The Migrant tool captures information for students whose parents/guardians move frequently in an effort to find work or better living conditions. The Federal Migrant Program provides support for these students to be successful in their education. The Federal/State Program Updater Tool can be used with this program.

This article is for customers currently using this tool. Customers new to Campus or wishing to use the new Migrant Tools Workflow (Migrant Eligibility, Migrant Enrollment, Program Services - Migrant) will not use this tool.

The Migrant tool is used to capture information about a migrant student's status.

See the Program Participation Tools Tool Rights article to learn about rights needed to use

this tool.

Enter/modify Migrant records

Record entry conditions

- Overlapping records are not allowed.
- If a new record is added before an existing record has an end date, a warning message displays. Enter an End Date on the existing record before adding a new record.
- If a new record is added that with a start date that is between the start and end dates of a historical record, a warning message displays. Verify the entered date on the new record is correct.

Enter Migrant records

Migrant information in Ad hoc

Migrant information is available in the Query Wizard for Student Data Type filters. Fields can be selected from the **Student > Learner > Migrant** folder.

- The **Student > Learner > Migrant** fields returns data associated with the Student Migrant Detail editor.
- The **Student > Learner > Migrant > Custom_ic_Migrant** fields returns data associated with any district defined fields added to the Migrant toolset.

Migrant information entered on the Enrollment editor can be selected from the **Student > Learner > Active Enrollment/All Enrollment > State Reporting Elements** folder.

Ad hoc filters can be created to extract migrant information by including migrant-related fields.

Custom fields

Users can use the Custom Attribute/Dictionary to add District and State Defined fields for Migrant in State and District editions. Custom fields do not sync to the state edition from the district edition. Custom fields are available in Ad hoc reporting.

State Edition information

Publish from a State Edition to a District Edition

Migrant records can be published for an individual student from a State Edition to a District Edition. This tool is only available to State Edition users.

1. Click the **Publish State Migrant Records** icon.
2. A message displays indicating the request has been submitted. Click **OK.**
3. A Migrant record is created in the District Edition.

State Edition to DIS-linked District Editions

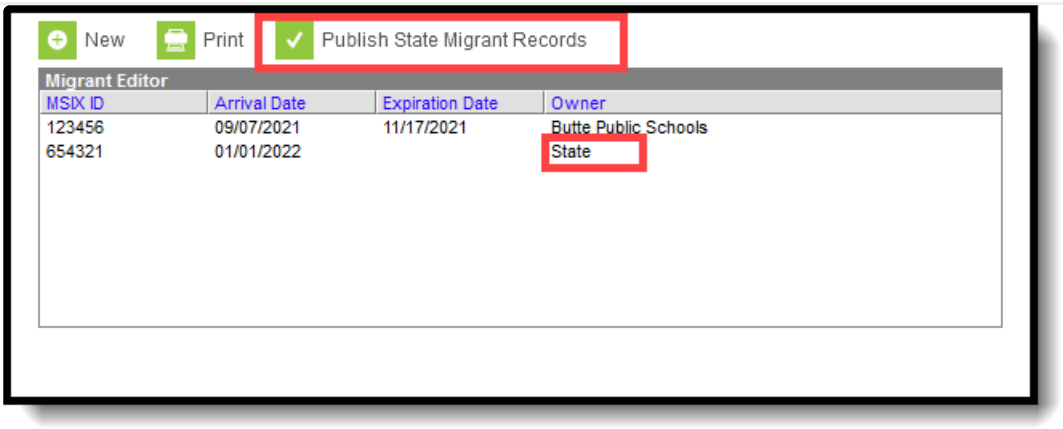

When data is published from the State Edition to DIS-linked District Editions, logic compares data from the State Edition versus the District Edition. Note the following:

- Users must have statewide access to publish student records.
- There must be at least one state-owned record for the student in order for the Publish State Migrant Records icon to display.
- Only state-owned records can be published.
- For State-linked customers, the Owner column on both the State and District editions displays the district name if the record is a district owned record and 'State' if it is a state owned record. The Filter dropdown allows users to view all records, only state owned records, or only district owned records.

District Editions to State Edition

When data is published from the State Edition to DIS-linked District Editions, logic compares data from the State Edition versus the District Edition:

- Only State owned data is published down to districts.
- When the Migrant record being published does not exist at the district, the Migrant record is created at the district.
- When the Migrant record being published exists at the district, data changes made at the State level are updated on the district record.
- When the Migrant record being published exists at the district but no changes exist between the state and district record(s), no update is made.
- When the Migrant record being published exists at the district but the record was deleted in the State Edition, the record is deleted at the district.

The Publish State Migration Records button publishes state migrant records for the selected student.
