A report card summarizes a student's progress throughout a school year. Schools can generate report cards for each term within their calendar. Campus provides a standard report card format that prints, or schools can create a report card with the available options. This saved report card is available for selection from the [Report Card Batch Report](#) and the student's [Grades](#) tool.

A **Conventional Report Card** lists the grade report by course number and grading tasks for each selected term. Report cards can also be standards-based. See the [Standards-Based Report Card](#) article for more information.

Report Setup - Report Cards

Create a Report Card

1. Select the **New** icon. The **Report Detail** and **Report Options** editors display.
2. Enter a **Name** for the report card being created. This name can be up to 50 characters in length.
3. Select the **Report Card** option from the **Type** dropdown list.
4. Determine whether or not this report should be available in Campus Instruction and Campus Parent/Campus Student. If so, mark the **Instruction** and **Portal** checkboxes for **Available In**. For information on these options, see the Report Setup article; for more information when

marking the Instruction checkbox, see the Report Cards (Instruction) article.

5. If desired, enter a **Description** for this report. This description can be up to 200 characters.
6. Select all appropriate **Report Options**, as defined below.
7. Click the **Save** icon when finished. Once saved, the report displays in the **Report Editor** and can be selected on the **Report Card** in the **Grading and Standards Reports** section.

Report Options

The following options are available for a Conventional Report Card and assumes the **Report Type** chosen is **Conventional Report Card**.

Option	Description																																																																																				
Display Grades																																																																																					
At least one option must be selected, or BOTH options can be selected. This selection determines which calculated grade to print.																																																																																					
	<ul style="list-style-type: none"> Posted Grades show only grades that have been posted. In-Progress shows all grades for the latest in-progress calculated grade Choosing both options shows in-progress grades for any courses that have an in-progress calculation and the posted grade for any grades that have been posted. 																																																																																				
Posted Grades	<p>When marked, posted scores to the selected grading tasks print.</p> <p>When only choosing Posted Grades, In-Progress scores DO NOT print.</p>																																																																																				
In-Progress Grades	<p>When marked, a student's score prints as of the current date. This grade has not been posted to any grading tasks. In-progress grades (scores) are printed with an asterisk. This option prints the last calculated grade, even if this has a posted grade. The in-progress grade could be different than the posted grade.</p> <p>If this is the only Display Grades option selected, the header on the printed report card reads <i>In-Progress Grades Report</i>. In the first example to the left, the header reads <i>Grades Report</i> because both Posted Grades and In-Progress Grades are selected. The second example to the left only included In-Progress Grades.</p> <p>When only choosing In-Progress Grades, posted grades and GPA selections DO NOT print.</p> <p>This image shows both In-Progress and Posted Grades.</p>

Prepare report for full duplex printing

When marked, all of the report cards in the selection are formatted to print on both the front and back sides of the paper.

This also applies when a student or parent prints the report card from the Campus Portal.

Header Options

Selections indicate which student identifiers print at the beginning of the report card.

Also included in the Header is identifying information, like the student's name, grade level and the name of the report card.

Student ID	Student's local identification number populated on the Demographics tool.
State ID	Student's state identification number populated on the Demographics tool.

Option	Description
Student Counselor	Student's school-assigned Counselor as listed on the student's Team Members (Counseling) tool.
Homeroom Teacher	<p>When marked, the student's homeroom teacher prints on the report card.</p> <ul style="list-style-type: none"> • Homeroom must be marked on the Course Editor and/or Section Editor. • If a student is scheduled into multiple sections marked as homeroom, the teacher with the last name that is higher in the alphabet prints. For example, a homeroom teacher of Ferguson is printed when a student is in Teacher Ferguson's homeroom and Teacher Williams' homeroom. <p>Homeroom Teacher</p> <p>The Teacher's name prints when the Homeroom checkbox is marked on the Course Editor or the Section editor.</p> <ul style="list-style-type: none"> • If more than one teacher is assigned to a section, the first two names print on the Report Card. • If no teacher is assigned to the section, no teacher name prints on the Report Card. • If a student moves to a new homeroom section, the teacher of the new homeroom prints on the Report Card. • If the student is NOT enrolled in a Course/Section marked as homeroom, N/A prints on the Report Card. • If the student ended enrollment in the Course/Section, the former homeroom teacher's name prints on the Report Card.
Date/Time Stamp	Prints the date and time when the report was generated.

