EL Enrollment Post Test Extract Editor

Report Logic

- English Language Learner students who were enrolled (any enrollment type) in state grade level 91 or 01-12 during the Testing Window report.
- If multiple enrollments exist, Campus uses the most recent primary enrollment as of the

Testing Window end date. If no Primary enrollment exists, Campus uses the most recent enrollment as of the Testing Window end date.

- To report, the student must meet at least one of the following conditions.
 - EL status is EL and their Identified Date is before or on the Testing Window end date entered on the extract editor.
 - EL status is Exited EL and the Program Exit date is on or after the Testing Window end date entered on the extract editor.
- Only one record reports for each student.
- Students are NOT included if their:
 - Enrollment record is marked as State Exclude;
 - Grade Level of enrollment is marked as State Exclude; or
 - Calendar of enrollment is marked as State Exclude.
- The report sorts by school number, last name, first name, then enrollmentID.

Report Editor Fields

Field	Description
Testing Window	Data is pulled as of the dates entered in this field.
Which students would you like to include in the report?	<ul style="list-style-type: none"> • Grade • Ad Hoc Filter
Format	Determines the format for the report. Use the CSV (State Format) when submitting the final data. Use HTML or TXT for data review and testing.
Generate Report Submit to Batch	Users have the option of submitting the report request to the batch queue by clicking Submit to Batch instead of Generate Extract . This process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Generating the Extract

1. Enter the **Testing Window** dates. Data will report during this period.
2. Select which students will be included in the report based on **Grade** or an **Ad Hoc Filter**.
3. Select which **Calendar(s)** will report data.
4. Select the report **Format**. For submission to the state, select the CSV (State Format).
5. To generate the extract immediately, click **Generate Extract**. To schedule when the system will process and generate the extract, select **Submit to Batch**.
