Tool Search: Unique ID Extract

The Unique ID Extract is used to gather Student State ID data.

The screenshot shows the 'Unique ID Extract' tool interface. At the top, there's a breadcrumb trail: 'Reporting > WY State Reporting > Unique ID Extract'. Below this is a blue header bar with 'WY UniqueID Extract'. A message states: 'This tool will extract data for uploading files to state Unique-ID system. Choose the State Format to get the file in the state defined file format, otherwise choose one of the several testing/debugging formats.'

The interface is divided into two main sections: 'Extract Options' and 'Select Calendars'.

**Extract Options:**

- Format:** A dropdown menu set to 'State Format(Tab Delimited)'.
- Ad Hoc Filter:** A dropdown menu.
- Report Student Legal Identities:** A checkbox that is currently unchecked.
- Buttons:** 'Generate Report' and 'Submit to Batch'.

**Select Calendars:**

- Which calendar(s) would you like to include in the report?**
  - ☒ active year
  - ☐ list by school
  - ☐ list by year
- 23-24 Calendar List:** A list of schools including: 123 23-24 GREEN RIVER HIGH SCH, 222 23-24 GREEN RIVER HIGH SCH, 23-24 SCSD2, 23-24 EXP ACA, 23-24 GRANGER, 23-24 GREEN RIVER HIGH SCHOOL, 23-24 HARRISON, 23-24 LINCOLN MIDDLE SCHOOL, 23-24 MCKINNON, 23-24 MONROE, 23-24 TRUMAN, and 23-24 WASHINGTON.

Below the calendar list, it says 'CTRL-click or SHIFT-click to select multiple'.

At the bottom, there's a 'Batch Queue List' table with columns: 'Queued Time', 'Report Title', 'Status', and 'Download'. Above the table, there are filters: 'Refresh', 'Show top 50', 'tasks submitted between 05/29/2024 and 06/05/2024'.

The caption below the screenshot is 'Unique ID Extract'.

## Report Logic

Any student without a State ID reports, even if they have State Exclude on their enrollment or grade level. Students do not report if the Calendar of Summer School is marked Exclude.

## Generating the Extract

1. Select the **Format** from the dropdown. Use State Format (Tab Delimited) for submission to the state or CSV, XML, and HTML for data review and verification.
2. Select an **Ad Hoc Filter** to limit students reported to those in an existing [Ad hoc Filter](#).
3. Indicate if Demographics fields should **Report Student Legal Identities**.
4. Choose what **Calendar(s)** to include in the extract.

- Click **Generate Report** to view the report in the selected format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting a Unique ID Extract to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.
