

Graduation (Nevada)

Last Modified on 04/20/2026 11:11 am CDT

Tool Search: Graduation

The Graduation tool enables districts to track graduation information used in state reporting, AYP (Average Yearly Progress) determinations, and NCLB (No Child Left Behind) report cards. Districts can track when a student first entered ninth grade and calculate their expected graduation date.

One graduation record exists for EACH student. When an enrollment record for grade 9 is created for a student, a graduation record is also created. Collected graduation data varies by state. Fields in the Graduation tool that are specific to the state of **Nevada** are described below. Refer to the core [Graduation](#) article for additional information.
