Report Logic

- Only one record per student assessment reports regardless of the number of active enrollments on the test date.

- To report, the Assessment must have a State Code selected OR be assigned one of the following Federal Codes: PSAT, IB, AP, COMPASS, ACCUPLACER, ACT.

    - An assessment with State Code *EOC_Online* does **NOT** report.

- The student's Assessment test date must be on or between the Submission Start Date and Submission End Date selected on the extract editor.
- The student must be enrolled in at least one of the calendars selected to report.
- The Student MUST have a Student State ID to report.
- To report, the student MUST have at least 1 active enrollment either:
    - On the date the reporting Assessment was taken.
    - On the start date of the Active SAT Flag of record.
    - Students without active enrollments during the Test Date will not report.
- Students with all enrollments in the reporting range marked as State Exclude OR No Show, in a grade level marked State Exclude, or in a calendar marked State Exclude do not report.
- Records are sorted by Calendar, Student State ID, then the value report in the Test Description field.

To report Student Assistance Team Referrals (SAT), the Flag must have a State Program Code of SAT selected and State Reported should NOT be marked in order to prevent SATs from reporting in the Programs Fact Template.

State Program Code of SAT

Report Editor

Field	Description
Submission Schedule	The Submission Schedule for which data is being submitted to the state.
Submission Start Date	The Start Date of the reporting range.
Submission End Date	The End Date of the reporting range.
Ad Hoc Filter	Ad Hoc Filters allow you to limit report results to those included in the filter. This option is useful for troubleshooting.
Format	The format in which the report will generate. Options include HTML, Comma Separated and XML.
Select Calendars	Select which Calendar(s) should appear in the report.

Field	Description
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking **Submit to Batch** instead of immediately generating the report by clicking **Generate Extract**. The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue] article.
