

Early Education Program Registration Extract (Minnesota)

Last Modified on 07/18/2025 9:51 am CDT

[Report Logic](#) | [Generating the Extract](#) | [Report Layout](#)

Tool Search: Early Education Program Registration Extract

The Early Education Program Registration Extract reports Early Childhood Programs for which the student has registered. See the [Early Education Tab](#) article for more information.

The screenshot shows the 'Early Education Program Registration Extract' tool interface. At the top, there is a breadcrumb trail: 'Reporting > MN State Reporting > Early Education Program Registration Extract'. Below this is a header bar with the title 'MN Early Education Program Registration Extract'. A sub-header explains the tool's purpose: 'This tool will extract data to complete the MN State-defined reporting extracts. Choose the State Format to get the file in the state defined file format, otherwise choose one of the several testing/debugging formats.' The main area is divided into two columns. The left column, 'Extract Options', contains fields for 'Registration Type' (set to 'EE Student Registration'), 'Date Range' (with a calendar icon and '07/18/2025' selected), 'Validate' (checkbox), 'Format' (set to 'State Format (XML)'), 'Ad Hoc Filter' (dropdown), 'Observe State' (checkbox, checked), 'Exclude' (checkbox), and 'Report Legal Name when Provided' (checkbox). The right column, 'Select Calendars', asks 'Which calendar(s) would you like to include in the report?' and has three radio buttons: 'active year' (selected), 'list by school', and 'list by year'. Below these is a list of calendars for '24-25', including 'Eagle Creek Elementary 24-25', 'East Middle School 24-25', 'ECFE Friday 24-25', 'ECFE M & W 24-25', 'ECFE Monday 24-25', 'ECFE Thursday 24-25', 'ECFE Tuesday 24-25', 'ECFE Wednesday 24-25', 'Elsewhere School 24-25', and 'ESY M&W 24-25'. At the bottom are 'Generate Extract' and 'Submit to Batch' buttons. The footer of the interface reads 'Early Education Program Registration Extract Editor'.

Report Logic

- Census fields report based on the most recent Identity record when the Effective Date is on or before both the extract End Date and the Program Registration Date.
- Enrollment fields report based on the most recent Primary enrollment in the calendar year when the enrollment Start Date is on or before the extract End Date and the Program Registration Date.
- Enrollments, Calendars, and Grade Levels marked as State Exclude will not be included in the extract. Enrollments marked as No Show are also not reported.
- If a student has multiple program registration records, only one record reports if the programs have the same Program Name and Registration Date. In this instance, the Count of Classes field will report based on the number of registration records.

Registration Type Logic

- **EE Student Registration** records are reported if the student has a Funding Source other than P1 or P2 and a Program Name other than 203 or 204 in the selected calendar year.

- **EE Student Registration with a Scholarship** records are reported if the student has a Funding Source of P1 or P2 and a Program Name other than 203 or 204 in the selected calendar year.

Generating the Extract

1. Select which **Registration Type** to report.
2. Enter a **Date Range** in *mmddyyyy* format or clicking the calendar icons and selecting dates. The end date of the date range will auto-populate to the current date.
3. Indicate if the results should be **Validated**. For guidance in validating the XML file against your state's schema using a free, third-party program, see the [Validating an XML File Against a Schema File](#) article.
4. Select the **Format** in which the extract should generate. Use *CSV* or *HTML* for data review and verification and *State Format (XML)* for submission to the state.
5. Choose a student **Ad Hoc Filter** to limit report results to applicable students in that filter.
6. Unmark **Observe State Exclude** to ignore *State Exclude* checkbox on Enrollments.
7. Indicate if Demographics fields should **Report Student Legal Identities When Provided**.
8. Selected the **calendar(s)** that should be included in the extract.
9. Click the **Generate Extract** button to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting an Early Education Program Registration extract to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Report Layout

If the **Report Legal Name When Provided** is marked, Demographics fields report from Census > People > Identities > Active Identity > Protected Identity Information.

Header

These header fields only appear in the XML output.

Element	Description & Format	Interface Location
Unit Number	The district number of the reporting district. <i>Numeric, 4 digits</i>	System Administration > Resources > District Info > State District Number
Unit Type	The type of the reporting district. <i>Numeric, 2 digits</i>	System Administration > Resources > District Info > Type
School Year	The year from which data is reported. <i>Numeric, 4 digits</i>	Reports based on option selected in the extract editor.
Is Scholarship	If at least one Funding Source of P1 or P2 exists for the student, reports as 1. Otherwise reports as 0. <i>Numeric, 1 digit</i>	Student Information > General > Early Ed > Funding Source

Element	Description & Format	Interface Location
Registration Type	<p>Reports the Registration Type selected in extract editor.</p> <p>If the student has at least one Program record with a Program Nam of 203 or 204, reports as HS. Otherwise reports as EE.</p> <p><i>Alphanumeric, 2 digits</i></p>	MN State Reporting > Early Education Program Registration Extract > Registration Type
