Tool Search: Migrant

The Migrant tool captures information for students whose parents/guardians move frequently in an effort to find work or better living conditions. The Federal Migrant Program provides support for these students to be successful in their education. The [Federal/State Program Updater Tool](#) can be used with this program.

The Last Qualifying Arrival Date field is required as of the Campus.2415 release. Staff editing historical records will be prompted to enter a date in that field in order to save the record if one does not already exist. This change does not impact current state reporting of Migrant data.

Publish Migrant Records from a State Edition to a District Edition

Migrant records can be published for an individual student from a State Edition to a District Edition. This tool is only available to State Edition users.

1. Click the **Publish Sate Migrant Records** icon.
2. A message displays indicating the request has been submitted. Click **OK**.
3. A Migrant record is created in the District Edition.

Migrant Information in Ad hoc

Migrant information is available in the Query Wizard for Student Data Type filters. Fields can be selected from the **Student > Learner > Migrant** folder.

- The **Student > Learner > Migrant** fields returns data associated with the Student Migrant Detail editor.
- The **Student > Learner > Migrant > Custom_ic_Migrant** fields returns data associated with any district defined fields added to the Migrant toolset.

Migrant information entered on the Enrollment editor can be selected from the **Student > Learner > Active Enrollment/All Enrollment > State Reporting Elements** folder.

Migrant Ad hoc Fields

Migrant Tool Rights

Full tool rights to the Migrant tool require the following:

State Edition to DIS-linked District Editions

When data is published from the State Edition to DIS-linked District Editions, logic compares data

from the State Edition versus the District Edition. Note the following:

- Users must have statewide access to publish student records.
- There must be at least one state-owned record for the student in order for the Publish State Migrant Records icon to display.
- Only state-owned records can be published.
- For State-linked customers, the Owner column on both the State and District editions displays the district name if the record is a district owned record and 'State' if it is a state owned record. The Filter dropdown allows users to view all records, only state owned records, or only district owned records.

District Editions to State Edition

When data is published from the State Edition to DIS-linked District Editions, logic compares data from the State Edition versus the District Edition:

- Only State owned data is published down to districts.
- When the Migrant record being published does not exist at the district, the Migrant record is created at the district.
- When the Migrant record being published exists at the district, data changes made at the State level are updated on the district record.
- When the Migrant record being published exists at the district but no changes exist between the state and district record(s), no update is made.
- When the Migrant record being published exists at the district but the record was deleted in the State Edition, the record is deleted at the district.

Custom Tools [Migrant \(North Carolina\)](#)

Users can create custom tabs for Migrant in State and District editions. Custom tabs do not sync to the state edition from the district edition. Custom tabs are available in Ad hoc reporting.
