Monthly Attendance Register

This is a report of student daily attendance for every day in the selected School Month. **School months need to start on a Monday and be four weeks long.** Results will group by School Month, Attendance Funding Category, and District of Apportionment, and either Grade or Student Name. The report will print in either PDF or CSV format.

Disabled Option in Month Selection are due to school months not starting on a Monday

Monthly Attendance Register

School months must start on a Monday and be four weeks long. For more information on creating School Months, see the [School Months for California](#) article.

Report Logic

All students with the same Service Type/Track Jumper status enrolled in the selected calendar at any time during the selected School Month(s) report.

- Student Type - Primary Enrollment (default) reports all students who have enrollments with a

Service Type of Primary.

- Student Type - Partial Enrollment reports only those students who have enrollments with a Service Type of Partial and have a CALPADS Enrollment Status selected.
- Student Type - Track Jumper reports only those students who have the Track Jumper checkbox marked in their Primary enrollment.

Students with multiple enrollments display in a single entry on the report.

Students do not report when:

- Their enrollment is marked as State Exclude.
- They are enrolled in a grade level marked as State Exclude.
- They are enrolled in a calendar marked as State Exclude.
- Their enrollment in the selected calendar is marked as No Show, unless they have a subsequent active enrollment that begins during the same School Month.

Age Requirements

The Department of Education has new requirements starting with the 2022-23 school year to expand Transitional Kindergarten for all four year olds in California. Refer to the [Transitional Kindergarten](#) and the [Department of Education](#) websites for more information.

Students report in the Monthly Attendance Register when they are five years old. The following logic applies when the student is enrolled in State Grade Level TK: Transitional Kindergarten.

- When a student is enrolled in a State Grade Level of TK: Transitional Kindergarten AND is under 5 years old AND the 2025-26 school year has not begun:
 - ADA reports from the beginning of the student's enrollment in the Active School year when their 5th Birthday is **on or before** the TK Date entered on the report editor.
 - ADA reports from their 5th birthday onward in the Active Year, when their 5th Birthday is after the TK Date entered in the report editor.
- When a student is enrolled in a State Grade Level of TK: Transitional Kindergarten starting in 25-26 school year AND the student turned 4 years old **before September 1** of the current school year:
 - ADA reports for the student for the entire school year.
- When a student turns 4 years old **on September 1 or after**, no ADA reports.

Enrollments

Students in all State Grade Levels report when All Grade Levels is selected. Otherwise, only students in the selected grade levels report. Students enrolled in Grade Level PS do not report.

Student data is grouped by School Month. All students who have an active enrollment for at least one instructional day within the selected School Month report.

- Within a School Month grouping, records are grouped by Attendance Funding Category.
- Within the Attendance Funding Category grouping, records are grouped by District of

Apportionment.

- Within in a District of Apportionment section, records are grouped by grade level.

Attendance Funding Category reports based on the selected reporting period.

- If School Month 1 is selected, the Attendance Funding Category on the enrollment for that time period reports.
- If there is more than one Attendance Funding Category in one school month, all categories report. Enrollment start dates determine the attendance time for the categories.

Students who change Grades, Attendance Funding Categories, District of Apportionment, or Service Types report multiple times.

- Students who change grades only during a school month report twice in the section, one line for each grade level.
- Students who change Attendance Funding Category and/or District of Apportionment during a School Month report in each section.
- Student who change Service Type during a School Month report in both reports.

A student only reports once when the enrollment record has an End Status of 440.

Courses marked as ASES do not report. The ASES course Types that do not report are as follows:

- A1 - Before School Base
- A2 - After School Base
- A3 - Before School Supplemental
- A4 - 3-hour After School Supplemental
- A5 - 6-hour After School Supplemental
- Not Funded - ASES Not Funded

Attendance Present or Absent

A student is counted as Present for the entire day if he/she is present in at least one attendance-taking course section in an instructional period. Present means:

- No attendance code in the period.
- An attendance code in the period with a Status of Present or Tardy and any excuse.
- An attendance code in the period with a Status of Absent and an Excuse of Exempt.

