Tool Search: Report Setup

[Margin Size](#) | [Create a Transcript Report](#) | [Report Options](#) | [Transcript Print Examples](#)

Transcripts provide a historical record of a student’s performance in courses. Districts can determine which grade levels to include on the report and choose which credit groups to include, which standards to print, and which GPA calculation(s) to use. Transcript Report Preferences allow users to determine what and how data is reported on printed transcripts.

Report Setup - Transcript Preferences

Margin Size

The following table describes the default margin size for transcripts:

Margin	Size
Top	0.5 inches
Bottom	0.5 inches
Left	Grade Group Option: 0.5 inches Term Group Option: 0.333 inches School Year Group Option: .5 inches
Right	Grade Group Option: 0.5 inches Term Group Option: 0.333 inches School Year Group Option: .5 inches

Transcripts are generated for printing on a standard 8.5in X 11in sheet of paper.

Create a Transcript Report

1. Select the **New** icon. A **Report Detail** and a **Report Options** table appears.
2. Enter a **Name** for this transcript.
3. Select the Transcript option from the **Type** dropdown list.
4. Determine whether or not this report should be available in Campus Parent/Campus Student. If so, mark the **Portal** checkboxes for **Available In**.
5. If desired, enter a **Description** of this report.
6. Select all appropriate **Report Options** for the transcript. Report Options are separated into different sections relating to a specific aspect of the transcript. Refer to the sections below for more information.
7. Click the **Save** icon when finished. The transcript is now saved and can be used to generate transcripts from the [Transcripts](#) and [Transcript Batch tool](#).

Report Options

The following sections describe all report options. Many of these options can be set to display only those options associated with a certain school by selecting the **Filter to selected school** checkbox. This filters the standard groups, credit groups and related information to only show those categories associated with the school selected in the Campus toolbar.

See the [Transcripts](#) article for more information on how data populates a printed transcript report.

Control whether the Default Transcript Report is available for selection by setting the Enable Default Transcript [System Preference](#).

If the district has enabled the System Preference (see above) not to show the Default Transcript Report option, it can be recreated by marking the options where text appears in the Default column below.

Group Options	<p>Users can group course information by Grade, Term or Year.</p> <ul style="list-style-type: none"> • The Grade option groups all courses and corresponding grades taken while the student was enrolled in a certain grade level together on the transcript. • The Term option groups courses and corresponding grades based on the calendar term (quarter, semester, etc.) together on the transcript. The information is first grouped by school name (alphabetically) when there is more than one school with transcript records. • The Year option groups courses and corresponding grades based on the selected school year. If a student is enrolled in multiple calendars, this option lists those courses together. <p>If standards are used in the Course Display, they are also displayed by grade, term, or year.</p> <p>School Year Sort Logic with School Name/School Number Grouping ▶ Click here to expand...</p>	Grade
School Year Options	<p>The School Year Options field allows users to designate the last school year from which to report transcript data. For example, if 2018-19 is selected and the student has earlier transcript records from the reporting school, all course grade data from these enrollment records through the 2018-19 report. Any transcript records from school years after 2018-19 are not reported.</p>	N/A
Grade Level Options	<p>The Exclude grades flagged as "Exclude from GPA/Class Rank" checkbox allows users to exclude all GPA-excluded grade levels from factoring into the student's reported GPA/Class Rank. Only grade levels with the Exclude from cumulative GPA/Rank calculations checkbox marked on the Grade Levels tab are excluded.</p> <p>When all transcript course records for a school are from a grade level marked as Exclude from GPA/Class Rank, the school name does not print.
