WDE-684 TCS Extract Editor

## Data Submission

The collection window for both the Student and the Section extracts runs from early to mid October. It is recommended that each school review the data prior to submission in an effort to correct serious errors before the deadline.

## Report Logic

Records only report for enrollments in the selected calendar(s).

The following logic applies to the **Student** extract:

- A student record reports based on **Subsequent Year Reporting** logic when the following criteria are met:
  - Populates a record for any student's enrollment with a Subsequent Year Reporting date falls on or within the extract Effective Date and the student's Primary enrollment Start Date.
  - There may be multiple records reported if the Date is entered on multiple enrollments.
  - To report, an enrollment must not be marked as Exclude, or in a Grade Level marked as Exclude.
  - If the student has a Subsequent Year Reporting value on an enrollment in a school that no longer exists, a record is reported in the year in which the Subsequent Year Reporting date falls. Only one record is reported per qualifying enrollment.

The following logic applies to the **Section Enrollment** extract:

- Only one record reports per section enrollment, unless the student has exited and re-entered the section. Multiple records report if the student exited the section in one enrollment and re-entered in a different enrollment.
- The State Code field must be populated with a Course Number in the [Courses Editor](#) in order to appear in the section report. All classes with course state codes from the beginning of the school year up to the date selected in the extract editor will report.
- If a teacher has more than district assignment, the teacher will only be reported once.
- Course Section roster start and end dates are first used to determine inclusion in the report.
  - If the roster start and end date fields are null, the student's enrollment start and end dates will be used. If there are multiple enrollments for the student, the enrollment record that starts between or on the start and end date of the roster will be used.
  - If the enrollment start or end dates fall outside of the date range, term start and end dates will be used.
- In order to to be included in this report, the following characteristics must be met:
  - Roster Start Date must be Null or on or before the Effective Date of the report.
  - The Course/Section Term Start Date must be on or before the Effective Date of the report.
  - The student must be enrolled in the Calendar and Year in which the Course/Section exists and the enrollment Start Date must be on or before the Effective Date of the report.
  - A student will be included in the report if there is a date entered in the Subsequent Year Reporting field of Enrollments in any enrollment from the previous year if the Subsequent Year Reporting date is:
    - On or before the enrollment causing the record to populate,
    - On or after the Start Date of the current year calendar and
    - On or before the End Date of the current year calendar. Each record that meets these requirements will populate a record.
  - Students marked as No Show or State Exclude or those enrolled in a Grade Level marked as Exclude will not be included in the report. With the release of Campus.1717. Courses marked as State Exclude are not reported.

The following logic applies to the **Special Education** extract:

- Reports Primary enrollments only.
- Reports one record for:
  - The most recent (latest Start Date) primary enrollment that has a Start Date before or on the extract Effective Date and an active IEP during the primary enrollment Start and End Date range  
AND
  - Any primary enrollment that is not most recent that was active on or before the extract Effective

Date, and:

1. Overlaps an IEP
  2. Has a Program Exit Date, where the date is on or before the extract Effective Date
  3. Falls within the calendar year associated with the enrollment
- IEP-based fields report from the most recent, locked IEP that was active during the primary enrollment.
  - Reports a record when the student has a locked, "Initial" Evaluation at any time during the calendar.
  - Records will not report for students with Enrollments marked as State Exclude or enrolled in a Grade Level or Calendar marked as Exclude.
  - Each SPED report record populates all SPED-based fields from the most recent (latest Start Date) locked IEP that overlaps the Primary enrollment's date range.
  - Each primary enrollment's enrollment-based fields must report from this enrollment and not from any other enrollment.
  - If the student has a Special Ed Status of 'R' or 'I', only the following fields report:
    - WISERID
    - StudentLastName
    - StudentFirstName
    - ResidentSchoolID
    - DistrictID
    - StudentOutOfStateTransfer

## Report Editor Details

Editor Field	Description
<b>Extract Type</b>	The type of extract being generated. Options are: <ul style="list-style-type: none"> <li>• <b>Student</b>: pulls information from student enrollments.</li> <li>• <b>Section Enrollment</b>: pulls details about a section of a course.</li> <li>• <b>Special Education</b>: pulls student special education information.</li> </ul>
<b>Report Student Legal Identities</b>	If marked, Demographics fields report from Census > People > Identities > Active Identity > Protected Identity Information.
<b>Include State Excluded Courses</b>	Includes courses marked as State Exclude. (Section extract only)
<b>Effective Date</b>	The date for which data is pulled for the report. Behavior data will be reviewed for all students actively enrolled on this date.
<b>Format</b>	The format in which the report will generate. Options include State Format (CSV), HTML and XML. HTML and XML formats are used for data review and verification, while State Format should be used when submitting reports to the state.
<b>Choose Grades</b>	The grades that will be included in the report.
<b>Ad hoc Filter</b>	A list of pre-defined filters to indicate which students to include in the extract.
<b>Show Student Data</b>	This option only appears if the <i>Special Education</i> Extract Type and a Format of <i>HTML</i> are selected. Marking this checkbox causes several student identification fields to report at the end of the extract.
<b>Calendars</b>	The calendar(s) from which data is pulled for the report.

# Generating the Extract

1. Select the **Extract Type** from the dropdown list. Options are [Student](#), [Section Enrollment](#), and [Special Education](#).
2. Indicate if Demographics fields should **Report Student Legal Identities**.
3. Mark **Include State Excluded Courses** to include courses that are marked as State Exclude but otherwise meet logic requirements.
4. Enter the **Effective Date** of the report in *mmdyyy* format or by clicking the calendar icon.
5. Select the **Format** in which the report should be generated.
6. Select the **Grade Levels** to include in the report.
7. Select an **Ad hoc Filter** to limit results to a pre-defined filter.
8. If generating a *Special Education* extract in *HTML* format, indicate if the extract should **Show Student Data**.
9. Select the **Calendar(s)** to include in the report.
10. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting a request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

## Section Enrollment Format

Lateral movement for every section into which the student is enrolled will be tracked for every active section up to the date selected on the extract editor. This means there may be more than one row reported for a student, depending on frequency of dropping sections and enrolling in a new section within the reporting period.

Element Name	Description and Format	Location
<b>Local Section ID</b>	Specific class of the course.  <i>Numeric, 4 digits</i>	Course > Section  Course.sectionNumber
