GRAD Score

The GRAD Score is populated by the [Early Warning](#) tool. The predictive analysis employed to generate a student's GRAD score is ever evolving and is constantly updated as new data is entered into Campus. A student's GRAD score includes (but is not limited to) the following categories of data:

- Enrollment
- School
- Identity
- Behavior
- Household Demographics
- Student Engagement

- Guardian Involvement
- Attendance
- Grades
- Standardized Tests

Diploma Date

The month, day, and year the student was awarded the diploma.

Diploma Type

The Diploma Type drop list allows users to select the type of plan under which the student graduated. The Diploma Type section under the [Attribute / Dictionary](#) is unlocked so users with the appropriate tool rights can add / edit local Diploma Types. One of the Standard Codes listed below must be assigned to the local Diploma Type for it to display for students in the State Edition (state reporting).
