## Tool Search: State Referral

The Special Education State Referral tool lists details of locked Special Education Evaluations for students. Data from this tool reports on the [Table 8A Extract](#).

This tool consists of two sections: State Referral and SPED Flags.

See the core [SPED State Reporting](#) article for information on necessary tool rights, SPED Flags functionality, and guidance on adding SPED State Reporting or Setting records.

The screenshot shows the 'State Referral' tool interface. At the top, there is a header with a user icon, the name 'MOHAMMAD A', and filter fields for 'Student #' and 'Grade: 02 DOB:'. To the right, there is a 'Related Tools' button. Below the header, there are two main sections: 'Summary Overview' and 'State Reporting'. The 'State Reporting' section contains a table with three columns: 'Referral Date', 'Referral Type', and 'Referral Reason'. The table shows one record: '11/04/2024' in the Referral Date column, 'Initial: Initial Eval' in the Referral Type column, and an empty Referral Reason column. At the bottom of this section is a 'New' button. Below the 'State Reporting' section is a 'SPED Flags' section, which also contains a table with columns for 'Start Date', 'End Date', 'Flag Type', 'User Warning', and 'Flag icon'. The table shows one record: '11/04/2024' in the Start Date column, an empty End Date column, 'SPED Flag Example' in the Flag Type column, an empty User Warning column, and a red flag icon in the Flag icon column.
