracted from the Service Years value. <p>When the Assignment Calculation checkbox is NOT marked, Service Years LEA reports as follows:</p> <ul style="list-style-type: none"> • Districts report service years LEA based on the first District employment date in the district. • District Teaching Years Modifier is used for the years the staff member was not a service type 10, 11, 12, 25, 26, 27 and it is UP TO THE DISTRICT to ensure this data is accurate. <p>See the District Assignment Best Practices for more information.</p>
Transaction Type	Indicates the type of transaction that occurs - Add/Update or Delete.
Format	Determines how the report generates. Select State Format (Caret Delimited) if submitting records to the state. Other formats available for testing and review purposes are CSV and HTML.
Calendar Selection	Select the calendar of Assignment for staff. Calendars can be chosen by the active year, by the school name or by the year.
Report Generation Options	Choose the Generate Extract to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the Staff Demographic File

Either a Previous Submission Date or an Effective Start Date must be selected.

1. Enter the **Reporting Date** in *mmddyy* format, or use the calendar icon to select a date. This date usually represents Information Day.
2. Enter the **Previous Submission Date** in *mmddyy* format, or use the calendar icon to select a date. This is the date this file was previously submitted and is entered to create a Date Range for reporting Staff changes.
3. Enter the **Effective Start Date** in *mmddyy* format, or use the calendar icon to select a date.

This is used only to populate this field in the Extract.

4. Enter the **Effective Ed Date** in *mmdyy* format, or use the calendar icon to select a date. This is used only to populate this field in the Extract and is not normally entered.
5. Determine how Service Years LEA should be calculated, and mark the **Assignment Calculation** checkbox accordingly.
6. Select the **Transaction Type** from the dropdown list - Add/Update or Delete.
7. Select the **Format** of the file. The State Format (Caret Delimited) should be chosen when submitting records to the state. Other formats available for testing and review purposes are CSV and HTML.
8. Select the **Calendars** to include in the file.
9. Click the **Generate Extract** button. Or generate the extract at a specified time using the **Submit to Batch** button. The file appears in a new window in the selected format.