Option	Description																								
Attendance Summary																									
Selections indicate how the attendance information displays on the report card. To include Attendance information, mark the Attendance Summary checkbox first, then mark the terms to include. When only one term is selected, no Total column of attendance events prints; a total column only prints when more than one term is selected.																									
Attendance entered for non-instructional periods and courses not marked for attendance do NOT appear on the report card.																									
The information in the letter sub-reports uses data stored in the AttendanceDayAggregation table. This means that attendance data for the current date is accurate as of the previous night's attendance calculation or the last time the Attendance Aggregation Refresh was run. If needed, the Attendance Aggregation Refresh tool can be run to force an attendance recalculation to pull in the current day's data.																									
Select Terms	<p>Select the terms for which to print attendance. Mark the Schedule Structure and Term, then mark the desired Term checkboxes (Term Q1, Term Q2, etc.).</p> <p>The report card does not print a total column if only one term is selected (first image). If more than one term is selected, a Total column prints, in addition to the selected terms (second image).</p> <div style="border: 1px solid black; padding: 10px; margin-bottom: 20px;"><p style="text-align: center;">Attendance Summary By Term:</p><table style="width: 100%; border-collapse: collapse;"><thead><tr><th colspan="2" style="text-align: center;">Q2</th></tr><tr><th style="text-align: center;">Absent</th><th style="text-align: center;">Tardy</th></tr></thead><tbody><tr><td style="text-align: center;">0.38</td><td style="text-align: center;">0</td></tr></tbody></table></div> <div style="border: 1px solid black; padding: 10px;"><p style="text-align: center;">Attendance Summary By Term:</p><table style="width: 100%; border-collapse: collapse;"><thead><tr><th colspan="2" style="text-align: center;">Q1</th><th colspan="2" style="text-align: center;">Q2</th><th colspan="2" style="text-align: center;">Total</th></tr><tr><th style="text-align: center;">Absent</th><th style="text-align: center;">Tardy</th><th style="text-align: center;">Absent</th><th style="text-align: center;">Tardy</th><th style="text-align: center;">Absent</th><th style="text-align: center;">Tardy</th></tr></thead><tbody><tr><td style="text-align: center;">0</td><td style="text-align: center;">1</td><td style="text-align: center;">0.38</td><td style="text-align: center;">0</td><td style="text-align: center;">0.38</td><td style="text-align: center;">1</td></tr></tbody></table></div>	Q2		Absent	Tardy	0.38	0	Q1		Q2		Total		Absent	Tardy	Absent	Tardy	Absent	Tardy	0	1	0.38	0	0.38	1

Period													

Option	Description
This selection adds the period number or name before the Course Section name.	
Score Comments	
	A teacher can enter grades for the grading task as well as comments related to that score, the student's behavior, etc. This mark displays the comment on the report card for the selected terms. When more than one term is selected, an indication of that term displays on the report card.
	Mark the option to print Score Comments and then select the terms for which to print the comments. If no terms are selected, no comments print.
One Term	Displaying comments for one term only prints the comments for the selected term.
Multiple Terms	Displaying comments for multiple terms prints the comments in term order (Term 1 comments, Term 2 comments, etc.).

