Tool Search: PAsecure ID

The PA Secure ID Extract provides student demographic information to the State Department of Education so that students can be assigned a state identification number.

See the PA Secure ID Import for the corresponding import to this extract.

# **Report Logic**

This extract returns all students who have an active enrollment record and a Local Student Number but do not have a State Student ID Number (PAsecureID). It can also be generated for students who do have a State Student Number, if needed (remove the checkbox on the report editor for Students w/o stateIDs).

## **Report Editor**

Field	Description
Effective Date	Indicates which enrollments are reviewed for inclusion on the report. The field populates with the current date, but can be modified by typing a new date in mmddyy format or using the calendar icon to select a date.
Students w/o State IDs	When marked, only students who do not have a State ID are returned in the extract. When not marked, all students who have an State ID and who do not have a State ID are returned in the extract.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Format	The extract can be generated in HTML, CSV, XML or State Format (csv with header and footer). Use the State Format when submitting the extract to the state. Use the other formats for review prior to submitting the file to the state.
Calendar Selection	Indicates from which calendar data is returned. At least one calendar needs to be selected in order to generate the report.

## **Generate the Report**

- 1. Enter the desired **Effective Date**.
- 2. Determine if **Students without IDs** should be included in the report (leave the checkbox marked) or if all students with and without IDs (remove the checkmark) should be included in the report.
- 3. If desired, mark the  $\mbox{\bf Report Protected Identities}$  checkbox.
- 4. Select the desired **Format** from the dropdown list.
- 5. Select the desired **Calendar(s)** to include in the report.
- 6. Click the **Generate Report** button. The report displays in the desired format.
