Tool Search: Report Setup

A report card summarizes a student’s progress throughout a school year. Schools can generate report cards for each term within their calendar. Campus provides a standard report card format that prints, or schools can create a report card with the available options. This saved report card is available for selection from the [Report Card Batch Report](#) and the student's [Grades](#) tool.

A **Conventional Report Card** lists the grade report by course number and grading tasks for each selected term. Report cards can also be standards-based. See the [Standards-Based Report Card](#) article for more information.

The screenshot shows the 'Report Setup' interface with the following sections:

- Reports Editor:** A table listing various report cards and schedules. The 'Q1 - Report Card' is selected.
- Report Detail:** Fields for Name (Q1 - Report Card), Type (Report Card), and Description. It also shows 'Available in' checkboxes for Instruction, Portal - Active, and Portal - Historical.
- Report Options:** Includes 'Report Display Name', 'Report Type' (Conventional Report Card selected), 'Display Grades' (Posted Grades checked), 'Report on Terms' (Main - Quarter, Term Q1 checked), and a 'Grading Tasks' list with checkboxes for each task.

Report Setup - Report Cards

Create a Report Card

1. Select the **New** icon. The **Report Detail** and **Report Options** editors display.
2. Enter a **Name** for the report card being created. This name can be up to 50 characters in length.
3. Select the **Report Card** option from the **Type** dropdown list.
4. Determine whether or not this report should be available in Campus Instruction and Campus Parent/Campus Student. If so, mark the **Instruction** and **Portal** checkboxes for **Available In**. For information on these options, see the Report Setup article; for more information when

marking the Instruction checkbox, see the Report Cards (Instruction) article.

5. If desired, enter a **Description** for this report. This description can be up to 200 characters.
6. Select all appropriate **Report Options**, as defined below.
7. Click the **Save** icon when finished. Once saved, the report displays in the **Report Editor** and can be selected on the **Report Card** in the **Grading and Standards Reports** section.

Report Options

The following options are available for a Conventional Report Card and assumes the **Report Type** chosen is **Conventional Report Card**.

Option	Description																																																																																																																																																						
<p>Display Grades</p> <p>At least one option must be selected, or BOTH options can be selected. This selection determines which calculated grade to print.</p> <ul style="list-style-type: none"> • Posted Grades show only grades that have been posted. In-Progress shows all grades for the latest in-progress calculated grade • Choosing both options shows in-progress grades for any courses that have an in-progress calculation and the posted grade for any grades that have been posted. 																																																																																																																																																							
<p>Posted Grades</p>	<p>When marked, posted scores to the selected grading tasks print.</p> <p>When only choosing Posted Grades, In-Progress scores DO NOT print.</p>																																																																																																																																																						
<p>In-Progress Grades</p>	<p>When marked, a student's score prints as of the current date. This grade has not been posted to any grading tasks. Placement and Signature Options

Selections determine what placement or signature lines display at the end of the report card. All of these are manual entries.

Next Year Placement Line	Provides a line for users to manually write in the student's next year placement.
Teacher Signature Line	Places a teacher signature line at the bottom of the report card.
Principal Signature Line	Places a principal signature line at the bottom of the report card.
Parent Signature Line	Places a parent signature line at the bottom of the report card.

Option	Description																								
	<p>Attendance Summary</p> <p>Selections indicate how the attendance information displays on the report card. To include Attendance information, mark the Attendance Summary checkbox first, then mark the terms to include. When only one term is selected, no Total column of attendance events prints; a total column only prints when more than one term is selected.</p> <p>Attendance entered for non-instructional periods and courses not marked for attendance do NOT appear on the report card.</p> <p>The information in the letter sub-reports uses data stored in the AttendanceDayAggregation table. This means that attendance data for the current date is accurate as of the previous night's attendance calculation or the last time the Attendance Aggregation Refresh was run. If needed, the Attendance Aggregation Refresh tool can be run to force an attendance recalculation to pull in the current day's data.</p>																								
<p>Select Terms</p>	<p>Select the terms for which to print attendance. Mark the Schedule Structure and Term, then mark the desired Term checkboxes (Term Q1, Term Q2, etc.).</p> <p>The report card does not print a total column if only one term is selected (first image). Option	Description														
<p>GPA Calculation</p>	<p>Allows selection of either the Campus Cumulative GPA (most districts use this) or a Custom GPA Calculation (where a special stored procedure or course weighting is used).</p> <p>Using the Campus Cumulative GPA option allows the selection of a Calculation Type. <p>Period</p>															

Option	Description
--------	-------------

This selection adds the period number or name before the Course Section name.

Score Comments

A teacher can enter grades for the grading task as well as comments related to that score, the student's behavior, etc. This mark displays the comment on the report card for the selected terms. When more than one term is selected, an indication of that term displays on the report card.

Mark the option to print **Score Comments** and then select the terms for which to print the comments. If no terms are selected, no comments print.

