The Table 8A Extract reports all students who have a locked Evaluation Summary Report (ESR) where the Evaluation is within the start and end dates entered on the report editor, and the student's [State Referral](#) record for each locked evaluation is within the entered dates.

The screenshot shows the 'Special Education Extracts' tool interface. At the top, there's a green header with the Infinite Campus logo and a search icon. Below the header, the title 'Special Education Extracts' is followed by a star icon. A blue bar contains the text 'Special Education Extracts'. Below this, a message states: 'This tool will extract Special Education data for the PA Special Education table reports. Choose the state format to get the file in the state defined format.'

The 'Extract Options' section includes the following fields:

- First Staff Day: 10/01/2021 (calendar icon)
- Report Protected Identities: ☒

## Report Logic

All students who have a locked ESR Evaluation and the Evaluation Editor's Date of Report is within the Start and End Dates entered on the extract editor. When there are multiple locked ESRs within the report generation start and end dates, a record reports for each ESR. The student's State Referral record is used to find the start date prior and closest to the locked ESR Date of Report

where the Referral Type is Initial.

When the State Referral Record has the Referral Stopped checkbox marked, it does not report.

ESR Re-Evaluations are not included.
