

Ed-Fi v3.X - Programs Resource Preferences

Last Modified on 03/19/2024 7:50 am CDT

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Programs resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. Select the appropriate **Ed-Fi Code** for the Program Type Descriptors.

Any item not mapped will not report to Ed-Fi.

Program Type Descriptors	
UI Location	Student Information> Program Participation> English Learners Or Program Admin> Flags> Name Or Special Education> IEP Or Program Admin> Programs> Career Tech Programs Or Student Information> Program Participation> Title I Or FRAM > Eligibility Or Student Information > Program Participation > Migrant Or Student Information > Program Participation > Homeless