A student is counted as Absent for the entire day if he/she is absent in ALL attendance-taking course sections in instructional periods. Absent means an attendance code with a Status of Absent and an Excuse of Excused, Unexcused or Unknown.

Days Taught is a count of all days in the School Month that are marked as School Day, Instruction and Attendance on the Calendar tab. Days not marked for all three are not considered Instructional Days. Days within the range of Exclude Start Date and Exclude End Date for School Months are ignored even if they are marked as School Day, Instruction and Attendance.

Attendance Recovery

Students can gain back ADA by participating in Attendance Recovery services. This is done by applying the Days Earned value from the Attendance Recovery service.

All services days used that overlap the calendar program and enrollment are summed; when more than 10, the value is set to 10. Then, the minimum service start date and the calendar end date is used as the new range. From there, all valid attendance days in the new single service range (up to 10) are marked as recovered.

See the [Attendance Recovery](#) article for information.

Day Code Logic

The following values report when data meets the listed descriptions. An Attendance Code Legend prints on the second-to-last page of the report when generating the report in PDF format. This list of Attendance Codes includes the values below, plus additional values based on the [attendance codes](#) used at the school and/or district.

Legends of Attendance Codes:

H: Non-Instructional Day.
 B: First day of apportionment in an enrollment.
 L: Last day of apportionment in an enrollment.
 -: Day is counted for apportionment.
 N: Not Enrolled this day.
 /: Grade level change.
 #: Student enrolled but not scheduled into a course.
 \$: Student enrolled but in a different Category or Service Type.

TK Date	<p>Indicates the date for when students in Transitional Kindergarten programs are allowed to generate average daily attendance for the Monthly Attendance Summary.</p> <p>This date is automatically set to September 1, 2025. If necessary, it can be modified by selecting the calendar icon to choose a new date or by entering a new date in <i>mmdyy</i> format.</p> <p>See the Age Requirements section for more information.</p> <div style="border: 1px solid #add8e6; padding: 10px; margin-top: 10px;"> <p>Refer to the Transitional Kindergarten and the Department of Education websites for more information.</p> </div>
Attendance Category	<p>Determines the attendance reporting group into which the student falls. Categories are selected on student Enrollment records. Select one or more categories as needed; an option for All Categories is available to include all options.</p>
Choose Grades	<p>List of state grade levels of enrollment. Select All Grades to include enrollment data from all grade levels at the Calendar/School selected in the Campus toolbar.</p>
Ad hoc Filter	<p>Allows a pre-existing ad hoc filter to be chosen to further narrow the results of the students included in the report. For example, the MAR may need to be generated for a particular race/ethnicity. Creating a filter that only pulls that information can be selected here, so the results of the MAR only return students in the selected grade level, attendance category and a particular race/ethnicity. This allows for LCAP reporting.</p>
Exclude Cross-Site Data	<p>When marked, students enrolled in Cross-Site Enrollment courses are not included in the report.</p>
Select School Month	<p>Select one school month from which to report attendance data.</p> <p>As noted above, School Months must start on a Monday and be four weeks long. If a school month does not start on a Monday, it cannot be selected.</p>

Generate the Report

1. Select the desired **Attendance Category** from the list.
2. Select the **Grade levels** of students to include in the report.
3. Select the appropriate **Ad hoc Filter**, if desired.
4. Mark the **Exclude Cross-Site Data** checkbox to remove students enrolled in Cross-Site courses from the report.
5. Select the **School Month** to include in the report.
6. Choose whether to sort by **Grade** or **Name**.
7. Select the **Student Type** from the dropdown list.
8. When generating the Updated Report Extract Type, mark the **Exclude Tardies** checkbox to remove Tardy records from the report.
9. Choose the **Format** in which to display the report.
10. Click the **Generate Report** button. The report appears in the selected format, displaying attendance information for the selected students.

The report can also be generated using Batch Queue functionality, where the report is not generated until a specified time. Instead of selecting Generate Report, select Submit to Batch. See the [Batch Queue](#) article for more information.
