

# Student Discipline (GD) (Ohio Extracts)

Last Modified on 06/30/2025 3:50 pm CDT

[Reporting Population and Business Rules](#) | [Report Editor](#) | [Generating the Extract](#) | [Extract Layout](#)

Tool Search: OH Extracts

The Student Discipline (GD) extract reports all incidents in which a student receives a discipline action (i.e., expulsion, suspension, etc).

**OH Extracts** ★ Reporting > OH State Reporting > OH Extracts

**OH State Extracts**

This tool will extract data to complete several formats of the OH State-defined reporting formats. Choose the State Format to get the file in the state defined fixed width file format, otherwise choose one of the testing/debugging formats.

**Selection Type** ☒ Single Extract ☐ Multiple Extracts

**Extract Options**

Extract Type: Student Demographics (GI) ▼

Generate Extract Submit to Batch

*Ohio Student Discipline (GD) Extract Editor*

## Reporting Population and Business Rules

#	Requirement
R1	Report a record for each individual incident for a student where the State Resolution Code is = 1, 2, 3, 4, 6, or 7.
R1.BR1	Do NOT report a record if DisciplineReason1 = '**' (Event code not tied to a State Code)

## Report Editor

The following table describes the options available in the extract editor.

Extract Field	Description
<b>Extract Type</b>	The type of extract being generated. In this case, select <b>Student Discipline (GD)</b> .
<b>Reporting Period</b>	Indicates when the report is being submitted. Options are: <ul style="list-style-type: none"> <li>• A: Assessment</li> <li>• C: Calendar</li> <li>• G: Graduate</li> <li>• H: Financial</li> <li>• L: Staff/Course</li> <li>• S: Student</li> </ul>
<b>Date Range</b>	The dates which determine which student enrollments will appear on the report, based on the Start and End Dates of enrollments within the selected calendar(s). The first date defaults to 07/10 of the calendar start year.
<b>Format</b>	The format in which the report will generate. Options are <i>State Format (Fixed width)</i> , <i>HTML</i> , <i>CSV</i> and <i>XML</i> . Use HTML, CSV or XML formats for data review and verification and State Format for submission to the State.
<b>Ad hoc Filter</b>	Allows a previously created Ad hoc Filter to be selected that will limit what students appear in the report. Filters are created in the <a href="#">Filter Designer</a> .
<b>Include Protected Identity Info</b>	When this checkbox is marked, the extract includes the legal name entered on the Census > People > Identities tab. If only one part of the Protected Identity Information is entered, that part reports and the other name fields report blank. For example, if the Legal First Name is entered but the middle and last name fields are empty, then only the first name reports and the middle and last names report blank.
<b>Calendar(s)</b>	Students enrolled in the selected calendar(s) will appear in the report.

## Generating the Extract

1. Select the Student Discipline (GD) **Extract Type**.
2. Select the proper **Reporting Period**.
3. Enter the **Date Range** in *mmddyy* format or by clicking the calendar icon and selecting a date. These fields will auto-populate with the recommended date range based on the **Reporting Period** selected.
4. Select the **Format**. For submission to the state, select the State Format (Fixed width). To review data prior to state submission, select any of the other available formats.
5. Select which **calendar(s)** to include within the extract.
6. Select an **Ad hoc Filter** to only report students included in the filter.
7. To include **Protected Identity Information** from the Identities tool, mark this checkbox. To exclude this information from the extract, leave the option unchecked.

8. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate. If generating multiple extracts at a time (after Campus.1921), requests can only be submitted to the Batch Queue.

Users have the option of submitting an Ohio Student Discipline report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

## Extract Layout

Element Name	Description & Format	Campus Location and Database Location
Filler	7 characters	
Filler	1 character	
<b>Sort Type</b>	Identifies the Sort Type. This field will always report a value of GD for the Student Discipline (GD).	N/A
Filler	1 character	
<b>Fiscal Year</b>	The Fiscal Year will be the end of the school year. The fiscal year is July 1 - June 30.  Report end year of reporting school year. Example, if reporting 25-26, report 2026	System Administration > Calendar > School Years > End Year  Not Dynamically Stored
<b>Reporting Period</b>	The reporting period in which data is being pulled from.	OH State Reporting > OH Extracts > Reporting Period
<b>Building IRN</b>	The state assigned six-digit information retrieval number of the building.  Report Building IRN Override, if null report State School Number	Student Information > General > Enrollments > State Reporting Fields > Building IRN Override OR System Administration > Resources > School > School Detail > State School Number  Enrollment.buildingIRNOverride; enrollmentOH.smtIRNOverride
