

# Dual Enrollment (Rhode Island)

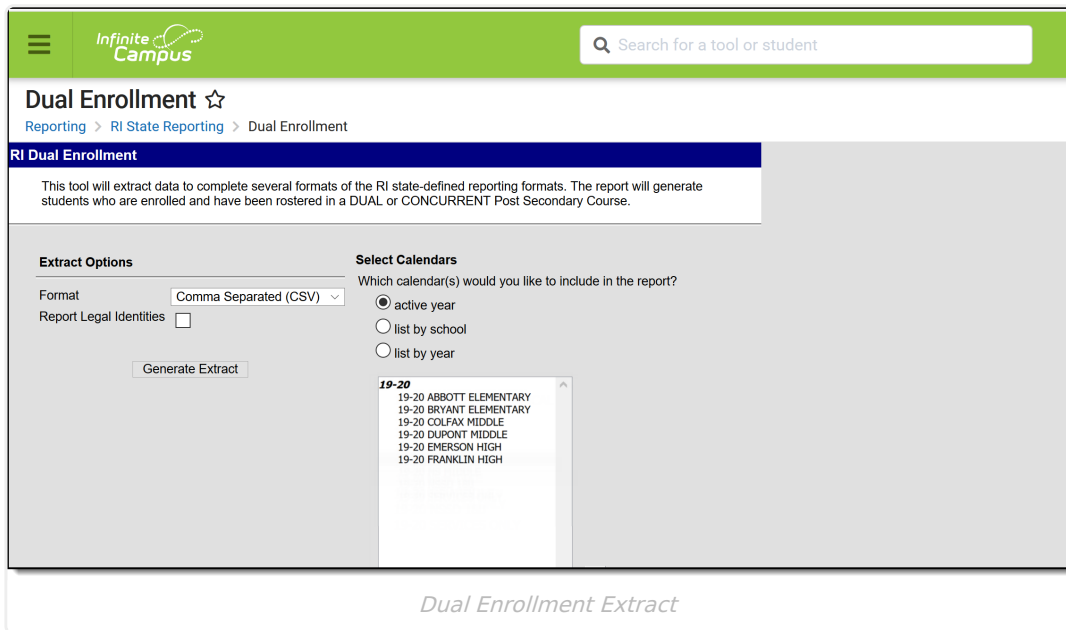

Last Modified on 03/11/2024 8:44 am CDT

[Extract Logic](#) | [SQL Query](#) | [Extract Editor](#) | [Generate the Dual Enrollment Extract](#) | [Extract Layout](#)

**Classic View:** [RI State Reporting](#) > [Dual Enrollment](#)

**Search Terms:** Dual Enrollment

The Dual Enrollment Extract provides a list of students who are in dual and concurrent enrollment or other advanced network coursework in post-secondary institutions. Data can be submitted throughout the year, as information becomes available (at the end of grading terms, etc.). All students are included in the report, regardless of them earning credit or not.

The screenshot shows the 'Dual Enrollment' tool interface. At the top, there's a search bar and a navigation menu. The main heading is 'Dual Enrollment' with a star icon. Below it, a breadcrumb trail shows 'Reporting > RI State Reporting > Dual Enrollment'. A blue header bar reads 'RI Dual Enrollment'. A text box explains: 'This tool will extract data to complete several formats of the RI state-defined reporting formats. The report will generate students who are enrolled and have been rostered in a DUAL or CONCURRENT Post Secondary Course.' Below this, there are two sections: 'Extract Options' and 'Select Calendars'. In 'Extract Options', the 'Format' is set to 'Comma Separated (CSV)' and 'Report Legal Identities' is unchecked. A 'Generate Extract' button is present. In 'Select Calendars', the question is 'Which calendar(s) would you like to include in the report?'. Three radio buttons are available: 'active year' (selected), 'list by school', and 'list by year'. A dropdown menu is open, showing a list of schools for the '19-20' calendar: 19-20 ABBOTT ELEMENTARY, 19-20 BRYANT ELEMENTARY, 19-20 COLFAX MIDDLE, 19-20 DUPONT MIDDLE, 19-20 EMERSON HIGH, and 19-20 FRANKLIN HIGH. The caption below the screenshot is 'Dual Enrollment Extract'.

## Extract Logic

Students are included in the report when they are scheduled into DUAL or CONCURRENT or OTHER post secondary courses. This is determined by the Enrollment Type field on the Course editor. If the Decline Dual Credit checkbox is marked on the [Roster Batch Edit](#) tab for any student, that student is not included.

- Only active students report.
- Only active courses report.

Students are not reported when:

- Their enrollment records are marked as State Exclude or No Show.
- They are enrolled in a grade level marked as State Exclude.
- They are enrolled in a calendar marked as State Exclude.

## SQL Query

```
EXEC [get_RI_DualEnrollment] @calendarList ='57'
```

Modify the calendar number (in the example above, this is 57) to match the number for your district.

## Extract Editor

Field	Description
<b>Format</b>	Indicates how the extract generates - CSV or HTML.
<b>Calendar Selection</b>	Indicates from which calendar student and course information reports. At least one calendar needs to be selected in order to generate the extract. Calendars can be chosen by the active year, by school name or by year.

## Generate the Dual Enrollment Extract

1. Select the desired **Format**.
2. Select the desired **Calendar(s)**.
3. Click the **Generate Extract** button.
