Tool Search: Enrollment Census

The Enrollment Census Home Address extract collects student address information - mailing information and primary household information - for state reporting. The Enrollment Census Extracts collect various types of student information, including demographics, address and contact information, behavior events and program participation.

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

## Report Logic

A record is reported for each student's mailing address and primary household address. Students who have an Enrollment Status of W (Summer Withdrawal) are not reported.

## Generate the Home Address Extract

1. Select **Home Address** from the **Extract Type** dropdown list.

2. Enter an **Effective Date** in *mmdyyy* format or by clicking the calendar icon and selecting a date.
3. Select the **Format** in which the report should generate. Options are CSV and HTML.
4. If the student's legal name and gender information should report from the Protected Identity Information area, mark the **Report Legal Identities** checkbox.
5. Click **Generate Extract** to generate the report in the desire format.
