KIDS TASC Extract (Kansas)

Last Modified on 07/23/2026 1:05 pm CDT

Tool Search: KIDS TASC

The Teacher and Student Connection (TASC) data collection is used to report a connection between students and teachers for use in creating rosters in other Kansas applications like K-FIT.

KIDS TASC Extract

Report Logic

Only one record per student per course/section reports. Students must have a State ID number in order to report. Students with state, grade or calendar exclude marked do not report.

Records are not reported when the student has dropped the course/section.

The Current Grade Level field reports the mapped State Grade Level, as follows:

Click here to expand...

State Code	Name	Code Mapping
00	Special Education Infant/Toddler	IT
01	3 year old Preschooler	PR
02	4 year old Preschooler	PR
03	5 year old Preschooler	PR

State Code	Name	Code Mapping
04	Four year old At Risk	PR
05	Kindergarten	KG
06	First Grade	01
07	Second Grade	02
08	Third Grade	03
09	Fourth Grade	04
10	Fifth Grade	05
11	Sixth Grade	06
12	Seventh Grade	07
13	Eighth Grade	08
14	Ninth Grade	09
15	Tenth Grade	10
16	Eleventh Grade	11
17	Twelfth Grade	12
18	Not graded	UG

Course Status

The course status field reports the student's progress in the selected calendar. This is a calculated value, based on the student's letter grade in the course.

The following table lists the business logic for the reported values.

Reported Value	Reports When
00	The student does not have a grade for a grading task or standard being reported, and the student has not dropped the course or left the school, and the effective date of the report is prior to the end of the course. The student must be marked as a migrant student in order to report this value.
01	• The student has a letter grade for a grading task or standard being reported, and • The letter grade is marked as passing as of the effective date selected in the extract editor. The logic looks at the score group/rubric used in the grading task or standard to determine if the grade is a passing score.

Reported Value	Reports When
02	• The student has a letter grade in a grading task or standard being reported, and • The letter grade is NOT marked as passing as of the effective date selected in the extract editor. The logic looks at the score group/rubric used in the grading task or standard to determine if the grade is a passing score.
05	• The student does NOT have a letter grade for the grading task or standard being reported, and • The student has NOT dropped the course or ended his/her enrollment, and • The effective date of the report is after the end date of the course
88	• The Monitoring Summative Assessments in KITE checkbox is marked on the student roster record. • The teacher does NOT have the student at the beginning of the school year. This value reports IF the district wants the teacher to monitor the student in KITE or if the teacher does have the student n a year-long course. If the district wants the teacher to monitor the student in KITE, the district can select this indicator on the student roster. If the indicator is marked, the record reports 88 regardless of other qualifying course statuses.
99	• The student has dropped the course before the end date of the course, and • There is no letter grade for the course, and • The student was NOT present for any time at all during the duration of the course.

Report Editor

Field	Description
Effective Date	The date on which data is extracted. The Effective Date is set to the current date by default. Dates are entered in *mmddyy* format or by clicking the calendar icon and selecting a date.
Student Ad Hoc Filter	If desired, an Ad hoc filter using the Student data type may be selected to further narrow the results. Only students included in this filter are included in the report.
Course Ad Hoc Filter	If desired, an Ad hoc filter using the Course/Section data type may be selected to further narrow the results.

Field	Description
Format	The format in which the extract is generated. Use State Format(Tab Delimited) when submitting to the state; otherwise, use HTML, CSV or XML to review data prior to submission.
Maximum Records Per File (state format only)	The maximum number of records that may be extracted if the report is being generated in State Format (Tab Delimited). This field defaults to 20000.
Select Calendars	The calendars from which data is extracted. At least one calendar must be selected in order to produce an extract.

Generate the Report

1. Enter the **Effective Date** in *mmddyy* format or by clicking the calendar icon and selecting a date.
2. If desired, select a **Student Ad Hoc Filter** from the dropdown. Only students included in the selected filter are included on the report.
3. If desired, select a **Course Ad Hoc Filter** from the dropdown.
4. Select the **Format** from the dropdown. Available formats include State Format (Tab Delimited), HTML and CSV.
5. Input the **Maximum Records Per File** into the field. The default is 20000. When a number is added to this field, only that number of records are returned. Multiple files should be generated to accommodate all reporting records.
6. Select which **Calendar(s)** to include in the report.
7. Click **Generate Extract**.

