Tool Search: STAR NA

The STAR NA Extract collects data for all staff member in positions not requiring licensure by the State Board of Teaching or the Minnesota Board of School Administrators.

STAR NA Extract Editor

Report Logic

- Reports all staff not requiring licensure employed in the district as of the Snapshot Date.
- A separate record reports for each employee classification and a separate record for each school per classification.
- District-wide staff report with a School Number of 000.
- Non-licensed staff who are contracted are not included in the report.
- Staff serving in multiple districts are only reported by the District of Employment.
- Active reportable employees without an active Work Assignment do report but with zero for Hours Worked Per Week.

In order for a record to report, the following must be true:

- The Work Assignment must be active on the Snapshot Date entered in the Extract Editor. Multiple Work Assignments can be reported.
- The Work Assignment must have a State Position Code/Title entered.
- Work Assignment will report based on the assigned Work Location. Multiple Work Locations will

report multiple records.

- Staff that have at least one or more active Work Assignments where Human Resources > Administration > Position Code > STAR Extract = NA on the Snapshot Date of the extract editor report. Staff who only have Work Assignments marked as LA or Do not report are not included.
- Staff can report on the LA and NA extract if they have one or more Work Assignments marked as LA and one or more Work Assignments marked as NA.
- Fields reporting from the HR General Information section will report based on the most recent record prior to or on the Snapshot Date.

Generating the Extract

1. Select *STAR NA* as the **Extract Type**.
2. Enter a **Snapshot Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date. Only data active as of this date will be included in the report.
3. Enter a **Previous Snapshot Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date. This date indicates the last time the report was run.
4. Select the **Format** in which the report should generate. Use *State Format (Fixed Width)* for submission to the state and *CSV* or *HTML* for data review and verification.
5. Click **Generate Extract** to view the report in the selected format.
