Tool Search: MOSIS Extracts

The EOC EXP Assessment reports reasons for why a student is not required to take an end-of-course exam. The End-of Course Exception Assessment is submitted in March.

MOSIS Extracts

This tool will extract data to complete several types of the MOSIS Phase III reporting collections. Choose the State Format to get the file in the state defined comma separated file format, otherwise choose one of the testing/debugging formats.

MOSIS Pre-Code File: EOX Exception Assessment Type

Report Logic

The following logic applies to the EOC EXP Assessment:

- Only 12th grade students who have an active enrollment record on the effective date entered in the extract editor are included in the report.
- There may be between zero and four records per student, with 1 record per student for each

of the four required EOC assessment subjects for which an exception result is returned.

- Information from the student's Assessment tab is used in this extract.

The following Result Codes must be added to the the Assessment Test [Result Statuses](#) and the EOC Assessment and the MAP Assessment must be marked with one of the EOCEXP codes at the student level to be included in the report.

Exception Code	Description
EOCEX2	EOC Exception 2: Student received content out-of-state; in a private, parochial or home school.
EOCEX3	EOC Exception 3: MAP-Alternate – Students identified by the IEP team received content without an alternate assessment available. Currently this is only applicable to Social Studies.
EOCEX4	EOC Exception 4: Student took content in another public Missouri district, but was not assessed.

One record per assessment with an exception is returned when:

- Assessment State Code = EOC and the student's Test Score Result = EOCEX2, EOCEX3 or EOCEX4.
 - All EOC exception results are returned with any date for students in the reporting population.

OR

One record per student is returned for each of the four required EOC assessments where:

- Special Education Enrollment Field **Map A** is marked with the Extract field EOCEX3.
- EOC Assessment Subject Codes include ENGL12, ALGEB1, BIOLO1, AMGOV1 (created in the [Assessment Tests](#) editor).
- Four records per student are returned where MAP-A is selected, one for each of the above state codes in the subject field.
- Each of the four records return with the Assessment field value = EOCEX3.

EOC Exception “download” report is made available to districts and allows districts to download students reported as 12th grade and enrolled in the district on the last Wednesday in January that do not have an EOC assessment record, pre-formatted for the EOC Exception file layout.

District are required to modify this EOC Exception “download” report before submitting it back to the DOE.

- Students may need to be removed (took assessment during spring administration).
- Students may need to be added (not enrolled at time the report generated). AND
- The exception reason (EOCEXP1, EOCEXP2, EOCEXP3, EOCEX4) needs to be added in the assessment field for each student left in the file.

Report Editor

Field	Description
Extract Type	Indicates the type of MOSIS Extract being generated. Choose Pre-code File .
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Report State Excluded Student	When marked, students who meet the report population requirements but their enrollment record is marked as State Exclude report along with all other records. When not marked, students marked as State Exclude on their enrollment record are excluded from the report.
Effective Date	Entered date is used to return students actively enrolled as of that date.
Ad hoc Filter	Selection of a filter limits the set of students to only those included in the filter.
Assessment Type	Determines the pre-code file that generates. Choose EOCEXP: EOC Exception .
Format	Determines the program used to display the report. State Format is in CSV - use this option when submitting data to the state. Use the other options or data review and testing - Tab Delimited, HTML, or XML.
Calendar Selection	Indicates from which enrollments are included in the extract. At least one calendar must be selected to generate the report. Calendars can be selected by active year, school name or year.
Report Generation	The report can be generated immediately using the Generate Extract button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the Submit to Batch button, which allows the user to choose when the report is generated. See the Batch Queue article for more information.

Generate the EOC EXP: EOC Exception Pre-Code Extract

1. Select the **Pre-code File** option from the **Extract Type** dropdown list.
2. Mark the **Report Protected Identities** checkbox, if desired.
3. Mark the **Report State Excluded Students** checkbox, if desired.
4. Enter the **Effective Date** in *mmdyy* format or by clicking the calendar icon and selecting a date, if applicable.
5. Select an **Ad hoc Filter**, if applicable.

