

# ISBE Extracts: ISBE Student Demographics and Enrollment Extract (Illinois)

Last Modified on 06/04/2024 2:21 pm CDT

[Report Logic](#) | [Gender Reporting](#) | [Report Editor](#) | [Generate the Report](#) | [Report Layout](#)

## Tool Search: ISBE Extracts

The ISBE Student Demographic/Enrollment Extract is used to determine all pertinent state-defined demographic and enrollment information required for state funding purposes. One record for each active enrollment in the selected calendar reports.

**ISBE Extracts** ☆

**IL ISBE State Extracts**

This tool will extract data to complete several formats of the IL State-defined ISBE reporting extracts. Choose the State Format to get the file in the state defined fixed width file format, otherwise choose one of the testing/debugging formats.

**Extract Options**

Extract Type: Student Demographics/Enrollment

Effective Date: 12/06/2021

File Identifier: 001

Students w/o stateIDs:

Strip Apostrophes:

Report Protected Identities:

Include State Excluded Courses:

Format: State Format(Comma Delimited)

Ad Hoc:

**Select Calendars**

Which calendar(s) would you like to include in the report?

active year

list by year

**20-21**

- 20-21 Abbott Elementary
- 20-21 Baird Elementary
- 20-21 Chowen Middle
- 20-21 Drew Middle
- 20-21 Ewing High
- 20-21 Fremont High

*ISBE Student Demographics and Enrollment Extract*

## Report Logic

Students who have an active enrollment in any state grade level are included in the report.

Students must be recorded appropriately as having an EL Service. See [EL Student Data \(Illinois\)](#) for details.

Students are NOT included when:

- Their State Grade Level on the active enrollment record is 14: Pre-K.
- The Enrollment record is marked as State Exclude or No Show.
- The Grade Level of Enrollment is marked as State Exclude.
- The Calendar of Enrollment is marked as State Exclude.

## Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) and/or the [Demographics](#) tools. **While Illinois accepts a Non-binary gender for state reporting, federal reporting standards do not. Keep this in mind for any federal reporting pulled from Infinite Campus data.**

The Illinois State Board of Education provides the following definitions:

Term	State Definition
<b>Sex</b>	A label a person is given at birth, often based on a medical professional’s interpretation of the newborn’s physical characteristics. This is typically the sex reflected on one’s original birth certificate. Sex is distinct from gender identity.
<b>Male</b>	A man or a boy.
<b>Female</b>	A woman or a girl.
<b>Non-Binary</b>	A term used to describe people whose gender identity is not exclusively male or female, including those who identify as a gender other than male or female, as more than one gender, or as no gender

State Reporting Extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a Non-binary value for a student on the Identities tab:

1. Assign the **Sex** (previously labeled *Gender*) of **N: Non-binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field of either M: Male or F: Female.
3. Save the record when finished.

### Identity Information

PersonID: 84745

<b>*Last Name</b>	<b>*First Name</b>	<b>Middle Name</b>	<b>Suffix</b>
STUDENT	GRACE	Danielle	
<b>*Sex</b>	<b>*Birth Date (Age: 18)</b>	<b>Soc Sec Number</b>

STUDENT	GRACE		
<b>Legal Gender</b>			
Female			

Race/Ethnicity (Edit)

*Sex and Legal Gender Assignment*

## Report Editor

The following fields are available for selection.

Field	Description
<b>Extract Type</b>	Selection determines the extract that is generated. For this instance, select the <b>Student Demographics/Enrollment</b> option.
<b>Effective Date</b>	Entered date is used to return current enrollments for the report. This field automatically populates with the current date, but can be changed by entering a new date in <i>mm/dd/yyyy</i> format or by clicking the calendar icon to select a date. This date is required in order to generate the report. <ul style="list-style-type: none"> <li>If an enrollment record has an end date before the effective date, that record is not included</li> <li>If an enrollment record has an end date after the effective date or does not have an end date, that record is included.</li> </ul>
<b>File Identifier</b>	Indicates the number attached to the end of the file name and is used to differentiate the file from other files generated.
<b>Students without State IDs</b>	When marked, the report returns students who do not have state IDs assigned.

Field	Description
<b>Strip Apostrophes</b>	<p>When marked, the following marks are removed from student names and other reported data:</p> <ul style="list-style-type: none"> <li>• Apostrophes ('), Commas (,), Periods (.)</li> <li>• Umlaut (Ö)</li> <li>• Tilde (Ñ)</li> <li>• Grave Accents (Ò), Acute Accents (Ó)</li> <li>• Circumflex (Ô)</li> </ul> <p>When not marked, these marks are not removed.</p>
<b>Report Protected Identities</b>	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
<b>Format</b>	Determines how the report generates. Use the <b>State Format (Comma Delimited)</b> when submitting the report to the state. Use the <b>HTML</b> or <b>Tab Delimited</b> option when reviewing data prior to state submission.
<b>Ad hoc</b>	Select a saved ad hoc filter to use when generating this report. Only those students included in the filter will be returned on the report if they meet the reporting requirements.
<b>Calendar Selection</b>	At least one calendar needs to be selected for the report to generate. Calendars can be chosen by <b>Active Year</b> , by <b>School</b> or by <b>Year</b> . If a calendar is selected in the Campus toolbar, that calendar is automatically selected.
<b>Report Generation</b>	The report can be generated immediately using the <b>Generate Extract</b> button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the <b>Submit to Batch</b> button, which allows the user to choose when the report is generated. See the <a href="#">Batch Queue</a> article for more information.

## Generate the Report

1. Select Student Demographics/Enrollment from the **Extract Type** field.
2. Enter the **Effective Date** for the report.
3. Enter a **File Identifier**. This is a three digit number attached to the file name used to differentiate itself from other ISBE Demographic and Enrollment Extract files generated.
4. Select the **Students w/o stateIDs** checkbox to include students without state IDs within the report.
5. If desired, mark the **Strip Apostrophes** checkbox.
6. If desired, mark the **Report Protected Identities** checkbox.
7. Select which **Format** to generate the report in. To preview information prior to submission to the state, use the HTML format. When submitting data to the state, use the State Format (Comma Delimited).
8. If desired, select an **Ad hoc Filter** from which to pull the student set.
9. Select which **Calendars** to include within the report.
10. Select the **Generate Extract** button or use the **Submit to Batch** option. The report will

appear in a separate window in the designated format.
