Table 3 Extract reports the number of related service personnel (in FTE) employed or contracted to work with children with disabilities, ages 3-21 by LEA across the entire district. Staff who have the same assignment in multiple schools are counted with each assignment; Staff who have different assignments in the same school or different schools are counted with each assignment.

Report Logic

The report looks at the staff person's District Assignment Title and the District Assignment Type to return a count of Certified and Non-certificate Special Education Teachers, ages 6-21. This information is found on the District Assignment editor.
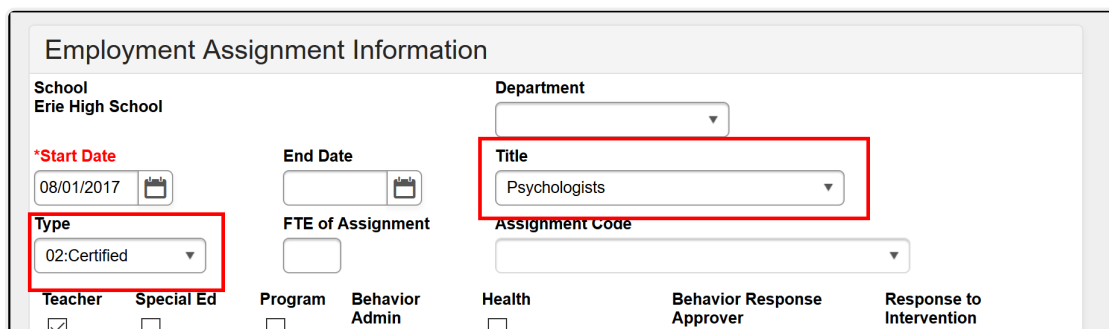

The **Title** needs to be set to the following in the Title's Attribute Dictionary **Standard Code** column. See the Report Layout below for the specific row in which each title reports.

- 200: Audiologist
- 201: Speech-Language Pathologists
- 202: Interpreter
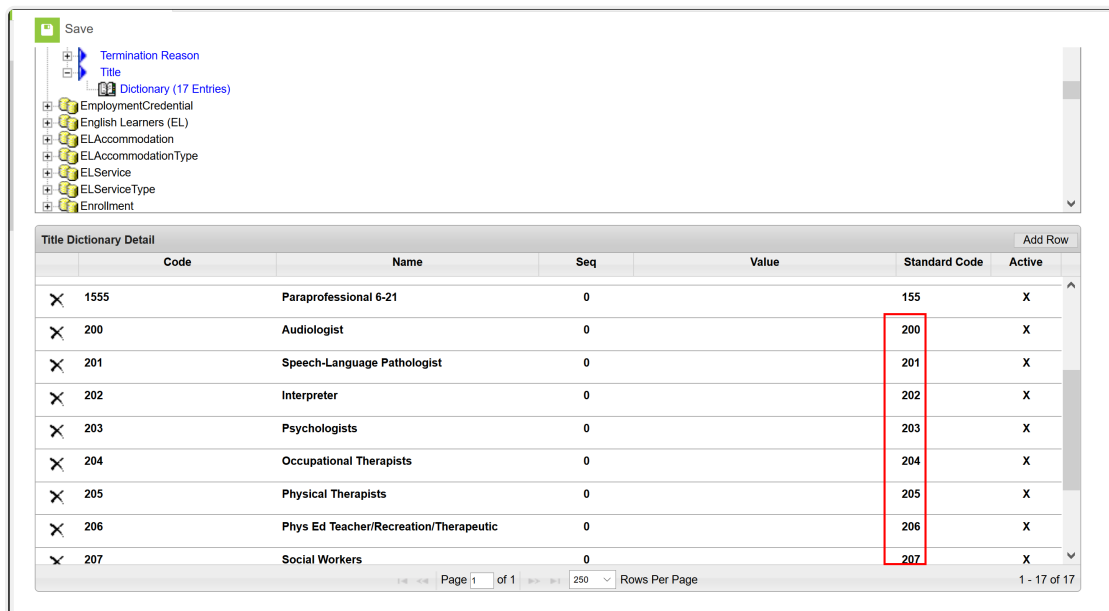

- 203: Psychologist
- 204: Occupational Therapists
- 205: Physical Therapists
- 206: Physical Education Teacher and Therapeutic Recreation Specialists
- 207: Social Workers
- 208: Medical/Nursing Service Staff
- 209: Counselors and Rehabilitation Counselors
- 210: Orientation and Mobility Specialists

The **Type** can be **01: Administrative, 02: Certified**, or **03: Classified**. The report counts each one of these types.

The **End Date** field needs to be unpopulated, meaning the staff person's assignment is active and current, or the End Date can be on or after the entered Effective Date on the report editor.

District Assignment Title Standard Codes

When the **Staff Title Standard Code = 200 through 210**, logic looks at the dictionary detail **Employment Type Standard Code** for a value of 01 to determine the qualified/certified staff (see image above) count. When the staff's type standard code does not = 01, staff are included in the non qualified/certified count.