Report Layout

Report Header

Element	Description
Record Type	2 bytes, must contain the characters TH
Extract Date	10 bytes, date the export file was created; MM/DD/YY format
Extract Time	8 bytes, time export file was created; HH:MM:SS format
Transmission ID	10 bytes, must match the Transmission ID field in the Footer Record
Version	10 bytes, always 22.0
Delimiter Character	25 bytes, 0X09 for tab; 0X2C for CSV

Report Body

Element	Description	Location
Record Type	Reports as TASC. *Alphanumeric, 4 characters*	Not dynamically stored
Student School Identifier	Reports the student's accountability school identifier from the enrollment override location. When null, the State School number reports. *Alphanumeric, 4 characters*	School Information > State School Number School.number Enrollments > State Reporting Fields > AYP Override 1 Enrollment.schoolAYP1
Student's Legal Last Name	Reports the last name of the student. When the Legal Last Name field is populated, information reports from that field. *Alphanumeric, 60 characters*	Demographics > Person Information > Last Name Identity.lastName Identities > Identity Information > Protected Identity Information > Legal Last Name Identity.legalLastName
Student's Legal First Name	Reports the student's first name. When the Legal First Name field is populated, information reports from that field. *Alphanumeric, 60 characters*	Demographics > Person Information > First Name Identity.firstName Identities > Identity Information > Protected Identity Information > Legal First Name Identity.legalFirstName
Student's Legal Middle Name	Reports the student's middle name. *Alphanumeric, 60 characters*	Demographics > Person Information > Middle Name Identity.middleName

Element	Description	Location
Student Generation Code	Reports the student's suffix. *Alphanumeric, 10 characters*	Demographics > Person Information > Suffix Identity.suffix
Student's Gender	Indicates the student's gender. When the Legal Gender field is populated, information reports from that field. *Numeric, 1 character*	Demographics > Person Information > Gender Identity.gender Identities > Identity Information > Protected Identity Information > Legal Gender Identity.legalGender
Student's Date of Birth	Reports the student's date of birth. *Date field, 10 characters (MM/DD/YYYY)*	Demographics > Person Information > Birth Date Identity.birthDate
Student's Current Grade Level	Reports the student's current grade level. See the Report Logic section for more information. *Alphanumeric, 2 characters*	Enrollments > General Enrollment Information > Grade Enrollment.grade
Student's Local ID	Lists the student's local student identification number. *Alphanumeric, 20 characters*	Demographics > Person Identifiers > Local Student Number Person.studentNumber
Student's Hispanic Ethnicity	Identifies whether the student is identified as Hispanic/Latino. *Alphanumeric, 1 character*	Demographics > Person Information > Race Ethnicity > Hispanic/Latino Identity.hispanicLatino
State Student ID	Lists the student's state identification number. *Numeric, 10 digits*	Demographics > Person Identifiers > Student State ID Person.stateID
School Year	Indicates the end year of the selected calendar. *Numeric, 4 digits (YYYY)*	School Year Setup > School Year Detail > End Year Calendar.year

Element	Description	Location
Student's Race	Lists the student's race/ethnicity. *Numeric, 5 digits*	Indentities > Person Information > Federal Race Identity.raceEthnicityFed
State Subject Area	Reports the state subject area. *Numeric, 2 digits*	Course Information > Custom Data Elements > Subject Area Code Course.subjectArea
State Course Area	Indicates the state course area code. *Alphanumeric, 3 digits*	Course Information > State Code Course.stateCode
Local Course ID	Reports the local course identification number. *Numeric, 50 digits*	Course Information > Number Course.Number
Course Status	Indicates the student's course progress. Progress is determined by the letter grade ONLY that is assigned to the student; percentage values are not used in the calculation. See the Course Status logic for more information. *Numeric, 2 digits*	Data not stored
Educator Identifier	Lists the staff identification number of the primary teacher. When the staff ID is null, the 9999999999 reports. *Numeric, 10 digits*	Demographics > Person Identifiers > Staff State ID**,** SSN Person.staffStateID

Element	Description	Location
Educator's Last Name	Reports the educator's last name. When the Legal Last Name field is populated, information reports from that field. *Alphanumeric, 60 characters*	Demographics > Person Information > Last Name Identity.lastName Identities > Identity Information > Protected Identity Information > Legal Last Name Identity.legalLastName
Educator's First Name	Reports the educator's first name. When the Legal First Name field is populated, information reports from that field. *Alphanumeric, 60 characters*	Demographics > Person Information > First Name Identity.firstName Identities > Identity Information > Protected Identity Information > Legal First Name Identity.legalFirstName
Educator's Middle Name	Reports the educator's middle name. *Alphanumeric, 60 characters*	Demographics > Person Information > Middle Name Identity.middleName
Educator's Email	Reports the educator's email address. *Alphanumeric, 100 characters*	Demographics> Personal Contact Information> Email Identity.email
User Field 1	N/A	N/A
User Field 2	N/A	N/A
User Field 3	N/A	N/A