Legal Name	
<p>When selected, the student's legal first name, legal middle name, legal last name and legal suffix print if entered in the Protected Identity information and if the user has tool rights to Protected Identity Information (users need at least Read rights to Protected Identity Information).</p> <p>The Effective Date on the Identity Record is not considered when printing the Protected Identity information on a report card. As long as those protected identity fields are populated on the current Identity record, the legal first/last/middle/suffix values print.</p> <p>When the legal first name or legal last name is not populated or if the user does not have tool rights to this information, the student's first name and last name report from the First Name and Last Name fields on the student's current Identity record.</p>	
	
<p>When the Portal - Active checkbox is marked on the Report Detail editor AND the Legal Name option is marked, the Report Card prints the student's Legal Name on the report card generated from Campus Student or Campus Parent.</p>	
Term GPA	This number reflects the grades given for the term and does not use transcript information to calculate. This can also be displayed with bonus points.
<p>See the GPA Calculations article for detailed information on the calculations used to find GPA.</p>	
Weighted, Unweighted	This value is the student's average of scores within a specified term.

Mailing Label Options

Report cards can be printed for mailing or handing out in class. They can also be printed with or without an address to the student's parent/guardian.

Student's Primary Household Only	Print report cards for the student's primary household. Any individual in that household or related to that household who is marked for mailing on the relationship receives a report card. Household addresses can be primary or secondary.
No Mailing Label	Prints the report card without an address. This can be used to hand out report cards in class. This should not be marked if the other mailing label options are marked.
Recipient Names	Prints the names of the individuals receiving the report card instead of 'To the parent/guardian of'. Names print on the first two lines of the address with first and last names.

Grading Tasks and Standards

All items on which the student is graded display in the Grading Tasks list, whether they are Grading Tasks or Standards.

Grading Tasks and Standards are assigned to Courses and are used to assign students a grade in the appropriate Course Section. Grading Tasks are usually term-based and are posted at the end of a Quarter or Semester. Schools could also have Process Grades or Weekly grades. All of these tasks can be selected to display on the report card. Depending on the school's needs, there may be one report card per grading term. Or, there could be a report card for the end of the semester that only lists the semester grades.

Standards are skills the student must learn throughout the course of the year and determine the student's success in the given course and/or grade level. Skills like "Reading at grade level" or "Comprehends written material" are considered standards and vary from district to district.

Option	Description																																																												
Select all grading tasks	<p>This option prints each grading task/standard on the report card assigned to a course in which the student is enrolled. If no score is given to the student for the standard, the fields are blank.</p> <p>Standards display on the report card in Standard Group Name order. See the Standards Bank article for information on organizing and maintaining standards.</p> <p>Depending on how grading tasks and standards are set up at the district, there may be one-time tasks/standards (items that are assessed only once during the student's career at the school).</p> <p>These can also be selected to print on the report card.</p> <div data-bbox="500 786 1278 999"> <p>Grade Report:</p> <table border="1"> <thead> <tr> <th>Course</th> <th>Task</th> <th>1</th> <th>2</th> <th>3</th> <th>4</th> </tr> </thead> <tbody> <tr> <td>01) 1400-5 Integrated Math IV A [Axtman, Deborah L]</td> <td>Mid-Term (Progress)</td> <td>B</td> <td></td> <td></td> <td></td> </tr> <tr> <td></td> <td>Term Grade</td> <td>A</td> <td>B</td> <td></td> <td></td> </tr> <tr> <td></td> <td>Term 1 Comments: Great improvement this term! Conventional Report Card Examples

The following images provide examples of Conventional Report Cards. They include examples from elementary schools, middle schools, and high schools, with a variety of options.

Be aware there is limited header space (six lines) when printing the report card. Only choose the absolutely necessary options to include on a report card.

When all Header Options are selected, when student names are long and wrap to a second line, when counselor names are long and wrap to a second line, when the report card is sorted in a specific way, information included in the header of the report card (the information that includes the student name and other preferences) may not display all chosen information.

Troubleshooting - Why Aren't Posted Grades Displaying?

If posted grades are not displaying in report cards as desired, verify that the following steps have been completed:

- The [Grading Task](#) for which grades are posted is marked as **Include in Report Card**.
- The report card has the requisite **grading task** selected in the report card options described above and the correct **terms** selected.
- Printing report cards in [batches](#) requires an **Effective Date** that is an Instructional [Day](#).

- If the report card is set to 'Display only graded tasks and standards,' then the grade must already be posted for the task/standard to display on the report card.
