The Discipline and Truancy Report (DF22) captures behavior incidents related to violence, weapons, controlled substances (including alcohol), bullying, harassment, intimidation and truancy. It reports student and offender-centric data entered into the Behavior Management Tool in Campus. The extracted information allows for data driven decision-making related to the organization of chemical and violence prevention programs.

The DF22 report produces a list of students from a single calendar. However, users have the option to run the report across multiple calendars if data is required in a district-wide format.

Report Logic

- Behavior incidents are reported in the following nine categories:

  - Violence Other Students
  - Violence School Staff

- Possession Weapons
- Distribution Controlled Substance
- Possession Use Controlled Substance
- Possession Use Alcohol
- Bullying, Cyber-Bullying, Harassment, Intimidation
- Habitual Discipline Problem
- Habitual Truant

- An incident reports for each instance of a state event if there is an associated expulsion or out-of-school suspension.
- An expulsion and suspension tied to a single event is only counted once.
- Habitual Discipline Problem and Habitual Truant does not require an out-of-school suspension or expulsion.
- Multiple student offenders can report from the same incident.
- The most severe resolution reports in the following order: Expulsion, Out-of-School Suspension and In-School Suspension.
- If Behavior Incident data exists without a current student offender, it does not report.
- If a Behavior Incident has more than one state event, Campus reports the specific event that corresponds to the proper state resolution.
- Behavior Resolutions that are not mapped to a state event code do not report.

Option	Description
Date Range	Entered dates are used to return students enrolled during that time frame. Enter dates by typing in mmddyy format or by using the calendar icon to choose a date.
Report Type	The following options are available: • Detail • School Summary
Format	Determines how the extract generates. Use the State Format (CSV) when submitting the final data. Use HTML for data review and testing.
District-Wide	Marking this checkbox automatically selects all schools in the active school year.
Ad Hoc Filter	Selection includes only those students included in the filter.
Calendar	Selected calendar indicates which students will be included in the report. Multiple calendars can be selected at one time; it is recommended that all calendars in a district not be selected as this will increase the amount of time it takes to generate the extract. The calendar chosen in the Campus toolbar is already selected.
Generate Report	Displays the selected calendar information and extract immediately for review and printing in one of the selected formats.
Submit to Batch	Delays the extract generation to a designated time. See the Batch Queue article for more information.
