Credit Summary Tool

**Read** - View the Credit Summary tool, select a Credit Type, and see which courses the student has taken in that group.

**Write** - N/A

**Add** - N/A

**Delete** - N/A

**Read** rights to **Transcripts** are also needed. This allows users to select the credit total for a Credit Type (under the Total column) and view detailed data for the courses the student took tied to that Credit Type. This is a separate tool right because the data view is the student's

transcript record.

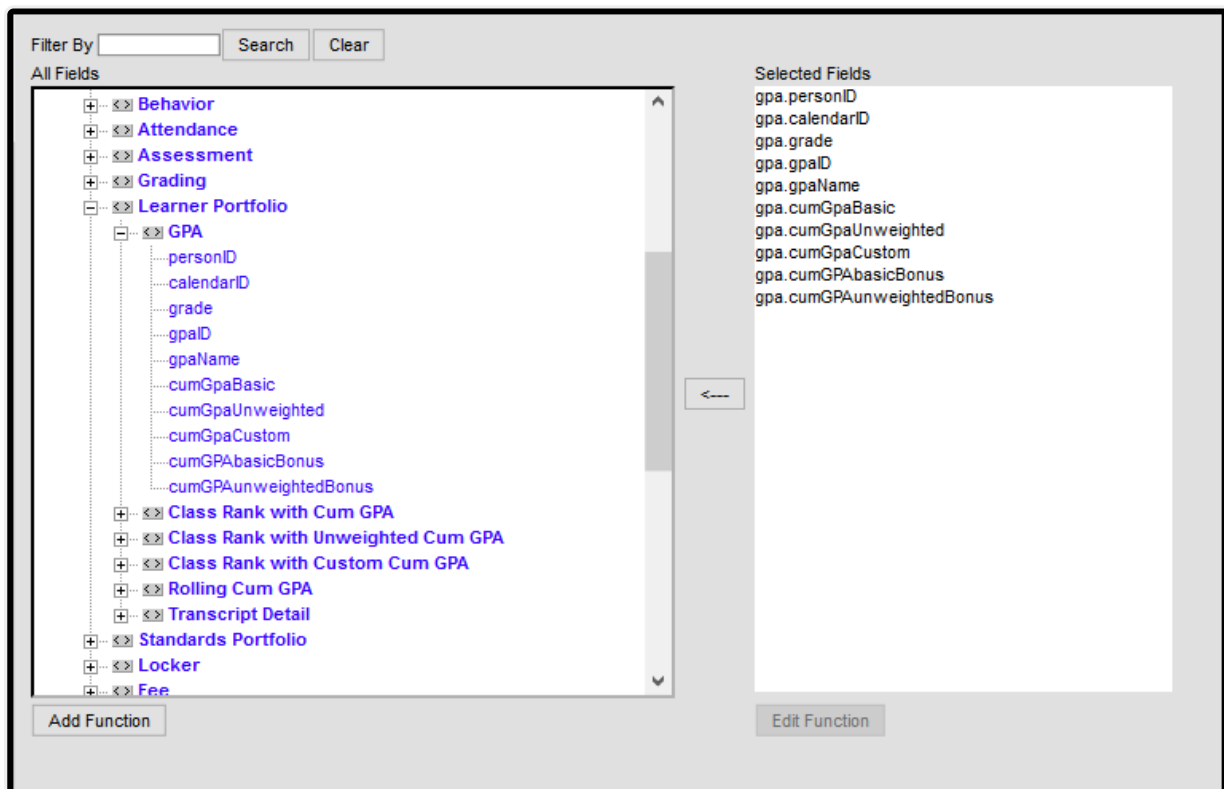

See the [Tool Rights](#) article for more information about Tool Rights and how they function.

## Credit Group Totals

To view a list of all courses the student has taken within a specific credit group, select a **Total** on the right-hand side of the editor. A detailed screen describing course and credit information is displayed, which looks very similar to the student's Transcript but only shows courses from the selected credit group.

To return to the previous screen, select the Credit Summary tool from the Index or search for the tool.

The screenshot displays two overlapping windows from the Infinite Campus system. The top window, titled 'Transcript Credit Summary', shows a table with columns for 'CREDIT GROUP', '07', '08', '09', '10', '11', and 'Total'. The 'Total' column for the 'High School' group is highlighted with a red box and contains the value '25.0'. The bottom window, titled 'Transcripts', shows a detailed table of course information with columns: Course Number, Course Name, Repeat Course, Score, Weighted, Unweighted, Weight, Earned, Attempted, Credit Type, Actual Term, Terms Long, and Comment. The table lists several Algebra I courses (4020) across different grade levels (11, 10, 09) with various scores and credit earned.
