

Early and End of Year Attendance Collections (Maryland)

Last Modified on 04/04/2025 2:42 pm CDT

Tool Search: Early and End of Year Attendance

The Early and End of Year Attendance Collections reports individual student attendance data such as school entry and exit information, the number of days in attendance, number of days absent and general demographic information. This information is then submitted to the Maryland Department of Education for use in attendance, graduation, and dropout rate analysis.

Early and End of Year Attendance Collections

The Early and End of Year Attendance Collections will report PK - 12 grade students from the first day of school through the effective date of report generation. The early attendance reports from the beginning of the school year through the MSA Post-test date. The end of year attendance reports from the beginning of the school year through the last day of school. A break in a student's enrollment will result in separate records. Choose the State Format to get the state defined flat file format, otherwise choose one of the testing/debugging formats.

Early and End of Year Attendance Collections Extract Editor

Report Logic

- Reports a record for each primary, partial, or special ed enrollment for students with an active enrollment on at least one day from the first instructional/attendance day in the calendar through the End Date selected on the extract editor.
- The day the student had an active enrollment must be marked as an instructional day and an attendance day.
- If a student has multiple enrollments in the district that meet the reporting criteria, a record reports for each enrollment.

- When enrollments in the selected calendar(s) have a value in the home school field, the home school reports as the school.
- Students are NOT included if their:
 - enrollment record is marked as State Exclude;
 - enrollment record is marked as No Show;
 - Grade Level of enrollment is marked as State Exclude; or
 - Calendar of enrollment is marked as State Exclude.
