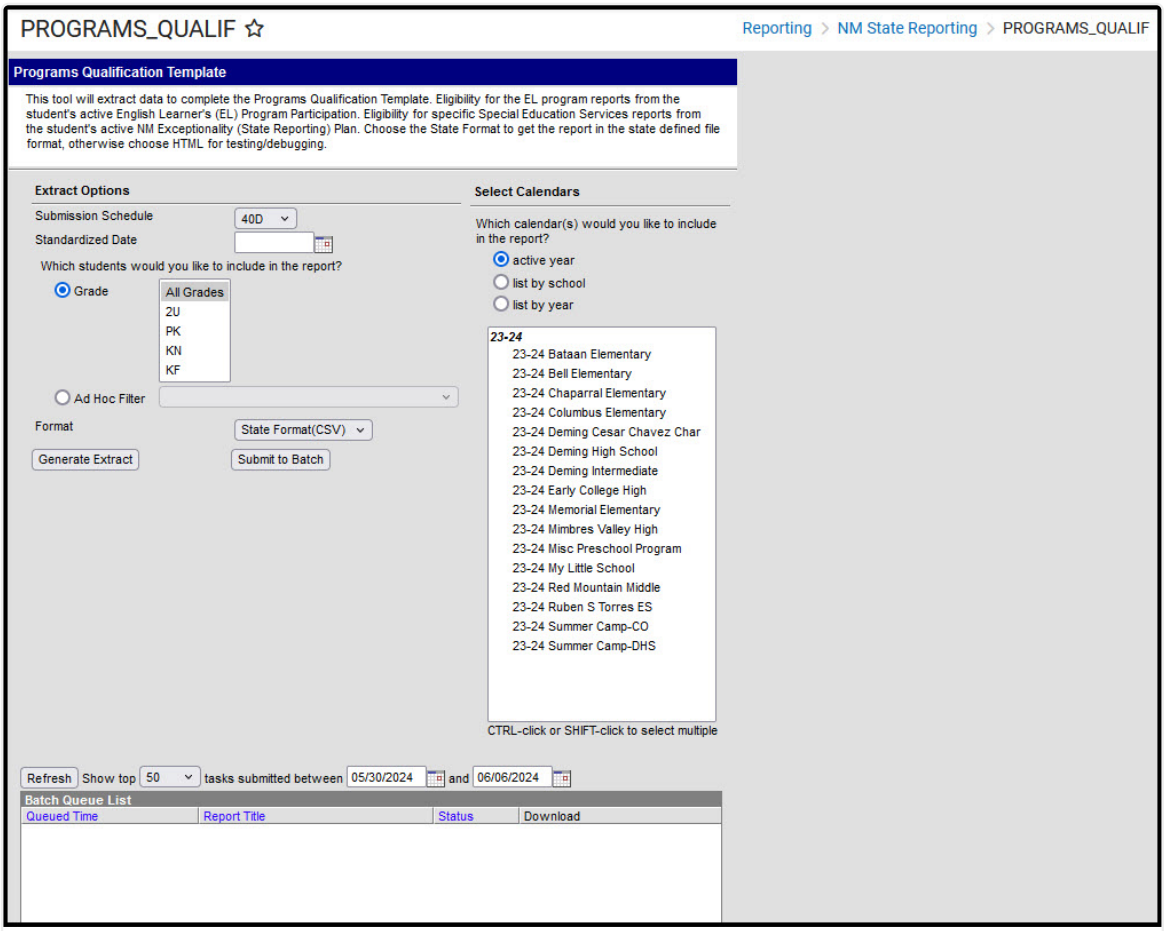
Tool Search: Programs Qualif

The Programs Qualification Template tracks program eligibility for the ELL program and for specific Special Education Services that a student requires.



Programs Qualification Template Editor

Report Logic

- One record reports per enrolled student's reportable EL Program Participation that is active on the Standardized Date selected on the extract editor.
- One record reports for each Program Qualification selected on the enrolled student's most recent (last entered) Evaluation.
- The student's EL Program Participation must have a Program Status of EL to report.

- To report, an evaluation MUST be entered on the student's NM Exceptionality (state reporting) Plan and must be active on the Standardized Date selected on the extract editor.

- The Program Qualification must be populated.

- The student MUST have a Student State ID to report.
- Students are NOT included if
  - their enrollment record is marked as State Exclude;
  - their enrollment record is marked as No Show;
  - their Grade Level of enrollment is marked as State Exclude; or
  - their Calendar of enrollment is marked as State Exclude.

Report Editor

Field	Description
Submission Schedule	The Submission Schedule for which data is being submitted to the state.
Standardized Date	The standardized date of the collection on which the student must be enrolled to report.
Which Students would you like to include in the report?	• **Grade**: Select a single grade or multiple grades (CTRL-click or SHIFT-click to select multiple). • **Ad Hoc Filter**: Ad Hoc Filters allow you to limit report results to those included in the filter. This option is useful for troubleshooting.
Format	The format in which the report will generate. Options include HTML and State Format (CSV).
Select Calendars	The calendar(s) from which data is pulled for the report.
Generate Extract Submit to Batch	The report can generate immediately using the **Generate Extract** button or can be marked to generate at a later time using the **Submit to Batch** button. See the Batch Queue article for additional guidance.