One Term	Displaying comments for one term only prints the comments for the selected term.
-----------------	--

Multiple Terms	Displaying comments for multiple terms prints the comments in term order (Term 1 comments, Term 2 comments, etc.).

--------	-------------

Legal Name

When selected, the student's legal first name, legal middle name, legal last name and legal suffix print if entered in the [Protected Identity](#) information and if the user has [tool rights](#) to Protected Identity Information (users need at least Read rights to Protected Identity Information).

The Effective Date on the Identity Record is not considered when printing the Protected Identity information on a report card. As long as those protected identity fields are populated on the current Identity record, the legal first/last/middle/suffix values print.

When the legal first name or legal last name is not populated or if the user does not have tool rights to this information, the student's first name and last name report from the First Name and Last Name fields on the student's current Identity record.

When the **Portal - Active** checkbox is marked on the Report Detail editor AND the Legal Name option is marked, the Report Card prints the student's Legal Name on the report card generated from Campus Student or Campus Parent.

Term GPA
 This number reflects the grades given for the term and does not use transcript information to calculate. This can also be displayed with bonus points.
 See the [GPA Calculations](#) article for detailed information on the calculations used to find GPA.

Weighted, Unweighted	This value is the student's average of scores within a specified term.

with Bonus Points	<p>Prints the Term GPA with Bonus Points changes the student's GPA.</p> <p>Bonus points are awarded at a particular course's score/mark level. Students receive bonus points based on the score earned (e.g., an "A" may receive a bonus point, whereas a "C" may not). See the Using Bonus Points section of the GPA Calculations article for more information.</p>

Mailing Label Options

Report cards can be printed for mailing or handing out in class. They can also be printed with or without an address to the student's parent/guardian.

Student's Primary Household Only

Print report cards for the student's primary household. Any individual in that household or related to that household who is marked for mailing on the relationship receives a report card. Household addresses can be primary or secondary.

No Mailing Label

Prints the report card without an address. This can be used to hand out report cards in class. This should not be marked if the other mailing label options are marked.

Recipient Names

Prints the names of the individuals receiving the report card instead of 'To the parent/guardian of'. Names print on the first two lines of the address with first and last names.

Grading Tasks and Standards

All items on which the student is graded display in the Grading Tasks list, whether they are Grading Tasks or Standards.

Grading Tasks and Standards are assigned to Courses and are used to assign students a grade in the appropriate Course Section. Grading Tasks are usually term-based and are posted at the end of a Quarter or Semester. Schools could also have Process Grades or Weekly grades. All of these tasks can be selected to display on the report card. Depending on the school's needs, there may be one report card per grading term. Or, there could be a report card for the end of the semester that only lists the semester grades.

Standards are skills the student must learn throughout the course of the year and determine the student's success in the given course and/or grade level. Skills like "Reading at grade level" or "Comprehends written material" are considered standards and vary from district to district.

Option	Description

If no score is given to the student for the standard, the fields are blank.</p> <p>Standards display on the report card in Standard Group Name order. See the Standards Bank article for information on organizing and maintaining standards.</p> <p>Depending on how grading tasks and standards are set up at the district, there may be one-time tasks/standards (items that are assessed only once during the student's career at the school).</p> <p>These can also be selected to print on the report card.</p> <div style="border: 1px solid black; padding: 5px; margin-top: 10px;"> <p>Grade Report:</p> <table border="1"> <thead> <tr> <th>Course</th> <th>Task</th> <th>1</th> <th>2</th> <th>3</th> <th>4</th> </tr> </thead> <tbody> <tr> <td rowspan="4">01) 1400-5 Integrated Math IV A [Axtman, Deborah L]</td> <td>Mid-Term (Progress)</td> <td></td> <td>B</td> <td></td> <td></td> </tr> <tr> <td>Term Grade</td> <td></td> <td>A</td> <td>B</td> <td></td> </tr> <tr> <td colspan="5">Term 1 Comments: Great improvement this term! Conventional Report Card Examples

The following images provide examples of Conventional Report Cards. They include examples from elementary schools, middle schools, and high schools, with a variety of options.

Be aware there is limited header space (six lines) when printing the report card. Only choose the absolutely necessary options to include on a report card.

When all Header Options are selected, when student names are long and wrap to a second line, when counselor names are long and wrap to a second line, when the report card is sorted in a specific way, information included in the header of the report card (the information that includes the student name and other preferences) may not display all chosen information.

Troubleshooting - Why Aren't Posted Grades Displaying?

If posted grades are not displaying in report cards as desired, verify that the following steps have been completed:

- The **Grading Task** for which grades are posted is marked as **Include in Report Card**.
- The report card has the requisite **grading task** selected in the report card options described above and the correct **terms** selected.
- Printing report cards in **batches** requires an **Effective Date** that is an **Instructional Day**.

- If the report card is set to 'Display only graded tasks and standards,' then the grade must already be posted for the task/standard to display on the report card.
-
