

# Assessment Pre-ID Extract - SAT Pre-ID Report Type (Illinois)

Last Modified on 07/30/2025 12:26 pm CDT

[Report Logic](#) | [Report Editor Details](#) | [Generate the Report](#) | [SAT Pre-ID extract Layout](#)

Tool Search: Assessment Pre-ID Extract

The SAT Pre-ID extract generates a list of labels with student information for the SAT Test.

**Assessment Pre-ID Extract** ★ Reporting > IL State Reporting > Assessment Pre-ID Extract

**IL Assessment Pre-ID Labels State Extract**

This tool will extract data for the IL State-defined Assessment Pre-ID Label reports. To extract data for deprecated Pre-ID reports, select Assessment Pre-ID from the Report Type droplist, then select the desired Test ID. Choose state format to generate the file for upload to the State, otherwise choose one of the testing/debugging formats.

**Extract Options**

Report Type: SAT Pre-ID

First Year in US School Date: 07/30/2025

## Report Logic

All students who have an active primary enrollment as of the effective date and who meet the following requirements are included in the report:

- Students must be enrolled in a State Grade of 09-12.
- The enrollment record must NOT have the IL Alt Assessment checkbox marked.
- If more than one enrollment meets these requirements, the enrollment with the most recent start date is reported.
- Enrollments marked as No Show or State Exclude do not report. Enrollments in a calendar marked as State Exclude or in a grade level marked as State Exclude are not reported.

# Report Editor Details

Field	Description
<b>Report Type</b>	Determines which Pre-ID extract generates. Choose the <b>SAT Pre-ID</b> option.
<b>First Year in US School Date</b>	Entered date returns students who were first enrolled in a US School on or after this date. It defaults to the current date, but can be modified by typing in <i>mmddyy</i> format or using the calendar icon to select a date.
<b>File Identifier</b>	This field is reported each time the district submits an extract. This number will default to 001 and increase sequentially.
<b>Effective Date</b>	Entered date is used to include students who are actively enrolled in the selected calendars as of that date.
<b>Strip Apostrophes</b>	When the checkbox is selected, apostrophes are removed from the first and last names in the generated report. Defaults to checked.
<b>Report Protected Identities</b>	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
<b>Format</b>	This extract can be generated in the State Format (Comma Separated), HTML, or XML. Use the State Format option after data has been reviewed for accuracy in one of the other formats.
<b>Choose Grades</b>	Selection indicates which grade level of enrollment will be returned in the extract. Choose All Grades to include enrollments from all grade levels.
<b>Ad hoc Filter</b>	Select an existing ad hoc filter to further limit the students included. Only those students meeting the criteria of the selected ad hoc filter and the report logic will be included in the report. If a grade level and an ad hoc filter is selected, only students who are in the selected Grade Level and in the Ad hoc Filter will be included on the report.
<b>Select Calendars</b>	At least one calendar needs to be selected in order to generate the report. Calendars can be selected by the Active Year, by School or by Year. If a calendar is selected in the Campus toolbar, that calendar is automatically selected.
<b>Report Generation</b>	Use the <b>Generate extract</b> button to immediately display the extract's results. For a larger data set, use the <b>Submit to Batch</b> button. This allows the selection of a specific time in which the extract generates (after school hours). See the <a href="#">Batch Queue</a> article for more information.

## Generate the Report

1. Select the **SAT Pre-ID Report Type**.
2. Enter the **First Year in US School Date** in *mmddyy* format, or use the calendar icon to select a date.
3. Enter the appropriate **File Identifier**.
4. Enter an **Effective Date** in *mmddyy* format, or use the calendar icon to select a date.

5. The **Strip Apostrophes** checkbox is marked by default. It can be unmarked, but including apostrophes could negatively impact state reporting.
6. If desired, mark the **Report Protected Identities** checkbox.
7. Select the **Format** in which to generate the report.
8. Select the appropriate **Grade levels** to include on the report.
9. If necessary, select an **Ad hoc Filter**.
10. Select the appropriate **School Calendars** for which to generate this report.
11. Click the **Generate Report** button or the **Submit to Batch**. The report will appear in a new window in the chosen format.

For any Test ID selected, the report sorts in Last Name, First Name, State ID order.