6. Select the **Assessment Type** as **EOCEXP: EOC Exception** from the dropdown list.
7. Select the desired **Format** of the extract. For submission to MOSIS, select the State Format (CSV). Select any of the other formats for data review prior to submission.
8. Select which **Calendar(s)** to include report within the extract. Selecting multiple calendars may impact extract generation times and overall Campus performance.
9. Click the **Generate Extract** button or the **Submit to Batch** button. The extract will appear in a separate window in the designated format.

Report Layout

Element Name	Description	Location
Collection Version <i>Required</i>	Indicates the assessment type selected on the extract editor. Collection version contains the value YYYYXXXXXX1.0AsmPre where: <ul style="list-style-type: none"> • YYYY = the reporting school year (2010, 2011, etc.) • XXXXXX = the assessment type selected <i>Alphanumeric, 50 characters</i>	MO State Reporting > MOSIS Extracts
Current School Year <i>Required</i>	The ending year of the current school year. <i>Date field, 4 characters (YYYY)</i>	School Years > End Year Calendar.endYear
Reporting District Code <i>Required</i>	DESE-assigned 6-digit county district code for the district reporting. <i>Numeric, 6 digits</i>	District Information > State District Name District.number

Element Name	Description	Location
Reporting School Code	<p>DESE-assigned 6-digit school code for the reporting school.</p> <p>Reports the selected code entered on the State Reporting Fields Enrollment editor, if populated.</p> <ul style="list-style-type: none"> If not populated, the Calendar Type is used to determine the reported value. If the Calendar Type Code is AP: Alternative Program School, all students enrolled in that calendar report the value entered in the Residing School field on the State Reporting Enrollment editor. If the Reporting School field is not populated and the Calendar Type is not AP, the School Organization Type is used. When the School Organization Type Code is AP: Alternative Program School, all students enrolled in that school report the value entered in the Residing School field on the State Reporting Enrollment editor. If the Reporting School field is not populated and the Calendar Type is not AP and the School Organization Type is not AP, the Reporting School reports from the State School Number. <p><i>Numeric, 6 digits*</i></p> <p><i>*Note: while this report displays the full 6 digit school code, the state only accepts 4 and this value will need to be manually adjusted before submitting to the state.</i></p>	<p>Enrollments > State Reporting Fields > Reporting School; Residing School</p> <p>Enrollment.reportingSchool Enrollment.residingSchool</p> <hr/> <p>Calendar > Calendar > Type</p> <p>Calendar.type</p> <hr/> <p>School > School Org Type; State School Number</p> <p>School.type School.number</p>
State ID <i>Required</i>	<p>State-assigned student identifier.</p> <p><i>Numeric, 10 digits</i></p>	<p>Demographics > Person Identifiers > State ID</p> <p>Person.stateID</p>
Local Student ID <i>Optional</i>	<p>School-assigned student identifier.</p> <p><i>Numeric 20 digits</i></p>	<p>Demographics > Person Identifiers > Student Number</p> <p>Person.studentNumber</p>

Element Name	Description	Location
Last Name <i>Required</i>	<p>Legal last name as it appears on the student's birth certificate.</p> <p>When the Report Protected Identities checkbox is marked on the report editor, the student's last name reports from the Legal Last Name field if populated.</p> <p><i>Alphanumeric, 50 characters</i></p>	<p>Demographics > Person Information > Last Name</p> <hr/> <p>Identity.lastName</p> <hr/> <p>Identities > Protected Identity Information > Legal Last Name</p> <hr/> <p>Identity.legalLastName</p>
First Name <i>Required</i>	<p>Legal first name as it appears on the student's birth certificate.</p> <p>When the Report Protected Identities checkbox is marked on the report editor, the student's first name reports from the Legal First Name field if populated.</p> <p><i>Alphanumeric, 30 characters</i></p>	<p>Demographics > Person Information > First Name</p> <hr/> <p>Identity.firstName</p> <hr/> <p>Identities > Protected Identity Information > Legal First Name</p> <hr/> <p>Identity.legalFirstName</p>
