The KIDS Collection QERY Extract is used to retrieve data about a school's students. This record may be useful in retrieving demographic and program participation data about new students.

KIDS QERY Editor

Report Logic

See the KIDS Collection Extracts article for general reporting logic.

QERY records must be submitted in a batch file by themselves - not included with other KIDS files.

Data returned for students is the most recent data submitted for a student. If the student was previously claimed by another school, the data returned is the most recent information from the previous school.

Generate the Report

See the KIDS Collection Extracts editor for description of the Report Editor fields and Sample Report Formats.
